

Useful New Invention

ENABLES ANYONE TO PLAY
PIANO OR ORGAN WITHOUT
LESSONS.

A Detroit musician has invented a wonderful new system which enables any person or child to learn to play the piano or organ in one evening. Even though you know absolutely nothing about music or have touched a piano or organ, you can now learn to play in an hour or two. People who do not know one note from another are able to play their favorite music with this method without any assistance whatever from anyone.

This new system which is called the Numeral Method, is sold in Canada by the Numeral Method Music Co., of Canada, and they are desirous of at once making it known in every locality, they are making the following special free trial and half-price offer to our readers.

You are not asked to send any money until you have tried and are satisfied with the new method. The Numeral Company is willing to send it to you on one week's free trial, and you will not have to pay them one cent unless you desire to keep it. There are no express charges to be paid, as everything will be sent by mail. Simply write a letter or post card to the Numeral Method Music Co., of Canada 169R Curry Hall, Windsor, Ontario, saying "Please send me the Numeral Method on seven days' free trial." If you are satisfied after trying it, the Method and fifty different pieces of sheet music will cost only \$5, although the regular price of these is \$10. You should not delay writing, as the Numeral Company will not continue this special half-price offer indefinitely. Later on, the Method and fifty pieces of music will be sold at the regular price.

Sprains, Bruises Stiff Muscles

Sloan's Liniment will save hours of suffering. For bruise or sprain it gives instant relief. It arrests inflammation and thus prevents more serious troubles developing. No need to rub it in—it acts at once, instantly relieving the pain, however severe it may be.

Here's Proof
Charles Johnson, P. O. Box 105, Laurier's Station, N. Y., writes: "I sprained my ankle and dislocated my left hip by falling out of a third story window six months ago. I went on crutches for four months, then I started to use Sloan's Liniment, according to your directions and I must say that it is helping me wonderfully. I threw my crutches away. Only used two bottles of your Liniment and now I am walking quite well with one cane. I never will be without Sloan's Liniment."

BUILD NOW!

The temporary letting up of general building operations is making a favorable opportunity this fall and winter for the homebuilder, not soon to be repeated. Have you thought about what is ahead of us and its sure effect on the cost of building as in reverse to present conditions?

Right now, every contractor you meet is in position to give you a \$1.25 return for your money for every dollar invested and for two reasons. He can buy material comparatively cheap and put good workmen on your job for the same pay that in rush times goes to the incapable man furnishing 50 per cent efficiency. Good live times are right ahead and so a word to the wise that they be forehanded and build now, for a \$5,000 house today in less than a year will cost \$8,000.

Nor will you be required to pay high interest rates should you wish to make a building loan for business conditions are daily improving and your banks will soon accommodate your requirements at normal interest rates, but at that, a \$5,000 house on 7 per cent loan money for a time is much better than the same house costing 1,000 more next year with a lower interest rate. One Minneapolis institution that has made building loans at 6 1/2 per cent for years, asks no increase and today is loaning their money on this class of high-grade security, at the same rate of interest. The latest reports from Chicago bankers tell us 5 per cent money will soon be available, as lower rates go with lower commodity prices prevailing at present. Mr. F. W. Thompson, President of the Mortgage Bankers Association, is very optimistic for the coming year and calls the attention of business men of this country to just where the money will come from; namely, our ability to transform into money the great crops harvested this year, with 900,000,000 bushels of wheat and 1,700,000,000 bushels of corn at high prices, which condition alone assures our Nation a bountiful prosperity.

American Homes and American Women are looking to the men of the U. S. to meet their needs and we shall rise quickly to meet these demands. This means a great commercial activity, a greater business and higher prices for all. Let us build now.—From Keith's Magazine for November.

A REALISTIC BIT.

A certain fiction writer applied to a friend, an interne in a hospital, for some local color for a tale he had based upon an occurrence in such an institution.

—The interne couldn't think of anything of moment, but the writer jogged his memory thus:

"Surely, you know of some realistic bit here that I could use."

"I have it!" suddenly exclaimed the interne.

"Yes," eagerly came from the writer.

"Here is realism with a vengeance!" said the youthful interne. "One of our patients walked in his sleep because he dreamed he had no cartfare."

What Dyspeptics Should Eat

A PHYSICIAN'S ADVICE.

Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most food which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and the result of the useful feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by and drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisurated magnesia from your druggist, eat what you want at your next meal take some of the bisurated magnesia as directed above, and see if I'm not right."

Minard's Liniment Co., Limited.

Gentlemen.—Last Winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of LaGrippe, and I have frequently proved it to be very effective in cases of inflammation.

Yours,
W. A. HUTCHINSON.

Notice Regarding Dressing Hogs

As a result of Government Inspection it is absolutely necessary that more attention be given to dressing hogs for market in order to avoid refusal by Inspectors.

They insist that the head, ears and feet should be thoroughly cleaned, every hair removed, the carcass carefully washed and kept perfectly clean when handling.

Some few farmers are not splitting the hogs between the hams and are leaving the bung gut—and in some cases even the manure—in. This must be remedied also, and in future a reduction of 2 lbs. per hog will be made on all hogs reaching here dressed in this manner, as to say the least it does not look well. Hogs must be split down completely, and bung gut and refuse removed.

We want to build up a reputation for Island Hog products, and can do so only with your co-operation.
