—ENTERTAINMENT AT LONG RIVER.—Despite the very unfavorable condition of the roads the Long River hall was comfortably filled on the evening of March 21st when the interesting as well as entertaining four act drama entitled The Young Village Doctor was presented to a very appreciative audience. The play which occupied two hours and a half was carried through admirably, each one taking their part splendidly which goes to show that much time and care had been spent in preparing it. The doctor who is a young man just starting in his profession meets with many strange people, not the least of which is the lady who rents him her "best parlor" for his office and who feels it her sacred duty to give him the news of the place and also to keep an eye to all his patients. The young ladies are naturally quite interested in the welfare of the lonely village man, particularly one Belinda Clinger who is very sympathetic and tries to show the doctor, in a very touching way how "she or any one who is really interested" could remedy matters and make life more interesting to which the doctor turns a deaf ear for a while but finally succumbs to the charms of Nurse Crane who has nursed him through a serious illness the result of an accident caused by his horse running away and throwing him out of his sleigh. The last scene depicts the wedding reception of doctor and Mrs. Young at which there are several guests some of which are called on to add to the evenings entertainment while Mrs. Crane prepares

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh, Catarrh being greatly influenced by constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

In the thirty-six years of successful development, Prowse Brothers has acquired an unblemished reputation in the merchantile business, and the guarantee of a financial responsibility that scarcely has its equal in the Maritime Province. Now reputation of this kind is not gained simply through advertising or enthusiastic sales talk. It is a growth of slow development. It is the result of word-of-mouth endorsement spreading from one customer to another and stimulated always by sterling quality for a reasonable price.  
Six years ago when we adopted the one price cash system we had three principal objects in view, namely; First to extend Prowse reputation into most all homes on P. E. I., second, to protect cash customers from paying for other peoples bad debts and third, to meet mailorder competition which we are successfully doing.  
True it is that this is a free country and everyone at liberty to buy where he pleases, but you industrious broadminded people should not be too hasty at sending your money to foreign mail-order houses when you can do better at Prowse's.  
Keep your money in circulation on P. E. I. Don't shut your eyes to the fact that you are draining your own little province and building up other places. We are doing our part you do yours.

Read what Mr L. E. Prowse, Manager Prowse Bros, Ltd, says regarding Mail-Order Competition.  
"I will give a  
**Handsome \$5 Wilton Rug Free**  
to any person or persons that will find an article in any retail Mail-Order Catalogue that we have in our big carpet department and that we cannot duplicate at the same price or less"  
This may appear a strong statement to some of you but we have the different catalogues and know their goods and prices. In many instances our goods are unconsciously priced much lower than the same goods of our far away Mail-Order Competitor. All we ask is a fair comparison.

**Measure Your Room**  
If we cannot get to your home to measure your floors, windows, etc., you should bring all sizes with you. This is very important as most errors are caused by customers guessing sizes.
