PRINCE EDWARD THEATRE

There have been some large crowds at the Prince Edward Theatre at one time or another, but last night's attendance at that popular house of entertainment might well be regarded as a record. Every seat in the theatre, both upstairs and downstairs, was occupied and all along the aisles standing room was at a premium, while a large crowd also waited for the intermission to secure seats. The reason for this was a programme of unusual interest, every item being an irresistible attraction. First of all there was the serial, "The Diamond from the Sky," which everybody is following with keenest interest. It is by far the best serial any local picture house has so far been able to secure, and has even a greater number of admirers than "The Broken Coin." The third instalment, shown last evening was crammed with exciting situations from start to finish, and the closing scene is one to be remembered. Arthur Stanley and his supposed cousin, who has killed the old doctor fight over the open grave and Arthur seriously wounds the other, believing he has killed him. Arthur's banjo is found in the old man's house and he is accused of that murder. The authorities pursue him, and he jumps into his new automobile and starts off. There is a wild chase, and the hairbreadth escape of his machine from destruction by the passing train is thrilling to a degree. Hard pressed, he turns a bend in the hill too abruptly and falls in the car, over the steep precipice some fifty-feet. The car is entirely smashed and Arthur is seen floating down stream. "Who gets the Diamond?" The piece de resistance, of course, was Shanghaied,"—for who could resist Charlie? Charlie Chaplin, in this two-reel scream-comedy was seen in one of his best efforts and the hall resounded with roars of laughter "The Hazards of Helen" Instalment was one of the best of that series, some clever and very risky feats being performed by "Helen" who succeeds in putting the criminal gang out of business. A 3-reel drama "The Bondwoman" was touching, and the strong influence of parenthood was forcibly portrayed. The acting was splendid and the scenery magnificent and the whole programme was one that warrented the tremendous crowds that witnessed it.

52 CENTS DESTROYS YOUR DANDRUFFF AND STOPS FALLING HAIR

SAVE YOUR HAIR! MAKE IT THICK AND BEAUTIFUL — TRY THIS.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time— will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, and incomparable gloss and softness; but what will please you most will be after just a few week's use, when you wil actually see a lot of fine, downy hair—new hair—growing all over the scalp.

BRITISH LOOKING FOR AN ATTACK ON EGYPT

LONDON, Jan. 15.—The Turco-German expedition against Egypt, has been delayed, but has not been abandoned. The railroad from Jerusalem has now been carried across the Sinai desert and is only 50 miles from the Suez canal. Supplies of water and provisions have been accumulated along the route the expedition is to follow. The delay in the attack on the Suez canal possibly is due to the fact that the railroad is not yet completed, since the Germans are convinced that military operations in the desert are impossible unless the railway extends as far as the neighborhood of Izmailia (on the canal 48 miles from Port Said.)

Meanwhile the British besides defending the Suez canal, where they are confident they will be able to repulse the Turco-German attack, have adopted measures insuring the safety of the interior of Egypt. They have prohibited navigation in the Red Sea, which is patrolled by warships. The garrison at Aden has been increased with the object of preventing Turco-German emmissaries from reaching Abyssinia, which communication with Europe only by way of Djibutil (in French Somaliland, on the Gulf of Aden) from which the French railroad now reaches Adis-Abeba, 487 miles by rail from Bagdad.
