Practical Fashion Hints

The vest is a very important fashion detail this season and goes far to make a dark frock becoming. It also offers a practical idea for remodeling a dress that is somewhat out-of-date. 7675 shows an attractive inset vest, a drop-shoulder and a collar with a point over each shoulder. This design is well suited to a wool fabric or one of the heavier silks. Many of the fashionable materials this fall show a rather loose weave. These are apt to stretch when being stitched and to pull in the seams after being worn for a time if something is not done to prevent it. One way is to run a line of machine stitching along the outside or sewing edge of each piece before joining the seams. 7675 closes in front, has a removable chemise, a full length sleeve and a three-piece skirt. It may be made in size 36 with 4 1/2 yards of 36 inch material and 3/4 of a yard of contrasting material for the vest and trimming sections. The pattern is cut in 5 sizes; 34 to 42. This Is a Perfect Pattern. Be sure to state right size, measuring over the fullest part of the bust for dimensions. It may be obtained by filling out the coupon and enclosing 15 cents in stamps to the Pattern Department of this paper.

BOYS PLAN FARM HIGH SCHOOL.

Ten country boys have formulated plans for an agricultural high school near Glencoe, Baltimore county; have selected as their site the Oread property on which they have an option, and have enlisted the aid of Gifford Pinchot in a campaign to raise \$100,000. The boys are graduates of the high school at Sparks, Md. They are all hustlers, and they believe that if every country lad had received the training they obtained there would be "no country life problem." They have selected as their principal B. H. Crotheron, one of the faculty of the University of California, and he is coming here to help them establish their ideal school.—Baltimore Evening Sun.
