Attempted Bank Robbery in Sask. Was Frustrated

WINNIPEG, Oct. 4.—An attempted bank robbery at Bromhead, Saskatchewan, was frustrated early this morning when the citizens were aroused by the robbers using dynamite to open the safe of the Bank of Montreal. Firing of a shotgun by one of the citizens surprised the gang as they were blowing the inner door of the safe and they made a hasty escape.

The building which is of frame construction was extensively damaged by the explosion. The robbers followed the same procedure as in recent bank robberies throughout Manitoba and Saskatchewan, cutting all telegraph and telephone wires. The provincial police were notified from a town east of Bromhead. This is the second time Bromhead has been visited, presumably by the same gang. On August 19 two local stores were robbed.

Bromhead is a village of about two hundred inhabitants and is the first point on the Canadian side of the Montana border. A reward of \$1,000 has been offered by the provincial government for the capture or information leading to the arrest of the bandits who robbed the Melita branch of the Union Bank of Canada, September 25. At Melita the robbers obtained War and Victory Bonds valued at \$109,426 and \$7,763 in cash. Most of the bonds are registered.

Fishing Village of Chanak Scene of Much Activity

CHANAK, Oct. 2.—Never before in its eventful history, dating back to the Trojan Wars, has this tiny fishing village been the scene of so much activity. Here, one sees a veritable arsenal of material of war, while about there is an imposing array of noble fortresses. It is Mustafa Kemal Pasha, who dominates this stronghold, who will encounter not only the fire from a triple line of trenches, extending in a semi-circle around the town, but the combined bombardment from six superdreadnoughts, a dozen cruisers, a equal iron of destroyers, as well as a train of bombers from the air. Allied military experts, who have examined the defences, say that they are a great advantage over those of the world war.

In the centre of the town, which boasts a population of 8,000, stands the British general headquarters which is situated in the Florence Nightingale Hospital made famous in the Crimean War. The chief figure is General "Tom" Marden, hero of many exploits in the world war, who was especially selected to command this difficult post. Radiating from the headquarters are the officers' quarters and the huts and dug-outs of the men. Overlooking all is a range of hills within whose shadows lie many olive orchards and farmlands.

Major General Frederick B. Maurice, who returned from an inspection trip of the entrenchments, said:

"The Turks will not have eight an easy time now as they did in 1916. Then, we were obliged to bring on by our eyelids. Now we have a firm foothold. Then we operated in the face of well-prepared defences. Now we have constructed defences unindulged by the adversary."

Chanak or Chanak Kelen, as it was called in the time of Alexander the Great, and means "Castle of Pets," no longer smiles in peaceful potters and fishermen who hawk their wares to the passing ships. Chanak has this now only for soldiers and accountants of war. The solemn stillness which pervades the town at night is broken only by the clatter of horses' hoofs and the sharp commands of soldiers calling out to the guards.

The residents of Chanak, who are mostly Turkish, expect daily to have to leave their homes. Many families already have departed, fearing a repetition of the events of Gallipoli campaign when the dreadnought Queen of Elizabeth, firing from the Gulf of Saros, wrought indescribable havoc.

Bread wasn't made with yeast until 1850, but some of it hasn't kept very well.

Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrup and saves about \$2. Easily and quickly prepared.

If you combined the curative properties of every known cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2% ounces of Pinex, pour it into a 16-oz. bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is 14 ounces of really better cough syrup than you could buy ready-made and saves easily \$2. Tastes pleasant and never stings.

This Pinex and Syrup preparation acts right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better. Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs. To avoid disappointment, ask your druggist for "2% ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

Mysterious Outbreak Of Poisoning in N.Y.

NEW YORK, Oct. 5.—Police trained nurses and emergency hospital staffs were thrown in a cordon around a block of Sullivan St. today expecting any moment to be called as twelve residents are critically ill, stricken with a subtle poison. Mushrooms are believed by surgeons at St. Vincent's Hospital who treated the first dozen victims to have been injected into the case by unanimous refusal of the sufferers, even when grovelling from terrific effects of the poison, to tell where they secured the food. Four families were stricken including several little children which removed first suspicions that "Red" liquor had been responsible. Reports of other victims were expected hourly. Mrs. Betina Materna and four of her children were able to return to their home after strenuous treatment at the Hospital.

Britain Will Pay War Debts in Full

NEW YORK, Oct. 4.—Great Britain is determined to pay in full her war debt of more than \$4,900,000,000 to the United States, Reginald McKenna, a former British chancellor of the exchequer and a leading authority on international finance, declared in a speech today to the convention of the American Bankers Association. Other European nations however, will be able to pay only a small portion of their debts. The British obligations now total approximately \$11,000,000,000. The Britisher said. These foreign countries demand a definite postponement of any debt payments.

Methodists Ready to Back Empire in Case of War

TORONTO, Oct. 5.—The Methodist General Conference launched into a vigorous debate this afternoon, on the part Canada was to play should Britain go to war with the Turks. It was interjected into the proceedings when a delegate insisted that, owing to the Near East situation being critical, the report of the committee, named to draft a resolution, should have first of way to present it at once. The resolution expressing the wish that an honorable solution could be peacefully arrived at and devotion to the British Empire, concluded as follows:

"In spite of every honorable effort to discover a peaceful solution this result cannot be obtained, we beg to assure the British, Canadian and Newfoundland governments, that the Methodist people of the Dominion of Canada and Newfoundland and the Bermudas, as in the late war will be prepared to make any sacrifices in the interest of liberty and justice."

Good Progress on Draft of Free State Constitution

DUBLIN, Oct. 5.—The Irish parliament is making unexpected progress in the committee on the draft of the constitution. The draft is going through with very slight amendments in committee and, doubtless, will be adopted without essential alterations.

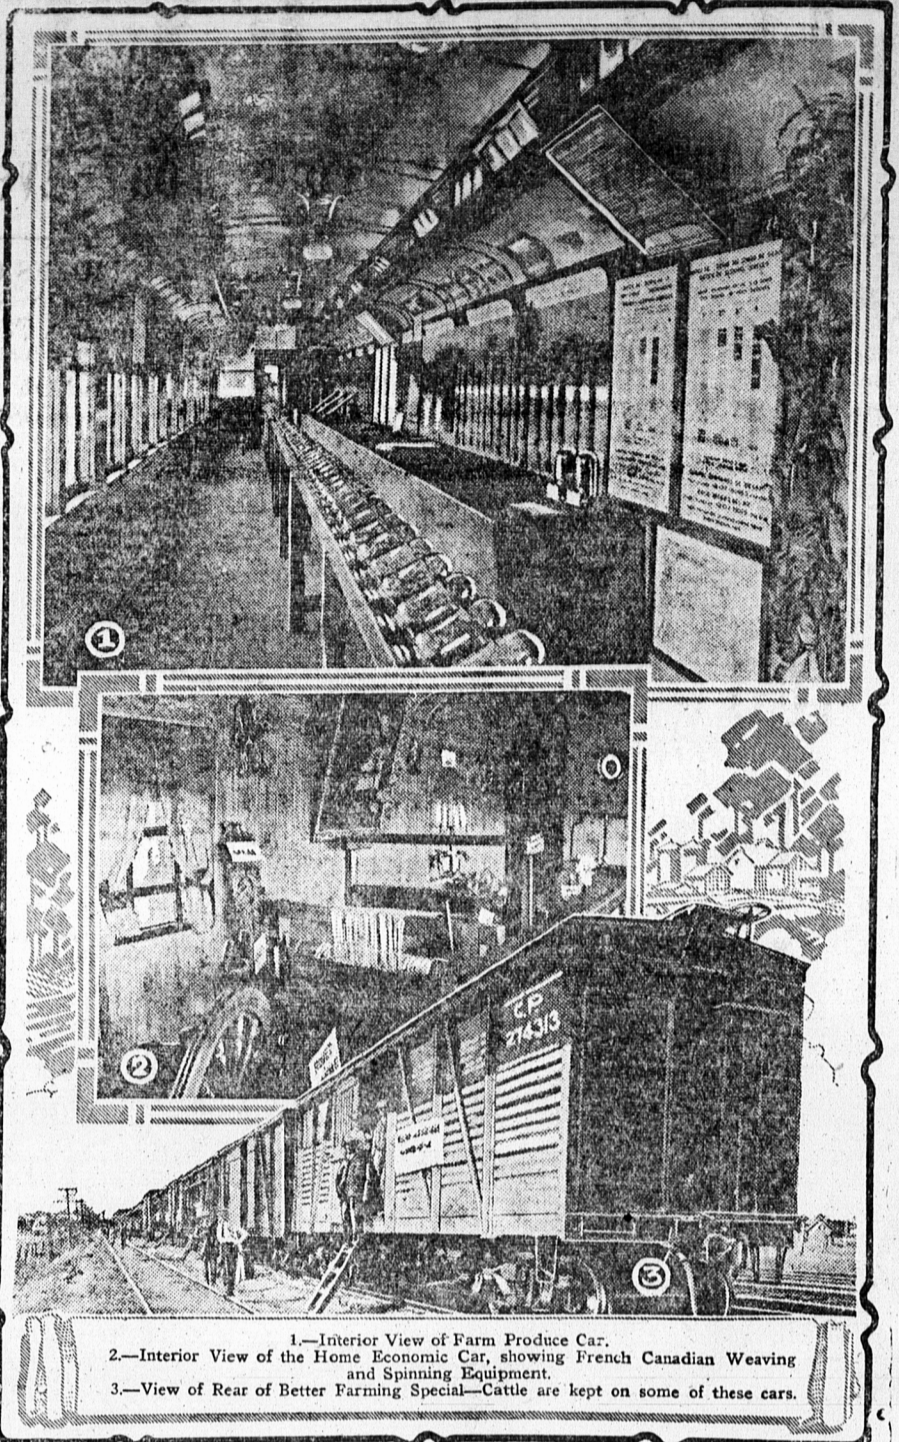

Today Clause 17, making the oath of allegiance obligatory upon all members of the Free State Parliament, in accordance with the formula contained in the Anglo-Irish treaty, was adopted by a large majority in its original form. Attempts were made to amend the oath to meet the objections of the anti-treatyites and laborites, but these were rejected after brief debate. The speakers for the Government argued that any amendment would be throwing away Ireland's harvest from the long and bitter struggle.

The adoption of Clause 17 is regarded as removing the last obstacle to giving the treaty form of law and assuring that the constitution will be ready for submission to the British Parliament for ratification at the coming autumn session.

In moving the article of the treaty containing the form of the oath, Kevin O'Higgins, Minister of Home Affairs, said it was not a particularly pleasant task to recommend that particular article to the Irish assembly, but, as they believed the tampering with this and certain other articles would mean the throwing away of the harvest of the present struggle, they were not prepared to allow the harvest to rot in the field.

Mr. O'Higgins said that he could not admit the suggestions appearing in the press which stated that the oath was optional. He declared that such a position was opposed to common sense. No British or Irish signatory would admit that the oath which gave so much trouble and tension in the last stage of the negotiations was not to be taken by all Members of Parliament precedent to taking their seats in the Dail be asserted.

AGRICULTURAL COLLEGE ON TOUR

AN Agricultural college on wheels is the means by which the Minister of Agriculture of Quebec, in co-operation with the Canadian Pacific Railway, is carrying the gospel of good farming and good cheer to the farming community of the province. The college consists of fifteen C.P.R. cars equipped with material to illustrate all phases of Agricultural production, and carries a staff of twenty-six lecturers and demonstrators.

Starting out at Val-des-Ruys on Sept. 18th and St. Charles on Sept. 19th, the train traversed the north shore of the Ottawa, stopping at Hull, Papineauville, St. Scholastique, Ste. Therese, St. Jerome, St. Agathe, Labelle, Notre-Dame and Mont Laurier. Early in October the lines of the C.P.R. in the eastern townships will be covered. The train will complete its tour on the north shore of the St. Lawrence between Montreal and Quebec during the last two weeks of October.

Five cars are devoted to Live Stock, in which dairy cattle, sheep and hogs are featured. Special attention is being given to the grades and grading of hogs, and to the encouragement of the bacon industry. Field Crops and Agricultural Engineering occupy two cars, while Horticulture, Beekeeping and Sugar-making, Poultry, Dairying and co-operation, and Home Industries, each occupy one car. A diner and sleeping coach for the accommodation of the staff makes up the full complement of the material equipment of the college. Each car is equipped with material, and plainly labelled charts, by which the important factors of economic production are emphasized. An opportunity is afforded from 10 a.m. to 5 p.m., for visitors to examine the exhibits and discuss any problems in which they are interested. For this purpose two lecturers and demonstrators accompany each car. In the evening, lectures and addresses illustrated by lantern slides and moving pictures are given in the town hall or other suitable place for meetings.

ment from the labor group, sought to add a new paragraph in which the swearer would undertake to net in matters concerning the Free State, only on the advice of the executive. Both amendments were defeated.

Mr. O'Higgins, supporting the Government's position pointed out that the Republicans who sat at Westminster, took a full oath of allegiance as did Republicans in the 'Parliament' of South Africa and every other country.

enship of Ireland with Great Britain and her adherence and membership of the group of nations forming the British Commonwealth of nations. "Such an oath shall be taken and subscribed by every member of the Parliament before taking his seat therein before the representative of the Crown or some person authorized by him". Turkish atrocities are being committed in Asia Minor and smoked in the United States.
