- 1 There is now no manner of doubt that a good average grade of Persian Lamb fur can be produced in the first cross from our stock. See it for yourself on our farms.
 - 2 There is also no doubt but the fancy priced grade of Persian Lamb fur will be consistently produced after a few years of selection. That is why we offer no sheep for sale now. If we were promoters merely we would sell our sheep at the huge prices offered us and pay ourselves 100 p. c. dividend this year. No sheep for sale now.
 - 3 We own the SECOND IMPORTATION and all their progeny, nine tenths of all the really valuable Karakules in America, were imported last year by Dr. Young. We also own all living rams of the FIRST IMPORTATION and all valuable blood lines.
 - 4 We reckon our assets by BLOOD LINES, but we have more so called full-blood sheep than all others combined. They number nearly four score.
 - 5 We are the only breeders entrusted with a permit to enter Karakule Sheep through American quarantine. Others recently tried to enter some so called Karakules from the vicinity of Transcaucasia, both at Montreal and New York but the sheep were slaughtered by the authorities.
 - 6 We alone have the facilities to select animals in West Turkistan and arrange their importation into America and exportation from the continent.
 - 7 Our herd of Karakules is the best aggregation of Karakul blood lines in the world.
 - 8 Our only competitors will finally be the people of West Turkistan especially Bokhara. You can judge for yourself after studying the character of the people concerned who will finally achieve the great success.
- N. B. The Merin was taken from Spain to Australia in which locality did the breed become the more valuable?
- The Ostrich was tricked away from South Africa by the Americans a few years ago. See what America can show in Ostrich plumes at the Panama exposition next year as compared with South Africa.
- A considerable proportion of the lambs born in 1914 would bring fancy prices. There will be no difficulty in breeding up every sheep to the highest priced variety because the company possesses enough unrelated sires of proved exceptional value to continue crossing without inbreeding.
- Speaking of Dr Young and Karakul Speep Mr McCready, Publicity Agent for P. E. I. says "The Persian Lamb industry bids fair to have a development here and throughout Canada second only to the Silver Fox"
- Robert Wallace of Edinburgh University, foremost live stock expert in the Empire says "Dr. Young is in probably a better position than anyone else to get hold of the the very few really good sheep in Bokhara. If we could get the best of these out, eliminating all that show signs of soft wool, we can breed a far better sheep than anything we can get out now" Dr Wallace lectured recently on the subject in London before the International Institute of Tropical Agriculture. United States Department of Agriculture says:
- "Two importations (of Karakules) were made in 1908-1913 respectively. These sheep were brought over by Dr. C. C. Young of Belen, Texas, (now of Charlottetown, P. E. I.) Buy only pure bred rams that have demonstrated their ability to sire skins of value."

The Skins

of Karakul lambs are used in Canada to a great extent. Canadians spend more for them than for Silver and all other colors and species of foxes, Mink Otter, Skunk and Fisher. The Persian Lamb fur is durable, becoming and economical. It is used by both men and women for coats, robes, muffs, stoles, collars, cuffs, trimming, caps, mits, & cloaks. Its use could be enormously extended, but already there is a wholesale demand in Canada for several million dollars worth yearly. There was no domestic productions until this year.

The Following Facts will Convince You

Are the Foxes for the North Milton Co. from the highest grade stock in the Province, yes this is a settled fact. Are they from a strain of very heavy breeders, yes they are;—did the parents of this stock sell last year for \$30,000 per pair, yes they did;—are the young Foxes for this Co. capitalized at \$15,700 per pair, yes they are. It is also a fact that the 5 old females of this stock reared 22 pups last year and 21 pups this year or 43 pups in 22 seasons, one of the greatest records in the world.

Investor this is the Co. for you, write the Secy. at once before the deal closes, for prospectus &c.

RETURNS FROM CAPE BRETON

SPLendid RESULTS OBTAINED IN THE CURE OF THE SICK

W. E. Enman, of the Farador Oxygen company, has returned from a visit to his agent in Cape Breton. Mr. Fred Watts of New Waterford, formerly of Summerside. Under the management of Mr. and Mrs. Watts, the work of the Farador company has made solid progress and many fine cures have taken place by means of Oxygen Therapy. Only a few of these can be referred to at this time. The child of J. D. Cumming, New Waterford, was cured of typhoid fever in one week's treatment, and the child of Isaac Spears was cured of scarlet fever after two physicians had pronounced the case hopeless.

Esator McEachern, Scotchton, has been cured of Bright's disease and heart trouble, and his wife has been cured of female trouble.

W. H. Hicks, manager of the Harris Abattoir Co., Glace Bay, cured of heart trouble and other complications.

W. H. Monroe, New Waterford, suffered much from kidney trouble and had lost nearly all use of joints and muscles, but after two months' use of the Farador finds himself greatly improved and able to resume work.

The little son of John W. McNeill, Port Hood, has been cured of infantile paralysis and John W. Bell has been cured of gall stones and other ailments.

Mrs. B. A. Carmichael, New Waterford, cured of rheumatism, sciatica and stomach trouble. Several of her relatives are receiving great help from the treatment.

Captain Johnston of the Salvation Army, New Waterford, is using the Farador for "clergyman's sore throat," and the little son of Bnsign Golway of the Salvation Army, Sydney, has been treated for carache, and the results in each case have been most satisfactory.

W. E. Enman's present address is 12 Alley Street, Charlottetown. M.H.H.
