

TEETH

The best way to do a difficult thing is to divide it into parts and put a specialist on each part. That is the way we practice dentistry.

Painlessness

In addition to specialists for each branch we offer patients another great advantage not found elsewhere, namely "The Berlin System" for filling, crowning, or extracting teeth without pain. Unlike most methods it does not depend on one or two ways of killing pain, but embraces ten enough to overcome all the pain caused by work on the teeth.

Advantage in Magnitude

The great advantage in a large practice like ours is that there is enough work in each department to keep specialists constantly employed. "Practice makes perfect."

Teeth Extracted Without Pain

We simply put a little medicine around the tooth and lift it out painlessly, any number of teeth can be extracted at one sitting without any bad after effects. Skilled experience combined with modern appliances now make this operation one of pleasantness and satisfaction combined.

For persons of over nervous or timid dispositions, who desire unconsciousness during the operation we have "nitrous oxide gas."

Artificial Teeth properly made restore the natural expression of the mouth and preserve the youthful contour of the face.

Sterns' Fashionable Livery

Fashionable Livery means stylish rigs; that they are rubber-tired, drawn by live and well-groomed horses; that we have every style of wagon and carriage that a man of reason could ask for—in fact rigs that compare favorably with those from the finest private stables in town. Our turn-outs haven't got that "Livery stable-rig" stamp about them.
This is very reasonable weather for driving—roads are excellent and the air bracing. Use telephone if you like—100.
