Fined for Selling Alum Baking Powder.

At Bradford, on Thursday, Walter E. Sugden, grocer, Wakefield Road, Bradford, was summoned for selling adulterated baking powder. Mr. Herbert Hankinson, deputy town clerk, who prosecuted, said the inspector called at the defendant's shop and purchased samples of baking powder. There were two kinds on sale. The article described as the best was sold at 2d. for four ounces, and the cheaper kind was sold at 2d. for a half a pound. The cheaper sample when analysed was found to be adulterated with 20 per cent of alum. The use of alum in making bread was injurious to health, and it was used as a cheap substitute for tartaric acid. Alum in bread liberated the gas and made the bread rise, but it was injurious to children. The Bradford Corporation was determined to put a stop to these adulterations, which pressed especially hard upon the poor. The defendant said that he purchased the baking powder ready made up in packets, and did not know that it was adulterated. A fine of \$2 and costs was imposed.—London Grocer, Dec. 15.

No Excuse For People Who Wear Rusty or Faded Clothes.

Diamond Dyes

Will Make the Old Things Look as good as New.

If the majority of people cannot afford to buy new dresses, jackets, capes, waists or suits of clothes every three or six months the use of Diamond Dyes will enable them to renew at trifling cost their faded or rusty garments, making them as handsome as new ones. Mrs. W. L. Woodward, Cresswell, Ont., says: "I have always used Diamond Dyes with the best results, but my last trial of them has exceeded all previous efforts. I have just dyed a dress of the finest brown Henrietta Cloth with Diamond dye Fast Black for Wool, making it look as well as new goods from the store. There is no excuse for anyone wearing old clothes while Diamond Dyes are sold."

HASZARD & MOORE

BRIDGE ACROSS NORTH RIVER.

Commercial Radius of City Extended.

The meeting, held recently in the Market Hall, showed that the people of Charlottetown are enthusiastic in favor of having a new bridge constructed across North River, at Brighton. Not only are they aware of the advantage it affords the large and populous section to the West of the river, but also of the outlet it would give to the City. Moreover a bridge on the new site would add from fifteen to twenty square miles to the commercial radius of the capital. Should the new site be chosen and the bridge constructed, it is evident that the West River Ferry Steamer would not be further required. The amount expended by the Government, each year on this ferry would pay one quarter of the interest on the \$80,000—the estimated cost of the bridge.

Valuable Almanac Free.

We have received a copy of the new almanac for 1901 published by the Royal Baking Powder Co. It is an artistic and useful book and will be of interest to housekeepers. A noteworthy feature of the almanac is a prediction of the weather for every day of the year, by Prof. DeVoe, who correctly prophesied the great Galveston cyclone and other important meteorological events. We are authorized to say that any woman readers of this paper can secure a copy without cost by sending a request to the Company, at 100 William St., New York.

HON. DR. PARKER'S RESIGNATION

HALIFAX, Feb. 15.—The news came somewhat as a surprise that Hon. Dr. Parker had resigned his seat in the legislative council a seat which he has worthily held since confederation. This leaves only two liberal-conservative in the upper chamber—Hon. Messrs. Whitman and Owen.

CITY AND COUNTRY

Guardian Correspondents Everywhere.

I.O.F.—Court Mt. Stephen meets tonight in Pythian Hall, New Prowse Block. A full attendance requested.

SINCE Mr. Brecken took charge of the Charlottetown Post Office the news paper mail for this city has quadrupled.

By a telegram received in the city yesterday morning it was learned that the condition of Mr. George Billingsly, Two Harbors, was not improved.

SALVAGE CORPS—There will be a meeting of the Salvage Corps, in their rooms to-morrow evening at 7.30 sharp. Every member is requested to be present.

REV. G. M. Campbell preached an eloquent sermon in Methodist church, Fredericton, on Sunday, Jan. 28th, Text, "And Deborah, a prophetess, ruled over Israel."—Ex.

GUARDIAN readers will be pained this morning to learn of the death of Mr. David Bethune, Sr. of this city which sad event occurred yesterday afternoon after a very short illness. To the sorrowing widow and family, the GUARDIAN extends sympathy.

Mr. Laidlaw has just returned from P. E. Island and says the Island people are still holding to bulk teas although a certain amount of energy has been expended to create a demand for package teas. He contends that teas are retailed at a smaller marginal profit in P. E. Island than anywhere else in Canada.—Maritime Grocer.

YESTERDAY the police visited a house in the city in search of stolen goods and succeeded in finding a wringer supposed to be the property of Mr. Arthur Weeks; a bride owned by Frank McKenna, mail driver and removed from a stable; a set of team harness (new) stolen from Mr. Ronald McPherson of Darlington. A bicycle lamp unclaimed is also in the lot.

FLOWER SHOW.—It is proposed by the directors of the Hillsboro skating rink to hold a grand flower and fruit show during the second or third week in August. Full particulars will be given in due time but the reason of this early intimation is to allow intending competitors ample time in which to order their seeds. A very full prize list will be carefully prepared.

The Halifax Recorder in referring to Mr. Arthur Mellish's lecture given in the Charles Street Methodist Church to 400 people says: "In an easy conversational manner Mr. Mellish spoke for nearly two hours. A number of engagements were delineated most vividly. Indeed it is doubtful if outside of some of the most finished productions of battle historians more interest could have been introduced than by Mr. Mellish who has rare powers of sustaining a long and full address, and neither he or his audience wearied. At the close of an address which might have been delivered with profit to thousands of people, the applause was spontaneous and most appreciative.

THE literary contest was concluded in Victoria Division last evening. There was a large attendance of members and visitors, some as far away as Mayflower Division. The choruses were all excellent selections and were well rendered. The rival sides in the contest were listened to with close attention and when the judge, Mr. J. A. Lawson, arose to render his decision, every one was curious and anxious to hear the result. After carefully counting up the points he gave judgment in favor of Miss Hodgson's side by 20 points. A unanimous vote of thanks was given to Mr. Lawson. The sale of home-made candy was very brisk and every one was made happy. The best of good order prevailed during the whole contest. The chair was occupied by Mr. J. J. Chappell, Deputy of Victoria Division.

THE Pictou Advocate says: Another week has passed and the P. E. Island steamers are just where they were last Friday—the Stanley hard and fast in the ice, about three miles off Roy's Island, Merigomish, and the Minto at her berth at the railway wharf. The Strait is completely blocked, and so securely is the Stanley held that parties can land from her. Most of her passengers have done this and are once more scattered over the province, anxiously awaiting a change of wind and tide. Some have remained by the steamer and supplies were placed on board on Tuesday. To further illustrate the conditions it may be said that the mail carrier for Pictou Island effected a crossing entirely on foot on Tuesday—for the first time in several years. Freight is again accumulating in the I. C. R. yard and if the ice remains as it is much longer the railway men will have their hands full.

MARRIED.

At Montague, by Rev. W. H. Spencer, on Jan. 9th, Mr. Hugh MacGowan of Charlottetown to Miss Mary Lizzie Nicholson of Lot 61.

LAST NIGHT'S LECTURE.

KINDERGARTEN Hall was filled to overflowing last evening to hear Mr. Justice Fitzgerald lecture on Charlottetown in the olden time. The lecture was illustrated with views beginning with the entrance to Government House fifty years ago. Several of the Governors of the Province and all the Mayors of the City of Charlottetown beginning with the first, Mr. Hutcheson, down to the late T. Heath Haviland. The views of the first Post Office called forth bursts of merriment and the anecdotes of some of the early postmasters were amusing in the extreme. The English Mail in those days arrived about three times a year, would probably be a package a few inches square and would compare in dimensions at least with the Post Office building and its apartments. The old circular market house and the old court house both of which would be remembered by many in the audience, also were commented upon. The first named occupied three different positions on the public square before it was finally replaced by the present building. Altogether the lecture was interesting and instructive in the extreme and the material for it could not have been gathered without a great deal of trouble on the part of Judge Fitzgerald and the late lamented Judge Alley who commenced the work of preparing such a lecture. Complimentary remarks and additional information were given by Mr. Fred. De St. Croix Brecken, Mr. J. P. Tanton and others showing that the lecturer on this present occasion had not by any means exhausted the subject and the hope was freely expressed that at no very distant day, the people of Charlottetown may have the privilege of listening to another lecture along the same line. The following are some of the views shown:
