ARCHBISHOP ASKS PRAYERS FOR PEACE

Whole Nation Solidly Behind Government In Stand by League. (A.P. By Guardian's Special Wire) LONDON, Oct. 1—The Archbishop of Canterbury, in a new plea for peaceful settlement of the Italo-Ethiopian dispute, today asked for prayers in churches that the cause of justice and respect for treaty obligations solemnly undertaken may be vindicated.

Writing in the Canterbury diocesan gazette, he praised Sir Samuel Hoare's recent speech at Geneva in which the Foreign Secretary affirmed Great Britain's allegiance to the League Covenant.

"I believe the strong and able speech of our Foreign Secretary expressed the opinion of the overwhelming majority of the people of this country," the Archbishop stated.

Speaking at Oldham, Sir John Simon, Home Secretary, reiterated that the government's policy was based on the League and re-emphasized Great Britain would not bargain with Italy.

Sir John declared public opinion in Great Britain is "remarkably" behind the government.

Neville Chamberlain, Chancellor of the Exchequer, speaking at the Lord Mayor's banquet for financial leaders, said: "Unless and until the League has been provided incapable of fulfilling the functions for which it was created, we intend to take our part, though no more than our part, in fulfilling our obligations under the Covenant. In that course we believe we will have the general approval and support of the whole nation."

Chamberlain recently expressed his strong approval of increased defenses for Great Britain. Tonight he again stressed what he said was the need for increased armaments.

F. Meagher, secretary of the Drumheller welfare board. Mrs. Meagher said a man who quit his job at Kirkland Lake, Ont., and bought a second-hand automobile to bring his wife and eight children to Alberta, had asked her for assistance. JAPAN CHANGING OVER TO NICKEL CURRENCY Japan is changing over her currency from silver to nickel and this, it is expected, will create an increased demand for that metal. Most of the nickel imported into Japan originates in Canada but is imported through Great Britain, Norway and the United States. In other minerals, Canada supplied over one-third of Japan's imports of asbestos, being the chief supplier. Canada was also the chief source of supply for aluminum, lead and zinc, according to the Natural Resources Department of the Canadian National Railways.
