Notice Respecting Motor Vehicles. For your immediate attention Do it now Do not get the idea that you are not interested You are Do you believe the absolute prohibition of Motor Vehicles of all kinds to be in the best interests of the Province? Do you think it wise to turn away thousands of dollars each year through prohibiting tourists from coming here with their cars? Do you know that the agriculturists are now the largest purchasers of Motor Vehicles in nearly every civilized country and that a motor buggy that will carry two persons twenty miles inside of an hour at a cost of twenty cents, can be purchased now for from \$250.00 to \$375.00? Do you think any modern improvement that has been brought to such state of perfection and has been clearly demonstrated to be of such commercial value at the Motor Vehicle can be permanently kept out of any intelligent and progressive country? Many hundreds of the best people of all classes in the Province have within the last few weeks signed a petition asking for the repeal of the present prohibitory Act and the substitution thereof of a strict regulating measure, the principal features of which are as follows: (a) The licensing and registration must be taken at once. Do it now. (b) The numbering of all Motor vehicles in large plain figures. (c) The adoption of proper speed limits. (d) The avoidance of places of public worship during hours of Divine Worship on the Sabbath Day. (e) The stopping of Motor Vehicles and the working of their engines when meeting or overtaking teams if signalled or requested by the driver of the team to do so. (f) And such regulations as the legislature may deem necessary to ensure the safety of the travelling public. (g) The imposing of severe penalties for the infraction of any of the proposed regulations including the revoking of the license of any Motor Vehicle whose driver has been convicted. It is impossible to reach but a very small part of the population with these petitions and if you have not signed one and are in favor of the above regulation will you kindly cut out and sign the enclosed coupon and have it signed by any friend who thinks as you do and mail it to the undersigned without delay, as the House is now in session and action "a) The licensing and registration must be taken at once. Do it now." f all Motor Vehicles. BRUCE STEWART & CO., Charlottetown. I am in favor of repealing the Act prohibiting the use of Motor Vehicles and am in favor of a proper regulating Act. NAME. ADDRESS.

Beware of Heavily Scented and Highly Colored Soaps. In soap, scent and coloring matter cover a multitude of bad qualities. Such soaps are invariably made of animal fats - the refuse of the abattoirs, and are naturally repugnant to people of delicacy and refinement. But more important than this is the fact that the strong scent and the deep color play havoc with the skin. Baby's Own Soap positively does not contain a particle of coloring matter nor a drop of "chemical process" perfumes. It has the natural color and fresh fragrance of the vegetable oils from which it is made. These oils are absolutely pure and specially refined for use in Baby's Own Soap. That is why Baby's Own Soap cannot irritate the most delicate and sensitive of skins. For this reason it should be used in every nursery and in your own toilet, in preference to any other soap. "Baby's Own" will keep the texture of your skin soft and smooth, and your complexion clear. If you value the health and comfort of your skin, choose Baby's Own Soap and do not accept any other. It is sold gladly by all reliable dealers. ALBERT SOAPS LTD. Mfrs - MONTREAL.
