

Love can never deepen when distance lies between; not that we forget, but we stand in silent amazement; love will not endure an eternal interrogation; it thrives best on a trust that is blind to every doubt and that turns in disgust from every incriminating question.

Some one said that the dreamer lives forever, but the teller dies in a day; no wonder Thackeray asserted that the world is a looking-glass and gives back to every man the reflection of his own face; frown at it and it in turn will look sourly upon you; laugh at it and it becomes a jolly companion.

No War, No Blockade--MacDonald

Canadian Honor Is Now Involved

Dominion Bound To Outlaw War As National Policy--Premier MacDonald Guest At Distinguished Gathering--The Demilitarization Of Halifax Will Be Discussed.

(Special to The Guardian)

OTTAWA, Ont., Oct. 18--Precisely a year after his last visit, and in the capacity then of leader of His Majesty's Loyal Opposition, Right Hon. J. Ramsay MacDonald, with his daughter, Miss Isabel, came to the Capital yesterday morning as Prime Minister of Great Britain, after an exhausting day in Toronto. He was given an official and rousing welcome by Premier Mackenzie King and members of his Cabinet, and by Sir William Clark, British High Commissioner. A little later, at Government House, Mr. MacDonald submitted to an interview, and then he and Premier King motored out to the latter's summer home at Kingsmere, where during the afternoon they held the first of their conferences on questions arising out of Canada's place within the British Commonwealth.

They may not sit on a log at Kingsmere, but they will probably sit before a log, for the fireplace, which is the only means of heating in the

Premier's Laurentian home, will form an essential part of the conferences. They will discuss pressing questions, but the content of those talks will not be as fully announced as were those on the Rapidan Creek, for while the talks on the banks of that now historic stream were more for the purpose of "creating conditions," to use the words of Premier MacDonald, "the chats at Kingsmere, in the absence of the solvent effects of a rippling brook, will be on knotty economic and political problems." Demilitarization of the naval station at Halifax, will be one of those topics--that much is certain, although Mr. MacDonald in yesterday morning's interview, softened the blow by intimating that many subjects would be discussed. He took pains, though, to assure Canadians that nothing would be done to Halifax without fullest consultation with the Canadian Government and the fullest opportunity for the Canadian people to decide what course should be pursued, the necessity for this discussion, no doubt, arising out of the fact that this suggestion was made by President Hoover to Premier MacDonald and that, whatever Mr. MacDonald and his Government or Mr. King and his Government may think of the suggestion, the former is really obliged to talk it over in Ottawa. That the proposal will receive short shrift here is readily conceded. The chief reason is political, no party at Ottawa having the hardihood to make a move that would arouse sentiment, not only in Halifax and Nova Scotia, but throughout the Dominion. The earlier life of the Panama Canal and the later proposals, urged in Congress, for protection of the entrances to that waterway by a naval base in Porto Rico or by the acquisition from Great Britain by means of some trade, of Jamaica, for fortification purposes, is still fresh in the minds of people in this Capital, and an assurance from the White House, that naval protection of the Panama Canal or its discussion would cease with demilitarization at Halifax and Bermuda is deemed a pre-requisite.

The time and the place of the proposed conference on imperial trade, will be another subject of the talks at Kingsmere. Ottawa has been suggested as the meeting place, but it is believed that the ultimate choice will be London. There will be mutual canvass of views as to what concrete plans for further stimulating of intra-imperial trade can be devised, particularly in view of the not altogether pacific fiscal proposals of the United States.

Mr. MacDonald and his daughter will remain here until Sunday evening, when they will leave by special train for Montreal. The talks between the two Prime Ministers will be resumed today, but it is understood that today and Sunday the distinguished visitors will be given a complete rest from public functions. Newspapers who interviewed Premier Ramsay MacDonald at Government House yesterday morning, asked him how he stands the strain of speeches with which a British Prime Minister's working day is crowded. "I apply my old rule of plain living," replied the distinguished Scot, "I don't follow menus, I follow discretion."

Hadad and his wife are said to have admitted the story to Charles Curtis, Humane Society officer who obtained a warrant for their arrest. The boy wandered into a police station crying brokenly. Between tears he told the lieutenant a tale of brutality.

WOMEN ARE ELIGIBLE FOR THE SENATE

Privy Council Decision--Five Vacancies At Present In The Senate.

(Canadian Press)

OTTAWA, Ont., Oct. 18--On learning of the decision of the judicial committee of the Privy Council that women were eligible to become members of the Senate of Canada, Prime Minister Mackenzie King said that he was very pleased. He added that it had been the intention of the government, had the decision been against the admission of women as members of the Upper Chamber, to introduce an amendment to the British North America Act. The decision of the judicial committee however makes this unnecessary. Although Mr. King did not comment further, it is assumed here that since the government was prepared to go to the extent of amending the British North America Act, it will doubtless in the very near future, appoint one or more women to the Senate. There are five vacancies in the Senate, two from Ontario, one from Manitoba and two from Quebec.

HALIFAX, N. S., Oct. 18--"I am very pleased and also somewhat surprised" was the comment offered by Miss Carrie Carmichael of New Glasgow, former president of the Canadian National Council of Women, when informed of the Privy Councils decision, that women are eligible to be summoned and become members of the Canadian Senate. "I have never agreed" she said, "that women are not entitled to be known as persons, and it is very gratifying indeed to have our status as such finally established."

OTTAWA, Ont., Oct. 18--"That is very satisfactory," was the comment of Mrs. J. A. Wilson of Ottawa, President of the National Council of Women, commenting on today's Privy Council judgment, which upheld the view that women were persons within the meaning of the British North America Act. It is satisfactory that one of the remaining disabilities for women has been removed and that women may now be regarded as full citizens of Canada. It now remains for women to show themselves worthy of the possibilities of their being called to the Senate. Since women were enfranchised it has really been an anachronism that they were not allowed to take their position in the Senate, and it was also painful to women to feel that they were not even persons. We are all very glad that a sound decision has been arrived at.

BREACH IS WIDENING

Between Russia And China--Soviet Govt. Declines Proposal Put Forward By Germany.

MOSCOW, Oct. 18--The Soviet government today declined a proposal put forward by Germany, the latter acting as representative of Russia and China in the present breach between these countries, that the two parties to the Manchurian dispute cease arresting one another's citizens. The proposal was made with the idea of removing one of the many causes of the charges and counter-charges that have been exchanged ever since the Chinese seized the Chinese Eastern Railway. Russia based her refusal of the German proposal on the ground that as the Nanking government has failed to keep his pledge and obligations and has thus far declined to show any goodwill or readiness to adhere to existing agreements, the Soviet Union therefore feels it would be idle to attempt a mutual pledge of the sort proposed by the official intermediary.

Will Pay V. C's Expenses

TORONTO, Oct. 18--The announcement of Premier G. Howard Ferguson that the Provincial government would pay the expenses of the thirteen holders of the Victoria Cross in Ontario to the Prince of Wales dinner in London was hailed with satisfaction by the local winners of the coveted decoration. It was at first thought that only a few of the Ontario V. C.'s would be able to accept the invitation of the Prince of Wales, owing to the heavy expenses involved, but the decision of Premier Ferguson now assures almost a full representation.

Opposes Plan To Have Native As Gov.-General

BLOEMFONTEIN, South Africa.

Oct. 18--A motion asking congress to affirm it as desirable that a South African should be appointed the next governor-general came before the Orange Free State Nationalist Party Congress last night. Prime Minister James B. Hertzog expressed the sincere hope that it would not be accepted. He emphasized the point that the governor-general must be outside the political arena "Where is there anyone in South Africa standing outside and above politics?" he asked. The Prime Minister concluded that no improvement was possible in regard to the present governor-general, the Earl of Athlone. This fact proved how needless it was to ask for the appointment of a South African. The resolution was withdrawn.

Nearly Half Million Dollars Involved In "Scheme of Chance."

(Canadian Press)

CLEVELAND, Ohio, Oct. 18--Two men were arrested today in a police raid, and are charged with operating a scheme of chance. The officers uncovered approximately \$100,000 worth of lottery tickets and stubs on the Cambridgehire Derby to be run October 31. The pool is an annual affair conducted in Canada by the Army and Navy Veterans of Quebec unit number thirty-three at Quebec. At least \$400,000 worth of stubs were found, which means that the purchasers of the tickets in Cleveland and North East Ohio are out just that much. The stubs confiscated by the police must be turned over to the Canadian officials, if ticket holders are to be given a chance at the \$200,000 in prizes. Safety director Edwin D. Barry said the police would attempt to compel the two men arrested, Benjamin Camar, 43, and Charles Rose, to surrender the money to charity or return it to ticket purchasers. He expressed the opinion that the lottery in Canada would not be legal without the stubs held here, and said he had wired Canadian officials of the lottery, that if they wanted the stubs they must pay for them.
