To-night.. DRINK A TOAST TO A BRIGHTER TO-MORROW!

The omissions and errors of modern living often over-throw the digestive balance of the stomach. Excess acid is formed, complaints follow. Indigestion perhaps, or headache; gas, heartburn and heavy breath. If, as you retire, you suspect that over-acidity of the stomach is bothering you, take a dose of Bisurated Magnesia. This will harmlessly neutralize the excess acid. Next morning you'll feel brighter because your stomach is "sweeter".

Large Increase In Our Fishery Trade

Pickup Well Maintained During Closing Quarter Of 1934. 100 Per Cent Increase In Landed Value Of P. E. I. Oysters.

The following article is from the current issue of the "Fisheries News Bulletin" published by the Department of Fisheries, Ottawa:

Canada's landings of sea fish and shellfish in the first eleven months of 1934 were greater by seventeen per cent than in the corresponding period of 1933 and their landed value to the fishermen increased by thirty-three per cent.

In the same eleven months, the Dominion's export trade in fisheries products, including freshwater fish, increased in value by twelve per cent. More than half of this increase, or $1,253,000, in round figures, out of $2,288,739, was in the business done with the United Kingdom, which was greater by thirty-one per cent than it had been in January-November, 1933.

Each one of the five sea fisheries provinces—British Columbia, Nova Scotia, New Brunswick, Quebec, and Prince Edward Island—increased its catch during the eleven months. The percentage of gain ranged from two per cent in New Brunswick to thirty-five per cent in Quebec.

Similarly, the fishermen of each province received more for their catch than in the like period of 1933. Stated in percentages, the gains in landed value totals ran between twenty-one per cent in New Brunswick to forty-six per cent in Prince Edward Island, with the British Columbia figure thirty-three per cent, Nova Scotia's forty, and the gain for Quebec forty-one per cent.

Altogether, the eleven-month landings from the sea fisheries, as calculated from official but unrevised statistical records of the Dominion Department of Fisheries, amounted to 8,009,450 hundredweights, as against 6,816,720 hundred-weights in January-November, 1933. While Quebec showed the highest percentage of catch gain, as already pointed out, the largest actual increase was in British Columbia where the gain was 727,090 hundredweights.

Aggregate landed value for the eleven months was $14,846,970, or a gain of $3,705,740. Landed value totals, by provinces, for the eleven months, and the totals for the corresponding months of 1933, are set out, in round figures, in the following table:

	Jan.-Nov. 1933	Jan.-Nov. 1934
British Col.	$6,246,730	$7,003,740
Nova Scotia	3,163,710	4,240,850
New Brunswick	1,453,340	1,762,940
Quebec	809,440	1,145,650
P. E. Island	468,010	687,780

Continuation of the upswing which became apparent in fisheries export trade about the middle of 1933 was evident throughout January-November, 1934, when the business amounted to $20,430,694, as against $18,141,956 in the like period of '33. As already pointed out, the betterment in business with the United Kingdom featured the trading. In the first eleven months of the previous year the sales to Great Britain had a value of $4,077,533, but in the same months of 1934 they amounted to $5,230,517, an increase of 31 per cent.

Business with other countries beside Britain also improved, but by smaller percentages. The biggest business continued to be done with the United States, but the increase in this case was only six per cent, the totals standing at $7,988,242 for January-November, 1933, and $8,480,509 for January-November just past. Trade with other countries besides the United Kingdom and the United States totalled $6,619,668, as compared with $6,076,180, a gain of nearly nine per cent.

CONTINUED UPTREND

Canada's sea fisheries kept up the good work in the closing quarter of 1934.

That is another way of saying that the landed value of sea fisheries production in the last quarter of the year, October-December, has exceeded the total for the corresponding period of 1933, just as there was increase in each of the earlier quarters. Figures for December, 1934, are not yet available, but even should they be smaller than those for the earlier December the landed value total for the quarter will show gain. In October the increase was not far short of $250,000 and November statistics, recently compiled by the Dominion Department of Fisheries, show that there was another increase in that month, approximately $228,300, notwithstanding that catch decreased.

British Columbia landed value for the month—that is, the value of the catch to the fishermen as landed—was about $35,700 greater than in November, '33, and on the Atlantic coast there was a much larger betterment, or nearly $192,600. Value mounted higher in each of the four Atlantic provinces, but the bigger gains were in Nova Scotia and New Brunswick. The Nova Scotia total increased by a little more than 100 per cent, reaching $252,170 in round figures, as compared with slightly less than $125,500.

ATLANTIC CATCH BIGGER

Each of the Atlantic provinces also increased its landings for the month, but the total gain, over 107,000 hundredweights, was more than offset by a decrease in the British Columbia catch, which was less by 211,425 hundred-weights than in the previous November. The Pacific coast drop was traceable to lessened herring landings, which was the result of a curtailment of the month's herring fishing operations consequent upon the regulation of the production of drysalted herring by the British Columbia Salt Fish Board established under the Natural Products Marketing Act. The Chinese market is the outlet for British Columbia's drysalted herring, and one of the two purposes for which the Salt Fish Board was created is to regulate marketing so that the trade in these fish may be upon a satisfactory basis.

November results, by provinces, as compared with results for the preceding November, were as follows (round figures only being used,) but it should be noted that as only unrevised returns are at present available for November, 1934, unrevised figures made up at the end of November, 1933, are also given for that month:

	Nov. 1933	Nov. 1934
British Columbia—		
Catch ....cwts.	556,400	345,000
Landed value ..$	254,300	290,000
Nova Scotia—		
Catch ....cwts.	104,560	165,120
Landed value ..$	125,435	252,170
New Brunswick—		
Catch ....cwt.	33,040	62,770
Landed value ..$	66,765	104,600
Quebec—		
Catch ....cwts.	7,225	17,385
Landed value ..$	15,800	28,515
Prince Edward Island—		
Catch ....cwts.	7,145	14,035
Landed value ..$	12,915	28,220

VALUE LIFTERS

In British Columbia, a gain of 100 per cent in salmon value, $172,290 as compared with $86,765, was the big factor in raising the provincial landed value total above the figures for November, '33.

In Nova Scotia, the fisheries contributing most of the value increase were the haddock and cod fisheries. Haddock landed value was $77,050 and cod value $86,400—"up" more than 100 per cent in each case. Scallop and mackerel values also rose sharply.

New Brunswick showed a combined value of $31,940 for sardines and herring, as compared with only $7,980 in the preceding November. There was a gain of $6,500 in smelt value and $3,600 in the case of lobsters.

There was a large increase in Quebec's cod catch and landed value was $19,365, as compared with only $7,000 in the '33 month. Herring value showed a gain of about $2,200.

A rise of more than a hundred per cent in oyster landed value was the chief feature in Prince Edward Island. Oyster catch, 4,920 barrels, was much bigger than in November, 1933, and landed value increased from $7,585 to $17,985. Smelt value was $8,065, as compared with $4,905.

CREW RESCUED BY U.S. LINER

Japanese Freighter Abandoned In Sinking Condition.

(A. P. by Guardian's Special Wire)

SAN FRANCISCO, Jan. 21—All 45 members of the Japanese freighter Hokuman Maru, which was in a sinking condition in the North Pacific with a heavy starboard list, were rescued today by the United States mail liner President Jackson.

This information was flashed to the Globe Wireless Station here from Captain M. M. Jensen, master of the Jackson, which left the Japanese craft behind at latitude 49.52 north, longtitude 129.54 west, and proceeded toward Victoria.

The rescue took less than two hours. The President Jackson hove to near the distressed freighter shortly before two p. m., Pacific time, in response to the latter's SOS, and at 3:45 p. m. the liner was on her way.

Heavy seas delayed the lifeboats for a time, as waves already were breaking over the freighter's stern due to a starboard list, but the last word from the Jackson was "fine weather."

There was no mention of any mishap to mar the rescue.

Halifax Port Arrivals

ARRIVALS:
Lady Hawkins from Bermuda.
Lady Rodney from Jamaica.
Montrose from Saint John.
Pulaski from Gydnia.
Bristol City from New York.
Arleaux from Local Harbour.

NINE MILE CREEK SCHOOL CONCERT

The annual Christmas Tree and Concert of Nine Mile Creek School District was held in the school room on Friday night, December the twenty-first.

The school, being filled to its utmost capacity, was prettily decorated for the occasion, which goes to show the interest taken in the school by teacher and pupils.

The Secretary, Mr. Colin MacDougall capably presided as chairman and the following well staged program was carried out:

Remarks by chairman.
Chorus, "Christian Awake" by the school.
Welcome exercise, by seven pupils.
Reading by Charles Betts.
Duet, Southern Memories, by Jean and Wilma Gorveatt.
Recitation, Santa Claus's Shop by Ewen Betts.
Dialogue, Marriage Under Difficulties, by four pupils.
Recitation, To Santa Claus, by Neil MacDonald.
Drill, O Canada, by eight girls.
Dialogue, Grandad's Story, by Ralph MacLean and Glen MacDougall.
Recitation, What I Should Like, by Delta Gorveatt.
Tableau, Home Sweet Home.
Highland Fling by Dorothy Gorveatt.
Garland drill by four girls.
Recitation, The Kittens Christmas, by Catherine Betts.
Lullaby Song by four girls.
Dialogue, Watermelon Pickles, by two pupils.
Recitation, Jolly Old St. Nicholas, by Elsie Campbell.
Darkey Song, Kingdom Coming.
Step Dancing by Arnold Gorveatt.
Drill, Christmas Wishes, by eight pupils.
Clock Song by six pupils.
Step-dancing by Harold Betts.
Dialogue, Zacharay's Hired Man.
Step-dancing by Hilda Gorveatt.
Closing chorus, Howdy Mr. Santa Claus, by school.

The accompanists for the evening were Mrs. Charles MacDougall, Mr. Lem MacDonald and Mr. Everett Gorveatt.

Santa then arrived on the scene and distributed gifts, candy and apples to teacher and pupils.

A vote of thanks was then tendered the teacher, to which she made a fitting reply, for the work and trouble taken to prepare such a splendid program.

The singing of the National Anthem brought a very pleasant evening to a close.

(Patriot Please Copy)

::Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to thousands of children, who, but for the good offices of this superior compound, would have continued weak and enfeebled.

Island Directors Of Fox Breeders Association Return From Saskatoon

The Island directors of the Canadian National Silver Fox Breeders Association returned Monday night from Saskatoon where they attended the annual meeting. The amendments as presented were adopted with some changes, and after they are approved by the Minister of Agriculture will be included in the constitution. The most important changes are that henceforth the only fees will be the annual membership and certificates of registration. Formal inspection has been done away with and a system of advanced registrations substituted, which is optional with the breeder. The directors and members were the guests on Tuesday, 15th, at a luncheon given in the King George Hotel by the Saskatoon Foxbreeders Association, the president, Dr. R. H. MacDonald, presiding.

The principal speaker was Dean Shaw of Saskatoon Agricultural College who gave an interesting talk on the importance of good breeding. Selection of good breeding stock applied to foxes as much as any other livestock industry. Other speakers were Hon. G. Shelton Sharp, Minister of Public Works, P. E. I., and Mr. Fremont, K.C., Quebec. The old directors were all returned to the board with the exception of Sven Klintberg, Birds Hill, Man., who was replaced by J. A. Couture of St. Pierre, Man. L. T. Leeman, Salisbury, N. S., was appointed president; A. A. Lockhart, Kensington, P. E. I., Vice President; Geo. MacCallum, Summerside, Secretary, and Geo. A. Callbeck, Manager of the Marketing Board.

On the way home the directors stopped off at Winnipeg on Thursday and were guests of the Manitoba Fox Breeders Association to a luncheon at the Fort Garry Hotel. The luncheon was presided over by Mr. A. M. Doyle, President of the Association. The luncheon was given so that the visiting foxmen would have an opportunity of meeting breeders of Manitoba. Informal discussions and short speeches were given by prominent fox breeders. The general opinion expressed was that business was improving all over Canada and in the West things were slowly coming back. Those returning East: L. T. Leeman, Salisbury, N. B.; F. H. Copp, Port Elgin, N. B.; A. A. Lockhart, C. C. Baker, Kensington; Major A. S. Robertson, F. G. Kennedy, Charlottetown; Geo. A. Callbeck and R. E. Ellis, Summerside.

Hon. G. Shelton Sharpe, who had been attending the annual meeting of the C. N. S. F. B. Assn. at Saskatoon, stopped off at Winnipeg for a few days and will also visit Ottawa before returning to the Island. S.

Canadian Factory Cheese

According to "The Agricultural Situation and Outlook" about to be published by the Dominion Department of Agriculture in co-operation with the Department of Trade and Commerce, factory cheese production in Canada continues to decline. From calculations based on the volume of graded cheese, which represents approximately 93 per cent of the total output, it is estimated that the make will be about 98 million pounds in 1934 as compared with 111,044,628 pounds in 1933. Cheese production in Ontario and Quebec represents approximately 96 per cent of the total output for Canada and it is expected that production in these provinces will be considerably below that of 1933. In Quebec there is a tendency to shift from cheese to butter manufacture. The relatively higher price for buter in comparison with cheese is one of the causes of this change taking place.

Reports from the Western Provinces would indicate that production was maintained in 1934 but the volume is comparatively small. The low prices prevailing in the United Kingdom market, to which the bulk of the cheese is exported, and the more favorable prices for other dairy products on the domestic market have been contributing factors in affecting the trend of production in Canada.

Storage stocks of cheese in Canada up to last July were higher at the beginning of each month in 1934 than in 1933. The lack of demand from the United Kingdom was conspicious until very late in the fall. The improvement in exports to the United Kingdom during October and November was such that storage stocks of cheese, as at December 1, 1934, were about 1 per cent above those for the same date in 1933. Cheese consumption in Canada is low in comparison with that of other countries and in 1933 was estimated at 3.3 pounds per capita compared with 3.36 pounds in 1932.

THE WHEATLEY RIVER WOMEN'S INSTITUTE

The regular monthly meeting of this Institute met at the home of Mrs. Norman Ling for their January meeting 7 members and 2 visitors in attendance. Meeting opened by the President with Singing of Ode Roll Call was answered with New Year resolution. There were no reports from Committees. And no new work was taken in hand 3 new members enrolled.

This Institute gave Mrs. Harold Chandler a wedding present.

Next meeting to be held on the regular evening at the home of Mrs. Robert Buntain, Roll Call to be answered with Sing Say or Pay.

Lunch was served by the hostess and the national anthem brought the meeting to a close.

POWNAL CHRISTMAS CONCERT

The annual Christmas Concert of the Pownal S. School and day school was held at Pownal Hall on Saturday, Dec. 22. Rev. G.A.D. Elliot was chairman.

The following is the program:

Opening Chorus—On the Frosty Breezes, by School.
Recitation—Christmas Eve, by Hazel Gay.
Dialogue—How the Story Grew by Ida and Olive Weatherbie, Isabella Hume, Murial Jones Dorothy Ings and Ivy Gay.
Violin Solo—by Eric Ballen.
Recitation—His First Speech by Garvin McMillan.
Drill—Christmas Bells, by nine Junior pupils.
Solo—Waiting at the Gate for Katie, by Wilfred Lawton.
Recitation—Why is it? by Gordon Moore.
Solo—Away in a Manger by Catherine Judson.
Recitation—The Trapers Story by Lorne Ings.
Playette—The Sick Doll by Lorne Acorn, Ida Weatherbie and Wanda Ivory.
Recitation—by five girls, Olive and Ida Weatherbie, Dorothy Ings, Isabeele Hume and Muriel Jones.
Recitation—Family Troubles by Gladys Hume.
Monologue—Santas Plan by Lorne Ings.
Solo—Dear Little Stranger by Murial Jones.
Recitation—Joe's Dream by George Jones.
Dialogue—The Rehersal by Muriel Charles, George Jones, Isabelle Hume, Dorothy Ings, Ivy Gay and Gordon Brown.
Violin Solo—by Prudence Ings, (encored).
Drill—Santas Children by ten Junior pupils.
Intermisson and sale of boxes
Recitation — Have You Ever Noticed That, by Muriel Jones.
Solo—The Night that Jesus Came by, Geo. Lawton.
Dialogue—Uncle Hiram's Cold, by Dewar Judson, Muriel and Bruce Jones and Dorothy Ings, Isabelle Hume and Ivy Gay.
Recitation—A Sum in Arithmetic, Ivy Gay.
Solo—by Eric Ballem (encored.)
Recitation — Little Billy's Christmas, by Dorothy Ings.
Solo—Little Star, by Verna Wood.
Recitation—When Pa Shaves, by Bruce Jones.
Dialogue—Getting Information, by Lorne Ings and Charley Jones.
Chorus—With Faces Shining, by the School.

After the chorus, Rev. G.A.D. Elliot presented three Sunday School pupils with Certificates for Perfect Attendance for the year.

Santa then arrived and distributed presents to all the pupils from the beautiful decorated tree.

The jolly evening then came to a close by singing the National Anthem. Much credit is due to the teacher Mr. Harold Lawton who so carefully trained the pupils in their parts.

NO BACKACHE NOW—Thanks to Dodd's

Three weeks ago she could hardly straighten up for the pain in her back. Headaches blinded her—she felt miserable, couldn't rest, housework was a trial—children and friends bothered her. Yet she never suspected the real cause—her kidneys—until a friend said—"Try Dodd's Kidney Pills". She did so at once. Soon the headaches stopped, backache and all signs of faulty kidneys disappeared. At the first sign of backache turn confidently to Dodd's Kidney Pills—the favorite kidney remedy for over three generations. 42

Now Feeling Well—Thanks to

Dodd's Kidney Pills
