HURRICANE RAVAGES ISLAND OF JAMAICA

10 MARITIMERS PLEAD GUILTY OF CONSPIRACY

Two Island Men Are Among Those Awaiting Sentence In Halifax In Liquor Ring Case.

(C. P. by Guardian's Special Wire) HALIFAX, Sept. 27.—Ten of 11 Maritimers charged with conspiracy to defraud the Government in an alleged \$5,000,000 liquor ring pleaded guilty today before Magistrate J. L. Barnhill.

Genos Sanford of Clementsvale, N. E., was the only one missing from the gang of Nova Scotians and Prince Edward Islanders appeared to plead not guilty before the Magistrate after their request to be tried in lower court had been granted in Supreme Court.

Committed for Supreme Court trial by Magistrate N. D. Murray last month, their counsel served notice on Mr. Justice R. H. Graham of the Nova Scotia Supreme Court this morning that their application to appear again before a Magistrate was made.

Those who pleaded guilty were Colin Chisholm, Jack Tanner, E. O. Johnson and Thomas Rossiter, all of Halifax; Milton Genseric and Lawrence A. Rivley, Riverport, N. E.; Willoughby Rivley, Lower Lawrence, N. E.; Sylvester Dunphy, North Sydney, N. S.; Clovis Perry, Summerside, P. E. I.; and Ray Clarke, Union Road, P. E. I.

They will be sentenced tomorrow at noon. Sanford will be tried at the October session of Supreme Court opening here Tuesday.

When Mr. Justice Graham was informed Sanford was not among the group seeking trial in the lower court, he remarked: "It is not much use so far as the prosecution is concerned. If we have to go on and try one of them we might as well try them all."

"Of course I understand that the case against Sanford is infinitesimally smaller than against the other men," replied J. J. Power, K. C., his counsel.

His Lordship then granted the order and the 10 were taken to City Court in a patrol car. One of them said "guilty" in none too loud a voice and the others murmured the word and nodded their heads in assent.

Magistrate Barnhill then heard the counsel regarding sentence. J. J. Power said Thomas Rossiter was a sick man and called Dr. F. R. Little, who testified imprisonment.

- **Millview Club loading hogs and lambs Tuesday afternoon, Oct. 1. Please notify secretary. L-10001-9-28-31

Another Signal Triumph Scored By Conservatives

Enthusiastic Reception Given To Messrs. McLure And Myers At Mount Stewart Meeting.

Mount Stewart last night gave a splendid reception to Messrs. W. Chester S. McLure and John H. Myers, Conservative candidates for Queens, in the third of the campaign meetings which the candidates have held, and which have been marked, in every instance, by keen interest and enthusiasm.

Merited were the tributes which the candidates paid to the public spirit of Mount Stewart citizens in erecting, during the past few years, the magnificent hall in which the meeting was held.

The order maintained last evening was also fittingly commented upon by the young people, congregated in the gallery, followed with as close attention as did their elders the addresses of the Conservative speakers, the only interruptions being the not infrequent applause which greeted the candidates' remarks.

The speakers were in excellent trim, and gave what was conceded to be the most comprehensive and convincing analysis of the political situation heard in the county since the opening of the campaign.

Highly significant was the outburst of applause which greeted the brief criticism made with respect to the high-handed action of the Lea Government in railroad-rising through the Legislature a bill for three million dollars, while refusing to give specific information as to the purpose of the borrowing to Mr. Dennis, the veteran Liberal member in the House.

The meeting was capably presided over by Mr. J. B. MacDonaid, former Conservative representative for the district in the Legislature.

EXPRESSES NEED OF TRIED METHODS

Prime Minister Bennett Speaks Before Trade Board Gathering At Brandon, Manitoba.

(C. P. by Guardian's Special Wire) BRANDON, Man., Sept. 27.—In a world threatened by the menace of war, England, "which for the fourth time saved the world in the great war," was seeking to avert a conflict, Prime Minister Bennett tonight told a Board of Trade gathering at dinner here.

"This world cannot stand another war on a general scale," he said. "The United States gave expression of a pious hope in the Briand-Kellogg pact, but no one is seeking to do what England has done today—to preserve peace in the world."

Mr. Bennett spoke briefly at the dinner, which preceded the political meeting, at which he appeared later in the evening.

"Canada cannot become embroiled in disputes in which we have no direct interests," he said. "Yet the League of Nations, of which we maintain a membership may prove a powerful weapon in securing international accord."

Peace could not come to the world until there was general disarmament, the Prime Minister declared.

There was also the necessity of the will for peace, and in this movement every individual in the world could play a part. Wars were made or avoided by statesmen who

BETTER TRADE ARRANGEMENTS WITH AUSTRALIA

(C. P. by Guardian's Special Wire) OTTAWA, Sept. 27.—The Department of Trade and Commerce today made public cabled advice from Melbourne showing the Australian Government had made important abolitions and reductions of primary duties on numerous Canadian products exported to the Antipodes.

ETHIOPIAN ATTACK FEARED BY ITALY

Mussolini Reported Willing To Observe Two Weeks Truce—Council Drafts Report.

By John Evans, Associated Press Foreign Staff

ROME, Sept. 27.—Italy thinks Ethiopian tribesmen may swarm over the border and make Italy the attacked instead of the attacker, a government spokesman said tonight.

Rome is willing to observe a truce for two weeks "unofficially," he explained, "unless something happens."

Ethiopians have been the aggressors for 40 years," he said, and sooner or later "there will be other aggressions." Mussolini's army of 250,000 men in or en route to Africa is "ready," the spokesman asserted, while officials here "are still waiting patiently" for the League to do something.

BETTER TRADE ARRANGEMENTS WITH AUSTRALIA

(C. P. by Guardian's Special Wire) OTTAWA, Sept. 27.—The Department of Trade and Commerce today made public cabled advice from Melbourne showing the Australian Government had made important abolitions and reductions of primary duties on numerous Canadian products exported to the Antipodes.

New tax schedules made public yesterday in connection with the Commonwealth's budget abolished primage duties on five Canadian products, crude asbestos, bronze powders, drugs and chemicals and printing paper, including newsprint, and government motion picture scenic films.

Removal of primage on newsprint, asbestos and bronze powder will enable them to enter Australia free as the Commonwealth accedes no other taxes on them. Annual values of the goods shown in the schedule, published in last fiscal year's Canadian export figures, are: newsprint \$3,804,751, book paper \$124,942, asbestos \$54,899, drugs and chemicals \$27,532. The Dominion exports only

Protestant Synod Defies Nazi Ministry

Delegate Opposes Adjournment Of Assembly Subject To Recall At Moment's Notice.

By Joseph E. Sharkey, Associated Press Foreign Staff (By Guardian's Special Wire)

BERLIN, Sept. 27.—The Protestant Confessional Synod, dissenting regarding the Nazi Church Ministry and defying Reichsfuehrer Hitler's recent announcement that "the Nazi party will solve the problems in which the state falls," threw out today all overtures of the Reich Ministry for a compromise of their differences.

The Synod, it was learned from a reliable source, unanimously adopted resolutions denouncing the ministry's edicts against baptizing Jews and some of its financial measures, and at the same time advised all ministers who have been ejected from their parishes to return to their pulpits.

In some Protestant quarters there was a feeling that some temporary measure of protection was being afforded by the presence here of the English Bishop of Chichester. The Bishop came secretly to confer with Reichsbishop Ludwig Mueller, Joachim Von Ribbentrop, Hitler's arms expert, and Rudolf Hees, Minister without Portfolio, reportedly in an effort to impress on the leaders of the Nazi party the grave light in which British churchmen view the state-church struggle in Germany.

CENTRAL FAIR SUCCESSFULLY CONCLUDED

Interesting Program Of Sports In Afternoon.

The Central School Fair, at which was shown the cream of the exhibits from the local fairs, closed yesterday. Judging was completed by noon time and the afternoon given over to a program of sports. The results of the afternoon's athletic contests appear on the sport page.

Judging from the comments of judges the exhibits, and especially the school work, are of a high standard and reflect credit not only on the pupils who do the work but on their teachers as well. The calf club competition was held in conjunction with the fair. The Souris Ayrshire Club was selected to represent the Province at the Royal Winter Fair in Toronto. The dairy judging was won by Sterling Reid and Peter MacAulay, and the beef and breed judging by Gordon Roberts and Marion Wood, a team from the Bethel Shorthorn Club.

Judges' Comments

Dr. J. A. Clark of the Experimental Farm, who judged the fruit, said that the exhibit this year was very much smaller than last year, but what was shown was of very excellent quality.

The potatoes were judged by Dr. Clark and S. G. Peppin. There was a fairly large exhibit and some outstanding examples of Irish Cobbler and Green Mountains. The selection was not what one would expect at a central fair, Dr. Clark said.

The collections of weeds and plant diseases were judged by Heath Saunders and George Ayers. Commenting on the weeds they said that there was a very large entry, over fifty examples being shown. Some of the weeds might have been better mounted, the judges stated, but on the whole there was a good showing. The number of entries of collections of plant diseases was small and there was considerable misnaming. The display of insects was much ahead of any previously shown, the judges claimed.

Professor H. H. Court judged the project maps, weather charts and posters. The project maps were well done, he said, and were thoughtful. The posters were not so good, some which had original ideas had poor drawing. There

ITALY PROTESTS MANNER OF ADJOURNMENT

Delegate Opposes Adjournment Of Assembly Subject To Recall At Moment's Notice.

By Joseph E. Sharkey, Associated Press Foreign Staff (By Guardian's Special Wire)

GENEVA, Sept. 27.—Overriding an Italian objection, the steering committee of the League of Nations Assembly voted today to recommend that the Assembly adjourn, subject to recall at a moment's notice.

Baron Pompeo Aloisi, head of the Rome delegation, protested that a simple adjournment instead of a definite close of the session was contrary to the League's constitution. Aloisi said the Assembly is not officially concerned with the dispute but that it is solely in the hands of the Council.

Sanctions, although not being discussed now, loom very much in the background. Conversations between interested powers, particularly between Britain and France, have even gone so far as to take into consideration the possibility of some form of naval sanctions.

To clarify the position of Britain, British circles gave the Associated Press this statement: "Neither Great Britain nor any other country can alone take decisions as to sanctions under the Covenant, because this is a matter which rests with the entire League Council."

The Council as a whole has not yet given any attention to the matter of sanctions because the stage of conciliation is open until the adoption of a report and recommendations under paragraph four, Article XV of the Covenant.

A request for at least the tacit co-operation of the United States in any eventual sanctions against Italy was believed tonight in League circles to be more and more probable.

This possibility arose after the Council, meeting as a committee of the whole, granted in effect Ethiopia's request that League observers be sent there to bear witness that the Emperor's troops will not instigate aggression.

Halle Selassie will be asked what he would like this body of observers to take. An aerial patrol to fly over the frontier has been suggested unofficially.

A 1921 League resolution involving participation of non-members in (Continued on Page 13)

Outbound Ship From Souris Abandoned

(C. P. by Guardian's Special Wire) CANSO, N. S., Sept. 27.—The fishing vessel Grand Turk was abandoned in waterlogged condition three miles off Tickle Island today and her crew of two towed into Canso in one of her dories.

Bound from Souris, P. E. I., to Halifax in ballast, the 18 ton motor vessel was blown off her course by a strong westerly wind. Her sails were stripped from their mast and she began leaking.

When water stopped her engines, Captain Wm. Dalton of Halifax was forced to abandon the vessel. After dropping anchor, he took to a dory with a man named Young who formed the crew.

Tuber Price Prospects Much Better Than Last Year

(C. P. by Guardian's Special Wire) FREDERICTON, N.B., Sept. 27.—While potato prices in New Brunswick are still much improved over last year's extremely low level, the Saint John Valley are now getting a lower return for their table stock than they were about a week ago.

There has been a decline in price during the last few days as the result of the temporary shortage in the Toronto area being overcome by shipments from this province. A gradual rise in the price level with a lower return for their table stock than they were about a week ago.

About a week ago, table stock, both Green Mountains and Irish Cobbler, were bringing the growers of the Saint John Valley counties up to \$1.10 a barrel, but the price lately dropped to around 75 cents a barrel.

Planters Suffer Heavy Damage To Ripening Crops

Fear Total Destruction Will Run Into Hundreds Of Thousands Of Dollars — Storm Sweeps Towards Cuba.

(C. P. Cable By Guardian's Special Wire)

KINGSTON, Jamaica, Sept. 27.—A tropical hurricane ripped across Jamaica today, destroying 2,000,000 banana trees bearing ripening crops and driving the Norwegian steamship Ciss aground in the swollen Salt River.

Nearly every plantation in the western end of the island was ravaged by the storm, which reached a velocity of 120 miles an hour at one time.

The Ciss, operated by the Halifax firm of Pickford and Black, was blown on the muddy flats of the Salt River while seeking a haven from heavy seas and terrific force of the wind.

She was not believed to be damaged, however, and was resting easily tonight after the storm had blown over. Her crew was not in danger.

FEARS HELD FOR OVERDUE SCHOONER

(P. By Guardian's Special Wire) NORTH SYDNEY, N.S., Sept. 27.—Fears for the safety of six men aboard the schooner Millie Louis were expressed here tonight when shipping authorities reported the little vessel six days overdue on a voyage from Fortune, Nfld.

Carrying cargo for North Sydney, the Millie Louis sailed from Fortune, Sept. 19 under command of Captain Gordon Noseworthy with a crew of four. Captain George Lake, brother of Councillor Ira Lake of North Sydney, was aboard as a passenger.

While some shipping men believed she had put back to the south coast of Newfoundland because of bad weather, others feared she had gone down in the gale that capsized the motorship Hurry On and sent five of her crew to death off the Cap Breton Coast early this week.

Take Precautions

(C. P. by Guardian's Special Wire) CAMAGUEY, Cuba, Sept. 27.—Strong winds with violent gusts made merchants and householders rush to brace their windows tonight as militia headquarters ordered in all men on leave for emergency duty.

A train was ordered dispatched immediately to Santa Cruz del Sur with orders to the train crew to lend every help possible to get residents to safer ground. Thousands died there in 1932 through failure to obey warnings to get.
