ASKED TO ENDOW RESEARCH WORK

OTTAWA, Ont., Can. 31.—With a view to the establishment of a limited number of scholarships applicable to students of Canadian Universities, the Dominion Government has been requested to endow research work in Canadian history, and it is considered there is every likelihood of its doing so.

The plan as outlined is that a limited number of students chosen from the different universities of the country should pursue at the Canadian University building here research studies in Canadian history, the work to be done during the midsummer vacation. The government is asked to pay their expenses, while at work. Such a plan if carried out, would enable some of the future leaders of thought in the country, who would be carefully selected from the honor lists of their respective alma mater, to study in detail certain phases of Canadian history, before entering on their careers. They will examine in the archives original documents bearing on different subjects and will write essays on them for publication, thus placing before the public in easily comprehended form much of the valuable material that the government has spent money to get. As at first proposed, the plan was that the universities should defray the expenses of their students, acting in unison in this regard, but it is now thought the government will recognize the importance of the work and bear the cost.

order to correct these. He spoke of the Educational system and claimed it was not at all suitable to the farming interests. Premier Haswell followed and spoke of the taxes, claiming them to be small compared with other provinces. He presented reasons why it was difficult to obtain a settlement of P. E. I.'s claims against the Dominion and said the Liberals obtained more for the Province than the Conservatives. He gave a detailed explanation of the sinking fund and how it was composed. Mr. Matheson dwelt on the Cold Storage Question, showing Liberal and Conservative views. He made reference to the debentures and said the claims of the Province had never been properly made against the Dominion Government. In concluding he deplored the high rate of taxes prevailing. He was followed by Hon. John Richards, Hon. B. Gallant, A. the Conservatives would proceed in E. Arsenault and Thomas Doyle.

MOTHER AND SON (By Walter H. Brown.) And now he has come to a man's estate, Grown stalwart in body and strong, And you'd hardly know that he was the lad Whom you lulled with your slumber-song. The years have altered the form and the life, But his heart is unchanged by time, And he is only thy boy as of old, O little mother of mine, I wonder if sometimes you long for that boy, O, little mother of mine.
