NEW YORK, April 9.—Compared with the 1933 results, the most striking feature of the 1934 American League pennant poll, tabulated today by the Associated Press, is the fact that the majority of experts look for Boston Red Sox and Philadelphia Athletics to swap places in the standing of the clubs. It is no surprise that the major league writers and sports editors—97 of them, all told—picked the champion Washington Senators and New York Yankees to run one-two again but it is a novel testimonial to the prowess of Robert Moses (Lefty) Grove, sore arm or no sore arm, that those observers consider him good enough to supply the main motive power in hoisting the Red Sox from seventh to third place this year.
