### THE BROODING OF EARLY CHICKS

(Experimental Farms Note)

It is generally conceded that the early hatched chicks give the best results in egg production, particularly during the winter months when the eggs are the highest in price. If one is going to brood early chicks it becomes necessary to arrange for comfortable quarters and artificial heat. At the Dominion Experimental Station, Kapuskasing, Ontario, records have been kept on the amount of coal required to operate the ordinary No. 18 Buckeye brooder stove. Each stove was in a house 10 by 12 feet in size, which is supposed to furnish

sufficient heat and space for around 500 chicks until they are three to four weeks of age, at which time they would require more space for best results. In actual practice, however, it is not always possible to have 500 chicks hatched at one time, as this would require quite a large flock of breeding hens and also considerable incubator space. In fact better results are usually obtained when the number of chicks is kept below the rating of the brooder.

Over a period of three years it was found that on the average it required 13.5 pounds of coal per day to operate each brooder stove during the month of April; 9.8 during the month of May and 9.3 during June. In giving this coal the value of 1 cent per pound which would be higher than it would actually cost in most localities it may be noted that the cost of coal required to operate one of these stoves is a very small item indeed, even when the number of chicks being brooded is much below the capacity of the brooder. For example if 300 chicks were brooded during the month of April, the total cost of coal would be \$4.05 or \$1.35 per 100 chicks.

### BRINGING UP FATHER

—ALBERTON CIVIC ELECTION—Tuesday, the 18th was nomination day at Alberton for a mayor and three councillors and as there were nominations for the four positions only the following were declared elected. Mayor—M. M. Foley, Councillors, Thos. Gass, Emerson Matthews and Geo. Oliver; who with J. T. Proffit, and J. W. Wheilan and one to be elected to fill a vacancy will comprise the town council for this year. Retiring Mayor, W. C. Lawson, who has served eight years, six of them as mayor, did not offer for re-election owing to ill health.

—A VERY—Pleasant evening was spent at the home of Mr. and Mrs. Leopold Compton, North St. Eleanor's, when they entertained about fifty of their intimate friends. The evening was spent in cards and dancing, the music for the dance being furnished by Messrs Horace Mills, Jack Thomas and Andrew Arsenault. A dainty buffet lunch was served by the hostess. Before leaving a hearty vote of thanks was extended to the host and hostess, moved by Mr. Edward Lockhart, seconded by Mrs. T. H. E. Enman and ably supported, to which Mr. Compton made a fitting reply. The evening closed with the singing of "For They are Jolly Good Fellows." S.

—MIGHT HAVE BEEN FROZEN TO DEATH—On Sunday night Police Officer Linkletter on going his rounds found a man in an intoxicated condition in a snow-drift on Water St., Summerside. There was a terrific blizzard raging at the time with the mercury round fifteen below and but for the police officer finding the man just when he did he would have been frozen to death. As it was when taken to the Police Station it was found necessary to call in a doctor. He was afterwards taken to jail. He was not capable of appearing before Stipendiary Wyatt when his case was called in the Police Court on Monday morning and his case was adjourned until Saturday. Another drunk appeared and was fined \$3 and costs. S.

—KNEW WHERE TO GO—On Saturday evening between seven and nine o'clock the residence of Mr. L. B. Crue on Water Street, Summerside, was broken into but nothing of a valuable nature was taken away. Mrs. Crue was visiting her mother-in-law next door and Mr. Crue was down town at the time. The thieves entered by the back door and first raided the pantry and helped themselves to the good things with which Mrs. Crue had quite unintentionally provided them. They evidently knew where to go for good eats. After either devouring or otherwise storing away everything in sight, they ransacked the other rooms but were evidently disturbed and made a quick get away leaving articles they had picked up strewn on the floor. Although there is no clue to the robbers, tracks in the snow indicated that one was a heavy man and the other either a boy or a small man. S.

### PERSONALS
