She got the Minto clear and took her passengers and perishable freight aboard at 4.30, when she reported here, she was ten miles east-south-east of Cape Bear steaming for Pictou. 1376

THE MAILS.—The ice boats with 71 bags of mail, left Cape Tormentine at 7.25 yesterday morning and landed at Cape Traverse at 12.30 o'clock. RURAL ROUTE COMPLAINT.—A correspondent complaining that the mail carrier on the Bradburne Rural Route does not leave his, the correspondent's mail in his box. If things are as represented, this is a matter for the Post Office Inspector, not for newspaper controversy. There has been trouble with many rural mail boxes late, not though any fault of the carriers, but of the weather man, aided and abetted by those who neglect to turn out and break the roads after a storm. If these parties persist in neglecting their duties and if the weather continues to be as it has been, doing of late, the next best thing is to appeal to the Attorney General. 1372

Frail, Sickly Child

RESTORED TO HEALTH BY VINOL—A LETTER TO MOTHERS

Anxious mothers often wonder why their children are so pale, thin and nervous and have so little appetite. For the benefit of such mothers in this vicinity we publish the following: Mrs. M. L. Cassidy, of Thomasville, Ga., says: "My little daughter was anaemic, delicate and nervous, she had no appetite and seemed listless. We could not seem to find anything that would help her until we were advised to give her Vinol. Inside of two weeks after taking it she showed a marked improvement, both in appetite, vim and looks. I continued giving it to her and words fail to express my gratitude for what Vinol has done for her." This child's recovery was due to the combined action of the medicinal elements extracted from cods' livers, combined with the blood-making and strength creating properties of tonic iron contained in Vinol. Vinol will build up and strengthen delicate children, old people, and the weak, run-down and debilitated. We return the money in every case where it fails. E. A. Foster, Central Drugstore, Charlottetown, P. E. I.

As we intimated in our investment news bulletin for February 14th, the past year has shown remarkable progress for the Nova Scotia Steel & Coal Company.

From the statement read at the annual meeting held in Montreal Tuesday, the 17th, we now learn that the net earnings touched the highest level in the history of the Company, representing an increase of almost 25 per cent over 1912.

After interest was paid on bonds and to banks, and sinking fund was provided for the sum of \$827,717.50 was available for interest on the 6 p c Perpetual Debenture Stock—for which only \$109,559.78 was required.

This record earnings statement of the Company, its able and conservative management, together with its staunch financial position and excellent prospects—uninterrupted growth, all constitute sound reasons for a purchase of its most widely known security—the 6 p c Perpetual Debenture Stock.

Mr. Bonnell emphasized the opportunity that Sunday School teachers have of directing the attention of young people, to the needs of the foreign field. Mrs. Albert Morrison read a paper on how to tell a story to children. EGG CIRCLE NEWS.—Among the arrivals by the Earl Grey on Monday night was Mr. John Marcellus, of Dundela, Ontario, who has come to the Island to assist Mr. Benson in connection with the organization of egg circles in this province. Mr. Marcellus was president of a large co-operative poultry association in Ontario in which there were seventeen egg circles. For some time past he has been employed by the live stock branch to open egg circles throughout Ontario and some of the other provinces, so that he has had considerable experience in both the organization of societies and the handling and marking of eggs of the highest quality. He is very enthusiastic over the work that is being done in Ontario and says that the farmers are all insisting that eggs shall be purchased entirely on a quality basis. The Live Stock Branch is fully aware of the extent of the movement in this province and, in addition to Mr. Marcellus, arrangements are being made to have Mr. W. A. Browne, who was in Charlottetown at the time of the Short Course, and Mr. Arkell, assistant Live Stock Commissioner, spend some considerable time here. Yesterday afternoon Mr. Marcellus left for Wood Islands, where at night he assisted Mr. Benson in the meeting. To-day he will speak at Belle River on Thursday afternoon at Fred River and at night at Bidon, on Friday afternoon at Orwell Cove and at night at Kinross. Every effort will be made to have all who are anxious for organization ready for the spring's trade.
