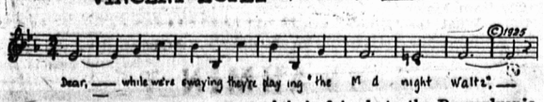
Self-Made Artist Is New Type Millionaire



Vincent Lopez Finds Public Ready To Help Man Who Entertains It

New York City.—America has a new type of self-made man. It is the millionaire musician like Vincent Lopez, who almost over night leaps into the hearts of the public as a personality and reaps immediately a golden harvest from his admirers.

Lopez came to New York a few years ago almost penniless. His only assets were a fine musical education, ambition and a personality that made friends for him everywhere.

He had, too, a dream of making jazz, the music of the man in the street, better thought of, and so he got together an orchestra. The chance came to try out at the Pennsylvania Hotel, and in no time at all, people were taking their friends to the Pennsylvania to hear "that Lopez fellow."

Incidentally, they listened to the music, danced and ate, and Lopez, helped later by the radio, became a national figure and rich.

"With the changes of diversion demanded in America, there will be a large crop of the artist millionaire, the trained man who sees an opportunity to build up a name and fortune for himself and seizes it," says Lopez.

"There is a stability to New York, too, in spite of its surface fickle ways. Perhaps you think, for instance, that the waltz is dead, killed by the thousand and one new steps—but you should see the floor when we play 'Midnight Waltz.'

"We New Yorkers don't forget old favorites or old friends. Another great quality of our people is that they are glad to help a fellow man up. It is to that quality, most of all, that we owe our self-made men, artists and business men as well."

While away he will be the guest of his son and two daughters and sister at Winnipeg and his brother, Mr. G. W. West at Innisfail, Alberta. He expects to be away four or five weeks. His friends wish him a pleasant trip and safe return.

A SUCCESSFUL PICNIC — Among the most successful and enjoyable picnics this season was that held at historic Belfast on July 25th, by the Trustees and Ladies Aid of the Belfast Presbyterian Church on the grounds nearby. Hundreds gathered for the happy event, visitors coming from many of the surrounding districts to join in a lovely afternoon's social intercourse. Stirring and eloquent addresses were made by Rev. W. Bruce Muir, Charlottetown, Robert Johnson of Ottawa and the resident Minister, Rev. T. Roger, all of whom were listened to with interested attention. The order was ideal and everyone seemed to enjoy the tea, which was so daintily served by the church ladies. The Church management are deeply grateful to everyone who assisted in any way, in making the picnic the grand success it was, socially and financially either by attendance or by the fine donations which they so liberally sent in from far and near.

CENTRAL CHRISTIAN CHURCH —The united services of the Baptist and Christian Church Congregations will meet tomorrow at the Central Christian Church. The services will be of more than ordinary interest in the fact that there will be two convention preachers occupy the pulpit. At 11 o'clock the preacher will be Rev. J. H. Mohorter of St. Louis, Mo. Mr. Mohorter is one of the outstanding American preachers, and it will be of interest to know that twenty eight years ago he dedicated the building of the Central Christian Church from which pulpit he will preach tomorrow. At the evening service it will be the pleasure of a large number of citizens to listen again to Rev. W. C. Macdougall, M. A., B. D., Ph. D., Toronto, Ont., who will preach. Dr. Macdougall it will be remembered was acting Pastor for the Central Christian Church for several months last year, and made many warm friends at that time, who will be glad of this opportunity to hear him again. It is needless to state Dr. Macdougall is a preacher of marked ability.

ADENOIDS

During the summer months, the symptoms caused by adenoids are not as noticeable as in winter. They are referred to now because this is an opportune time for having them attended to.

Adenoids are tumer-like growths that develop in the passage between the nose and throat. Very young children may have adenoids. The majority of cases occur in children from eighteen months to six years of age.

The presence of adenoids usually causes what is apparently a chronic cold in the head, with a great deal of discharge from the nose. These symptoms, with snuffles, occur during the winter season. Cough is frequently associated with the condition.

If the growths are large, the child will be a mouth-breather—breathing through the mouth day and night, because the natural breathing-space through the nose is blocked. This gives rise to snoring.

In advanced cases, the child has a characteristic appearance of the face. The open mouth gives a stupid expression, the nostrils are small and pinched, the upper lip is thickened. The voice may have a nasal twang. The hearing may be impaired. Bed-wetting may be part of the symptoms.

Complete removal is the only treatment for adenoids of any severity.

Parents who have been advised by their physician to have an adenoid condition corrected in their child should do so. Parents of children who show evidence of adenoids, as described, should have the children examined to find out the condition. The treatment of such a condition is advised because it interferes with the normal development of the child, lowers his level physical fitness and, if severe, results in a permanent deformity of the mouth and face.

Disinfectants

In burning a disinfectant in a room, the dish containing the disinfectant should be set into another dish containing water.

Cleaning Mirrors

Never use a linen cloth to clean mirrors or window glass, as it sheds lint and causes streaks.

Coffee

The tannic acid in coffee is reduced to a minimum if the coffee is ground very fine, put in a linen cloth, and boiling water poured over it.
