Appelling Increase in the Number of Operations Performed Each year—How women May Avoid them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women and girls, either awaiting or recovering from serious operations.

Why should this be the case? Simply because they have neglected themselves. Female troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the abdomen, nervous exhaustion, pain in the small of the back, dizziness, flatulency, displacements of the organs or irregularities.

When woman are troubled with irregular, suppressed, or painful periods, weakness, displacement or ulceration of the organs, that bearing-down feeling, inflammation, headache, bloating (or flatulency), general debility, indigestion, an nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, they should remember there is one tried and true remedy.

THE old-time miller did not concern himself much about the quality or purity of his flour. He simply ground the wheat. You would refuse to use his product to-day. The results would not satisfy you. You have advanced.

Yet it is possible that your advance has not kept pace with the advance in milling methods. You may demand a better flour than your mother did and yet be satisfied with something inferior to what it is possible for you to get.

If you are not using

# Royal Household Flour

you are not getting the best that improved milling has to offer. Ogilvie's Royal Household is as much superior to ordinary flours as they are superior to the crude, coarse product of olden times.

Royal Household is made entirely from hard, spring wheat, ground by the latest and most improved method, and purified and vitalized by electricity—a process that is conceded by all millers to be the only method of producing absolute purity, and one that is used by no other mill in Canada.
