

PRINCE EDWARD TODAY AND TUES.

ALL TALKING ROMANTIC DRAMA with AILEEN PRINGLE and GRANT WITHERS. The thrilling story of a woman who staked her life on the game of love.

SOLDIERS and WOMEN

CAPITOL ALSO TUES. WED. Today the 11th COMMANDMENT. A powerful and beautiful drama of love—sweet love—married love—mother love—that you will always remember with Belle Bennett and Mary Carr.

MARK YOUR PUP UPON THE ROOF HOTEL INVITES. LONDON, July 26.—A parking place for pups has been built on the roof of one of London's West End hotels.

HON. JOHN A. MACDONALD, CONSERVATIVE CANDIDATE FOR KINGS

In the last two Parliaments the Hon. John A. Macdonald was known at Ottawa as "The member for Prince Edward Island."

Central Guardian

VOTING HOURS — Electors in Charlottetown will note that the polls are open from 8 to 6 o'clock, Standard Time or 9 to 7, Daylight Saving Time.

FIRE IN BRIDGE PLANKING—A fire in the planking of the promenade of the Hillsboro Bridge, on the side of the draw remote from the city was discovered about six o'clock last evening.

POLICE COURT—At the Police Court Saturday morning one drunk and disorderly was fined \$20 and costs or 30 days, one case of unlawful possession of liquor was adjourned till August 2nd, one vagrant was given 30 days, a case of negligent driving the offender was fined \$10 and costs or 20 days, two cases of breach of sanitary by-law adjourned till 29th.

ON MOTOR TRIP—Mr. and Mrs. J. A. Thomas of Brighton, Mass., with their daughter and husband, Mr. and Mrs. Wilber Banks of Lexington, Mass., and children are among the motorists visiting P. E. Island.

LEBLANC-LEBLANC—A pretty wedding was solemnized at Barachois church on July 10th at 9 o'clock in the morning when Rev. Edgar LeBlanc united in marriage, Miss Elodie LeBlanc of Dupuis Corner to Albion LeBlanc of Lower Aboujagane.

PERSONALS

Miss Myrtle Rose of Onaway Beach, N. S., returned home Saturday after a pleasant visit to her aunt, Miss Myrtle Garrick and Mrs. E. J. Gallant.

DR. AYERS' OFFICE will be closed on Thursday of each week beginning July 31 until further notice, as he is opening an office for that day in Eldon over the store of Mrs. A. D. Ross.

Chief of Police Birtwhistle, left Saturday morning for Hamilton, Ont., where he will attend a convention of Police Chiefs.

Mr. and Mrs. A. L. McLean accompanied by Miss Margaret Clark left yesterday on a motor trip to P. E. Island.

Mr. D. D. Mosher, Inspector of Schools of Toronto, with Mrs. Mosher, have arrived in the city on a holiday visit and are the guests of Mrs. H. Stelson, 181 Dorchester Street.

The funeral of the late Philip McQuaid was held Saturday morning from the residence of his brother, 267 Sydney Street, to St. Dunstan's Basilica, where Requiem High Mass was celebrated.

Church Services

ST JAMES AND ZION CHURCHES

Yesterday morning in St. James Church Dr. Fulton preached an arresting and stimulating sermon on I John V 6 "This is He that came by water and the Blood."

Announcement was made by Dr. Fulton that joint services by St. James and Zion Churches will continue through August, and that St. James choir would have charge of the praise service under the capable leadership of Mrs. J. A. Lawson and Mr. Walter McNutt, officiating at the organ.

Mention was made by the minister of the loyal service rendered by Zion Church choir during July; he also wished Prof. Thompson a bon voyage on his trip to Ontario where he and Mrs. Thompson will spend their vacation.

At St. James in the morning the men of Zion choir led in the service of song. The chorus "Stand up, Stand up for Jesus," by Adam Gebel was rendered with fine effect as a male chorus. The quartet, "Watch and Pray," was also rendered by Zion male quartette.

Politician Speaks Right Languages

PARIS, France, July 27.—(By The Canadian Press)—The Frenchman is giving more attention than ever before to the study of foreign languages.

Many police officers in this cosmopolitan city are able to speak two or three languages with ease. The champion of them all is Agent Jaraslaw Jiric.

For each police officer who learns a foreign tongue has to wear on his left arm a brassard, indicating the tongue in which he is qualified as an interpreter.

Others he would constantly check by interference or explosive criticism. And the two men who were almost immune to his displeasure, according to Mr. Fyfe, were Kennedy Jones, Lord Northcliffe's right-hand man when he entered the newspaper field, and Sir Campbell Stuart, formerly of Montreal.

CANADA

Land of the Maple Leaf, Land of the golden sheaf, Fair Canada! Home of our loyal sires; Hearth of their pilgrim fires; Each patriot admires, Loves Canada.

Though on the fateful plain The Lily strove in vain For Canada, A flower of union grows, The lily-tinted rose, Triumphant over its foes. Brave Canada!

If wise her counsils be, Undreamed, the destiny Of Canada! A thousand leagues of plain, Lake, forest, mountain chain, Bound by the teaming main, Great Canada!

The nations from afar Behold thy rising star, O Canada! Britain's hope and pride, Linked in her empire's side.

A Pledge To Canadians From Coast To Coast

In emphatic terms at Winnipeg, Hon. R. B. Bennett, leader of the Conservative party, a native of the Maritime Provinces, set forth the platform of his party, definitely pledging the following if returned to power in the Dominion:

- 1.—We pledge ourselves to a policy of protection for Canadians in the development of our natural resources, our agricultural and industrial life, and our consumers from exploitation.
2.—We pledge ourselves to foster and develop agriculture and the livestock and dairy industries now so sadly neglected.
3.—We pledge ourselves to the stabilization of economic conditions, and to continuity of trade and freedom from the manipulation of home and foreign tariffs.
4.—We pledge ourselves to the development of inter-Provincial trade, and of a Canadian fuel policy, and development of a foreign market.
5.—We pledge ourselves to the improvement of the whole scheme of Canadian transportation northward by the completion of the Hudson Bay route, and the construction of such branches as may be necessary to render it most readily available to every part of Canada; to the Pacific slope by a Peace River outlet, and east and west by the development of the St. Lawrence Waterways, and we pledge ourselves to aid existing traffic channels and to increase port facilities on the Great Lakes, Hudson Bay and the Atlantic and Pacific Oceans, and to the establishment of a national highway system.
6.—We pledge ourselves to foster and support a plan for greater empire trade based on mutual advantage.
7.—We pledge ourselves to a national old age pensions scheme.
8.—We pledge ourselves to such compensation adjustment as will ensure the benefit of the above policies to every part of Canada.

The Patriot's Volte Face

In a frantic endeavor to "get from under" its own statement that the cost of Old Age Pensions to the Government of this Province would be at least \$300,000 a year—a statement which is being quoted by the Conservative candidates to show that Hon. R. B. Bennett's policy in this respect alone would benefit Prince Edward Island to that extent—the local Liberal organ swallows its own figures and comes out with a brand new calculation based on alleged "further investigation."

NORTHCLEFFE VALUED

LONDON, July 26.—(By Thomas T. Champlin, Canadian Press Staff Correspondent)—In all his dazzling newspaper career the late Lord Northcliffe discovered only two men whose advice he would usually accept without hesitation, says Hamilton Fyfe, the well-known publicist, in his "intimate biography" of the celebrated newspaper owner.

Others he would constantly check by interference or explosive criticism. And the two men who were almost immune to his displeasure, according to Mr. Fyfe, were Kennedy Jones, Lord Northcliffe's right-hand man when he entered the newspaper field, and Sir Campbell Stuart, formerly of Montreal.

It is also revealed in this book that when Northcliffe, whose mind had become permanently clouded, again left London soon after his return from his world tour, Sir Campbell Stuart was left in complete control, under power of attorney.

Women To Attend London Council

LONDON, Ont., July 27.—(By The Canadian Press)—Lists of commissioners elected to the forthcoming General Council of the United Church of Canada, which meets here on September 17, have been announced.

Another woman commissioner is Miss Susan Smith of Hamilton, Ont., a well-known social service worker, familiar with home mission work in the crowded districts of growing cities.

William Hanson of Montreal, while known to the general public as a financier, is interested in city missions and church extension work, in addition to being Treasurer of the Wesleyan Theological College.

Several of the boards which conduct work of a special or general character are to be represented by their Chairmen, who are also prominent pastors. Rev. W. H. Sedgewick, D.D., elected by Toronto's Conference, is pastor of the rebuilt Metropolitan Church in Toronto, and Acting Chairman of the Board of Home Missions.

Rev. John Coburn, elected by the Toronto Conference, is a field secretary of Evangelism and Social Service, while Rev. J. L. Nicol of Saskatoon, and Rev. J. W. McConnell of Amherst, N. S., are Superintendents of Home Missions, and as such are closely in touch with conditions on the undeveloped fields.

Doctors Study Covers Growth

NEW YORK, N. Y., July 27.—(By The Canadian Press)—Growing cancer artificially and the new hope it offers were described by Dr. Francis Carter Wood, Director of Crocker Cancer Research Institute of Columbia University, just before he sailed to attend at Amsterdam the International Congress of Experimental Cytology in August.

"We are starting," said Dr. Wood, "to do what Pasteur did when he showed the way to cultivation of bacteria artificially, a work upon which are based some of medicine's greatest advances. We know no cancer bacterium or germ, but we have, and can see with a microscope, the cancer cell. It causes cancer, and does so plainly by ability to grow much faster than a normal body cell.

"Not so with the French. To them the theatre is the theatre. They love truly artistic theatricality. To the French scenery is scenery and they make not the slightest demand that they be deceived into thinking it is anything else. And above all acting is acting and they glory in it as such."

SMOKING OUTFIT FOR LIVERPOOL MAN

Glad he smokes Rosebud and saves the poker hands.

One of the foremen at the big pulp and paper mill in Liverpool is certainly a booster for Rosebud smoking tobacco. He says it is not only a genuine cut pipe of superior quality, but is also the biggest value on the market today.

Gyro Dance

At BEACH GROVE INN TUESDAY. From 9 to 12.30 D. S. Time. Admission 50 Cents. 'T'S A GYRO DANCE'

Doctors are helped by X-rays. We have also some evidence that X-rays kill rapidly-growing normal cells about as fast as cancer cells. We suspect that the benefits of the X-ray are due to rapid growth of cancer cells, a production rate that causes more of them to be killed by the X-rays.

"Cancer serum can be made that will seemingly cure a cancer on a rat's leg, but the leg has to be ligatured to retain the serum. So thus far there is no apparent method of making such a serum useful for human beings. Raising the cells artificially will assist in the study of this serum field."

REAL SAND AND LOUD THUNDERSTORMS WON'T GO IN FRENCH PLAYERS

PARIS, July 26.—Eating real food and using wet rainstorms on the stake make the Frenchman think United States audiences lack imagination. The French prefer what Americans consider artificiality and "play acting."

Gaston Baty, one of the four leaders of theatrical modernism, resigned from management of the Pigalle recently, revealing that his policy of real sand and loud thunderstorms had failed.

"We can also study now how fast a cancer cell breathes, that is, how rapidly it uses oxygen, whether this is more or less rapid than the rate of a normal cell. Any difference in the rate might become a point for a new attack on cancer."

"Some bacteria cause disease by the poisons they produce. We seek to learn whether cancer cells produce poisons, or, equally important, to know for certain that they do not. If we find such a poison, then we wish to know whether it acts the same after it has been produced under artificial conditions. If it differs, this discrepancy again is a point for attack on the cancer mystery."
