

We Can Fill Any Prescription

Many labor under the mistaken idea that they must take their prescriptions to the druggist whose name appears on the prescription blank.

No matter who writes your prescription or what druggists blanks they are written on we can fill them.

Our stock is large and kept fresh by an active selling and careful management.

Registered pharmacists only do the compounding here.

RUSSIA TO WAR AGAINST TURKEY?

ROME, via Havre, Sept. 30.—I am informed from a diplomatic source that Russia is prepared to declare war on Turkey and that she will exact demobilization from the Ottoman Empire.

Meanwhile the closing of the Dardanelles is imminent. Russians now here and in Switzerland have been warned to return to Russia before October 6, when the last Russian steamer will sail for Odessa from Genoa.

MCGILL GRADUATE AMONG WOUNDED

W. E. G. Murray Hurt While Carrying Despatches Through Belgium

MONTREAL, Sept. 30.—W. E. G. Murray, who made quite a name for himself while at McGill, was wounded while bearing despatches through Belgium and is now a patient in a London Hospital. Mr. Murray had been engaged in journalism on the continent and at the outbreak of war joined the King Edward Horse.

Mr. Murray is a native of Vancouver and a graduate of McGill. He had been editor of McGill Daily while at the college and had achieved success as president of the track team. He was appointed Rhodes Scholar two years ago and went to Oxford.

BIRTHS

CALBECK.—At Bedouque, on September 29th, to Mr. and Mrs. Henry Calbeck, a daughter.

ITALY'S ENTRY INTO CONFLICT COMING NEARER

Hungarian Troops Being Concentrated on Italian Frontier and Public Chafes

ROME, September 30.—Despite the official denial by Austria, it is positively known that the Austrian forces on the Italian frontier are being strongly reinforced. All of the regiments made up of troops of Italian birth or from the frontier itself were transferred to the battle line in Galicia. Their places have been taken by Hungarian regiments and those from the Russian frontier, who, because of their pro-Slavic sympathies, could not be depended on to fight wholeheartedly against the Russians.

While there is no change in the official Italian attitude there is little doubt anywhere that the date for Italy to enter the war is rapidly approaching. This is believed not only by the representatives of the Allies but also by the diplomatic representatives here of the German and Austrian governments. They have used all of their influence to keep Italy neutral, but it is noticeable that they have not been seen about the Foreign Office recently.

Advices from Romania confirm the report of last week that the Roumanian army is being mobilized. The centre within striking distance of Austrian territory.

Reports are circulated here that Russia is preparing an ultimatum to Turkey demanding demobilization. It is stated that the Czar's government has now definitely decided that, if its Austrian campaign being successful, it is in position to withdraw large numbers in the preference of demobilization or that as a result, the Porte will be given the preference of demobilization or fighting.

GENERAL BOTHA'S APPEAL.

LONDON, Sept. 29.—A despatch from Cape Town says that in the course of a speech addressed to five thousand people at the town of Bank, in the Transvaal, General Botha, Premier of South Africa emphasized the necessity of loyalty to the British Empire declaring that a policy of neutrality was absolute nonsense. He pointed out that if a German warship came to Durban and imposed a levy of five million pounds sterling on them, it would help people very little to say that they were neutral. General Botha said he was animated through sincere love of his people and wished to put the position truly before them. There were only two courses open. First, loyalty and help; and second, disloyalty and treason. There was no middle course.

UNSPEAKABLE SACRILEGE OF GERMAN FORCES

LONDON, Sept. 29.—The correspondent of The Standard at Antwerp asserts that German troops committed outrages but have indulged in sacrilegious excesses. He says: A Roman Catholic monastery at Montaigny, which has been occupied by the enemy, was ordered to accommodate fifty German soldiers. The large hall and kitchen of the monastery were assigned to the invaders, but instead of the fifty notified by the German officers, more than two hundred men arrived and demanded shelter. They were all accommodated and the monks retired to rest.

At eleven o'clock that night they were awakened by rifle shots and a number of bullets pierced the windows of their dormitories. The German troops, after eating and drinking to excess, amused themselves by firing into those rooms in the building which were occupied by their unwilling hosts. The monks were driven into the cellar and subjected to many foul indignities.

On the following day German soldiers broke open several doors and their way into the interior, which was ruthlessly plundered. Every article of value was stolen, and those things which could not be removed were broken and utterly destroyed.

Most unspeakable sacrilegious outrages were perpetrated in the chapel of the monastery, where German soldiers scattered the Sacred Host over the altar and carried away the chalice, the ciborium, and other sacred vessels.

The monks were then roped together taken to a spot outside the town, where they were first flogged and then turned adrift.

A full report of these outrages, containing definite sworn evidence on every detail has been forwarded to the Vatican. Steps have also been taken to tell the truth to a number of leading Roman Catholics in Germany.

RUSSIANS IN HUNGARY.

LONDON, Sept. 29.—An official communication issued at Budapest, according to a Rome despatch, admits that Russians have succeeded in crossing the Hungarian frontier at several points in Ung district despite the fact that reinforcements have been sent against them. Ung is a country in the northeastern part of Hungary.

LONDON, Sept. 29.—The Official Bureau announces that the German Cruiser Emden has sunk four British Steamers and a Collier. The Emden has been operating in the Gulf of Bengal.

SIR CHARLES JOHNSON LORD MAYOR OF LONDON

LONDON, Sept. 29.—Sir Charles Johnson was today elected Lord Mayor of London for a term of one year, beginning Nov. 9, 1914. He succeeds Sir Thos. V. Bowater.

LITTLE GIRL SENDS THANKS TO CANADIANS.

OTTAWA, Ont., Sept. 29.—The Government has received the following touching letter from a little English girl, Marjorie Robertson, of Wandsworth Common, London.

"It is with most grateful appreciation that I write to thank you on behalf of my country for the handsome gift of four you have so generously sent us, which is most welcome. I most heartily thank you not only for the gift but for the kind thought and your action in the time of war. It is nice to feel that your Dominion remembers the mother country in such a nice way."

Suits at \$16.50 that are real good; other garments at \$18, \$20, \$25 and \$30.

Exquisite new English Serges & Worsteds — every garment guaranteed.

S. A. McDonald

25 p. c. Per Year Absolutely Guaranteed For Four Years

This is exactly what the INTERPROVINCIAL COAL COMPANY, LIMITED, is doing for the Investors in the first \$20,000 worth of stock which they are selling in this Company. After the \$20,000 worth is sold, there will be no guarantee on any other stock, so be sure you are the early bird and you will get the fat worm. After you have got your money all back you will own outright one and a half shares of stock for every \$10.00 you originally invested and you will own it for nothing, but you must be quick in making up your mind, as this \$20,000 worth of stock will undoubtedly be sold very quickly. There will be only \$8,000 sold besides this and that will be at par only, and will carry with it no special privileges. When this is completely sold, there will not be another share of stock sold at any price, as the other \$72,000, which makes up the total capitalization, is already completely paid for.

Your Money Is Not Ours

Until you are perfectly satisfied. We claim to own at least 2,000,000 tons of coal which can be sold at our Mine at \$1.00 per ton clear profit; in all amounting to \$2,000,000, which is to be distributed in dividends from year to year on our capital stock of \$100,000. To make you feel absolutely safe in your investment, we are placing the money of all P. E. Island subscriptions in the Bank here in Charlottetown, to be held in trust for you until you send an engineer or other qualified person out to our mine to investigate it thoroughly. When that investigation is completed should the verdict be against carrying the transaction through, your money will entirely be returned to you, and if the report is good and everything is found as we claim, then the transaction will be carried through. This will show you that we know that the report will be good, as this offer would be entirely foolish were we not sure of our ground. All expenses of this investigation will be borne by the company.

The Eternal "Why?"

In asking the public to invest in any enterprise which makes such big claims for itself as this one does, the question always comes up, why do they come to us for the money, and why do they not get it nearer home? Well, the answer is, that in the Western part of Canada today money is absolutely tied up in investments and is not to be handled at any rate of interest. As a matter of fact Western money is a nonentity at the present time, while P. E. Island is rich in every respect and has not got more than one-quarter of its money invested. Again, the men who own this Mine are P. E. Islanders and are well known here, therefore, should find it easy to place this stock. Again, if it had not been for the present war, this stock would not have been on the market. It was held off the market so long, that the time became too short, and made it so that the money had to be raised in a hurry. Then where better to do it than where we are well known and where there is lots of money? These are the answers to the question WHY? and it is also the WHY of your opportunity.

Our Guarantee

The owners of all the stock in this Company, other than the \$20,000 to be sold, have agreed to give a guarantee that 25 per cent. dividend shall be paid on your investment each year for four years, thereby giving you back every dollar you have put in. This represents the first charge on all profits made on the sale of coal or otherwise, and no other stock can receive any dividends until this 25 per cent. is paid. Beside that, the owners personally guarantee that the above will be carried through, and that all of their resources and assets will be bound by this guarantee. Nothing could make a guarantee more safe than this. It is absolute in every respect, and binds up assets amounting to nearly \$200,000, as a security of this payment of \$5,000 per year; but our guarantors do not expect to pay one cent from their own pockets. They are confident that this Mine will pay, in June next, a dividend on its stock of at least 40 per cent., and that would represent 60 per cent. on your actual investment. If this is not enough to induce you to invest in this stock, then we know nothing on earth that could.

To speak shortly, our coal is as good as the best, and better than most. Our market will take ten times what we can supply. All coal is sold for cash only—no losses. Our necessity makes your opportunity. P. E. Island directors will be elected as soon as subscription is completed. They will look after your interests. First come will be first served, so do not think too long over this matter. Coal will be burned in our markets forever; there is absolutely no wood for competition. Our development work is completed and nothing but straight coal mining ahead of us. Nothing, not even war, effects the consumption of coal in Western Canada, therefore, nothing can disturb the value of your investment in it. We are 90 cents per ton, freight, nearer our markets than any other coal mine; hence, we laugh at competition. Our coal sells at the mouth of the mine at \$2.00 per ton, \$1.00 of which is profit. We strongly advise you to subscribe at once for some of this stock and as much of it as you possibly have money for. Send your subscriptions at once to Mr. George W. McPhee, President; or to W. B. Prowse, Fiscal Agent, their office, Prowse Block, Charlottetown. Send for Prospectus.
