TEN MILLION SHEEP SHORT

Although it is officially estimated that the lambing season in New South Wales will be satisfactory, the end of the year will find the State probably 10,000,000 sheep short of being fully stocked, states the Sydney Evening News.

The explanation lies in the fact that it is only two years ago that the 'big drought' broke and it takes a number of years of good seasons for the State to recover its stock losses.

A LARGE ORDER.

"I want a dress to put on around the house" said the lady in the department store.

"How large is your house, madam?" inquired the new clerk.

98 Out of Every 100 Women Benefited

An Absolutely Reliable Statement Important to Every Woman

Remarkable Results Shown by a Nation Wide Canvass of Women Purchasers of Lydia E. Pinkham's Vegetable Compound. 50,000 Women Answer

For some time a circular has been enclosed with each bottle of our medicine bearing this question: "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?" Replies, to date, have been received from over 50,000 women answering that question.

98 per cent of which say YES. That means that 98 out of every 100 women who take the medicine for the ailments for which it is recommended are benefited by it.

This is a most remarkable record of efficiency. We doubt if any other medicine in the world equals it.

Think of it—only two women out of 100 received no benefit—98 successes out of a possible 100. Did you ever hear of anything like it? We must admit that we, ourselves, are astonished.

Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound and see if she can't be one of the 98

THE LYDIA E. PINKHAM MEDICINE CO., Cobourg, Ont. and Lynn, Mass.

Of course we know that our medicine does benefit the large majority of women who take it. But that only two out of 100 received no benefit is most astonishing.

It only goes to prove, however, that a medicine specialized for certain definite ailments—not a cure-all—one that is made by the most scientific process; not from drugs, but from a combination of nature's roots and herbs, can and does do more good than hastily prepared prescriptions.

You see, we have been making, improving and refining this medicine for over 50 years until it is so perfect and so well adapted to women's needs that it actually has the virtue to benefit 98 out of every 100 women who take it.

Its reliability and recognized efficiency has gained for it a sale in almost every country in the world—leading all others.

PREPARING FOR BATTLE.

This was a solemn conference preceding a church wedding. There were present the groom, the best man, the ushers and the guest list.

"You understand," said the best man, "you meet 'em when they come in, and ask 'em if they are friends of the bride and groom."

"And then what?" asked the head usher.

"Why, you seat the friends of the bride on one side of the church and the friends of the groom on the other. It's the custom."

"I can't see the use o' that," said the head usher. "They'll take sides soon enough."

ROME, Oct. 31.—The first consideration of the new Nationalist Government will be friendship with the United States, this for three reasons, namely:

America's control of so large a part of the world's raw materials, and

Third, the natural sympathy of which the new government has with the American ideals.
