FIELD ROOT SEEDS GROWN IN CANADA.—The report of the Dominion Experimental Farms for the year ending March 31st, 1918, obtainable at the office of the Publication Branch of the Department of Agriculture at Ottawa, shows that experiments carried on at the Central and other Farms in growing seeds of field roots have proved not only that it is possible to raise heavy crops of these seeds in Canada, but the seed raised is at least equal, if not superior, to that imported from other countries. Besides securing this information the Farms have done a good work in providing quantities of "stock seed" to meet emergencies. Investigations in flax culture proved that part of British Columbia, the southwestern part of Ontario, the valley of the St. Lawrence and the Maritime Provinces were suitable for fibre flax production. During the year 3,680 samples of seed grain, 6,174 samples of potatoes, 1,912 samples of flax seed, 5,198 samples of fruit trees, and 386 samples of other trees and shrubs of superior varieties were sent out for trial at the homes of individuals. Special distribution was also made from some of the Farms of tobacco seed, corn and vegetable seeds and strawberry plants. These are, briefly, some of the many services of the Experimental Farms recorded in the report for the period mentioned. This report constitutes a brief review of the year's progress in the various lines of work under way at the Central and twenty Branch Farms and Stations.

The Man Who Buys Cheap Goods to Save Money, is Like the Man Who Stops the Clock to Save Time

There is no consistency in the act of a person who attempts to save money in the purchase of drugs. In some lines of business price may well be featured as a talking point, but in the drug business QUALITY regardless of price, should be the main consideration.

We handle pure, potent drugs and guarantee the quality of everything sold and the prices which we charge are as low as those asked elsewhere. The same high standard which we place on drugs also applies to our drug sundries and various side lines. If you are a careful buyer we solicit your business.
