NEW "MARCH OF TIME" "LIFE WITH BABY"

What do you know about the "Boss" of your household. . . Is your baby developing normally — keeping pace with his age group? Are you worried because he fights with his playmates? . . . Learn what makes tots tick—and what you can expect from your own toddler — in scenes of the cutest youngsters in years.

REVIEWS ACTIVITIES IN AGRICULTURE DEPT.

A comprehensive review of activities in his own department was given in the Legislature on Thursday by Hon. W. F. A. Stewart, Minister of Agriculture.

Mr. Stewart spoke in the Budget debate, and in his opening remarks praised the tribute to the late Mr. J. A. Dewar, of New Perth, one of the pioneers in cooperative dairying in Prince Edward Island.

"I am curious," he said, "that while we have a serious unemployment problem, we also have a farm labor shortage. I think service men could not be blamed if they wanted to take things easily for a while. They had undergone many hardships and this feeling was quite understandable. Mr. Stewart believed that in time they would react differently."

The departmental report terminating in the year 1945 is in process of being published, and it is in the hands of the chief officials of the department, paying special tribute to the services of his deputy, Mr. R. Shaw, who has been twenty-six years in the service of the department, a record for any agricultural department in Canada. He also commended the work of the dairy superintendent, Mr. MacDonald.

Field Man For King's

Mr. Stewart said there were at present two field men, but a man for King's County, Mr. MacNeill, was coming here on April 1.

Hon. Dr. MacMillan: "There is no man in King's now?"

Mr. Stewart: "There has not been for some years."

Hon. Dr. MacMillan: "The improvements effected by Dr. Bishop in conducting yeast and mould tests of every churning of butter in every factory."

He reviewed the work of the soil survey branch, which is carried on by the Dominion Government, the provincial department supplying an assistant.

He also touched on the work of the Women's Institute and the Farm Labour Bureau.

Dr. MacMillan: "Are the Women's Institutes now separate? Is there any difference in their relationship with the Government?"

Mr. Stewart: "Not as far as I know. They are under the Department of Agriculture, or we are under them, perhaps."

He referred to the work of Miss Jean MacLean, laboratory technician.

Premier Jones: "Tell the leader of the Opposition her salary."

Mr. Stewart: "Her salary is not as large as it should be for one of her ability; between \$800 and \$900 a year."

Dr. MacMillan: "Why don't you pay her properly?"

Mr. Stewart: "We haven't got the money."

Dr. MacMillan: "You have plenty to give salaries up to \$6,000 and \$7,000."

Mr. Stewart: "Not in our department."

Dr. MacMillan: "You have a \$4,000 engineer in the Public Works Department."

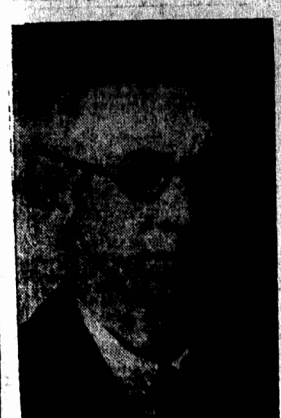

Mr. Stewart: "He is not in our department of Agriculture."

Dr. MacMillan: "You can't stand in very well with the Government (laughter)."

Mr. Stewart: "I am going to review the handicraft, mechanics and other courses given by the Department."

Falconwood Farm

He commended the work of the manager at Falconwood Farm, Mr. James Roper. They had a fine crop of turnips and corn last year, of which he gave details. The

Hon. W. F. A. Stewart

... "And Then There Were None"

Harold was just an old sheep-counter. Every night, before he got to sleep, he counted thousands of sheep . . .

Then one day an Experienced Friend suggested maybe it was the caffeine in the Tea and Coffee he drank that kept the sheep jumping over the fence . . .

So Harold STOPPED tea and coffee, and changed to POSTUM . . .

And right away he only got a few hundred sheep over the fence before sleep overcame him . . .

And in a few nights only a dozen . . .

And then there were none!

Many people can safely drink tea and coffee, but others are upset by the caffeine these beverages contain. If you find yourself sleepless, nervous, irritable — try changing to Postum. You'll like its rich, heart-warming flavor. Not like tea, not like coffee, just a grand favor all its own.

Easy to fix — make Postum right in the cup just by adding boiling water or hot milk. Costs less than 1¢ a serving.

Postum

RAMBO: Kate Smith sings every Friday night 8:30 P.M. Station WABC.

TRINITY UNITED CHURCH

The services in Trinity United Church on Sunday, March 24th, were well attended. In the morning, Mr. William J. Green, Secretary of the Gideon Society, was the special speaker. Mr. Green told a very interesting story of the work which was carried out in the past in connection with placing Bibles in hotel rooms and other institutions such as hospitals, jails and detention camps of military organizations and also in the schools. And at the present time how they are planning to begin placing a copy of the new Testament with the Psalms and Proverbs in the hands of every child in the schools at the age of nine or ten years.

The choir sang an anthem, "Spirit of God Descend Upon Our Hearts."

In the evening the minister spoke about "The Conquering Heroism" and centered his sermon around the great accomplishments of a few devoted followers of Jesus in the early days of the Christian faith as those deeds of valor and devotion which are recorded in the Acts of the Apostles.

The anthem, "Even Me" . . . Warren was sung by the choir and Mr. Roy M. Smallman took the bass solo.

BABY-CARRIAGE BUS CATERING TO MOTHERS

GEELONG, Australia, March 24 (CP) — It took a woman and a baby to start the first baby bus in Australia's first baby bus and to plan a time-table to suit the modern baby's meekness.

Mrs. E. Bender, co-proprietor with her husband and son in a fleet of 17 buses here decided to convert an austerity bus into a nursery on wheels, she made a thorough job of it.

The centre of the bus was cleared, leaving only wall seats. The driver's seat was put on a swivel, so that it swung out of the way as parents ran in and out. Nursery rhymes bloomed on the inside walls, and a seven-foot panel of Snow White and the Dwarf was painted on the back.

Mrs. Bender raised her family in pre-clinic days so the first timetable was not very convenient. Younger mothers explained that "these days everybody feeds at four hourly intervals and almost every body starts at six a.m." Now Geelong mothers may feed their babies, catch a train bus to town, do the shopping and get a bus home in time for next mealtime. Standard fare for the 1-2 mile trip is six cents for adults, and six cents for each pre-and-baby.

Quick to catch on to the importance of this service, the Melbourne Tramway Board has begun to run between the city and outlying suburbs special buses carrying only mothers, children and folding push-carts.

LONDON — (CP) — Advertisement appearing in The Times, published here: "Furniture comes 30 inches by three-eighths inches, excellent quality (including postage). Also, birches to order."

TRURO, England — (CP) — Mr. and Mrs. Croft Williams, who had seen four golden and eight silver weddings of relatives, recently celebrated their own diamond wedding anniversary.

PURITY FLOUR PURITY OATS

Now, more than ever before — you need **GOOD YEAR'S** All-Weather diamond tread!

These days you'll want to be doubly sure of the traction qualities in any tire you buy.

That's why you'll choose the new Goodyear Deluxe All-Weather . . . the tire with the world-famous diamond tread . . . a tread basically unchanged for 38 years, because no one, not even Goodyear, has been able to develop a better, safer design.

Through slippery slush and rain this All-Weather diamond tread checks spinning and skidding . . . gives you an EXTRA MARGIN OF SAFETY for quick, sure steps.

Of course, the secret of this "sure-footedness" lies in the sturdy, diamond blocks . . . for only the patented Goodyear diamond presents TWO gripping edges in each of FOUR directions . . . forward, backward, right and left.

Specify the safest . . . Goodyears . . . when you need new tires, or order your new car.

GOOD YEAR

MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND

IMPORTANT!

In all present-day tires, regardless of make, correct inflation is essential. Over-inflation leads to hard riding. Under-inflation induces skidding. Under-inflation creates abnormal flexing, causes ply separation, shortens the life.

BE SAFE

Consult your Goodyear Dealer for proper pressure.
