Rolland Paper Company
Limited

6% Cumulative Redeemable Preferred Stock
With Common Stock Purchase Rights

The Rolland Paper Company, which commenced business in 1882, is the oldest manufacturer of high grade bond, writing and ledger papers in Canada. Its products are well and favourably known throughout the Dominion and are in increasing demand in export markets. The name "Rolland" is synonymous with rag stock and sulphite papers of best quality. The Company's Superfine Linen Record paper has proved its superiority in world-wide competition, having been awarded the Gold Medal at Antwerp in 1885, the Highest Award at Chicago in 1893, and the Grand Prix at Paris in 1900.

Three generations of the Rolland family have shared in the active direction of the business, and the same management that has been responsible for its sustained growth for many years will continue in charge of the Company's operations.

Assets, without including any amount for valuable trade marks and goodwill, built up over a period of 45 years, total \$4,777,562, equivalent, after deducting First Mortgage Bonds, to more than \$150 per \$100 Share of Preferred Stock now to be issued. Earnings for the year ending December 31st, 1928 are estimated at approximately 2.22 times the annual preferred dividend requirement; and earning power will be largely increased through installation of an additional high-grade paper machine, the cost of which is being provided by the present financing.

We offer these Preferred Shares, with common stock purchase warrants, at—

97 and accrued dividend, to yield 6.19%

Descriptive circular on request.

Investment Counsel

Honest endeavour and careful study cannot of themselves appraise safely the real value of Securities.

Advice based on our experience of judging investment values is offered without obligation alike to those who purchase in hundreds or thousands of dollars.

We would be glad to get an unbiased report, without charge, on any Security an investor may be interested in and we would caution the Public against making an investment or speculation without first getting a report through a Banker or a reputable Investment Banking House, especially on the so-called GET RICH QUICK OFFERINGS, where unscrupulous salesmen promise and in some cases guarantee, enormous profits in a short period of time.

ROVERS AND STARS TONIGHT

This evening the Rovers and Stars will play the final game of the first section of the City Baseball League schedule. The Rovers have shown their superiority so far over the other teams in the League, having won every start to date, however, Dr. Charles Dougan, Star manager is far from convinced that his former champions are out of the running, and consequently will rally his forces tonight in an endeavour to stop the North End team's winning streak.

GRATED CHEESE

If you have made a creamed soup that seems to lack something tasty, try adding a teaspoonful of grated cheese just before serving.

APPLE HEALTH SALADS

Chopped apple with the skins left on, and moistened with lemon juice to prevent discoloring—plus one or more of the following: Pineapple, marshmallows; celery and nuts; raisins; dates and coconut; banana, sprinkled with lemon or orange juice; orange dates, and coconut; pears, fresh or canned, cut in cubes.

"SALADA" TEA
ORANGE PEKOE BLEND

Like the most luscious apples, "SALADA" Orange Pekoe Teas are grown close to the frost belt—high on tropical mountains—that is why the flavour is so delicious. Sealed—pure—fresh—43c per half-pound. Sold everywhere. Ask for it.

Today
NASH presents a
New and Finer Motor Car

**New Twin Ignition Motor
New Salon Bodies**

"The three new Nash Series, which are being introduced everywhere today, achieve the ambition of my manufacturing career.

"They represent an entirely new type of motor car, priced moderately, but offering you all the beauty and quality and performance heretofore exclusive to very expensive automobiles.

"To create such a car we had to develop an entirely new type of design and invest over \$2,500,000 in dies and machinery alone.

"Both the Salon bodies and the high compression motors which power these new models exemplify the most radically modern advancement in body craftsmanship and engineering.

"Naturally space precludes the full listing of all features but I do want to draw your attention to a number of the outstanding attractions such as—

"—Twin ignition, high compression, Bohalite aluminum alloy pistons

with Invar-struts, 7-bearing crankshaft with hollowed crankpins, Bijur centralized chassis lubrication, Houdaille and Lovejoy shock absorbers, Biflex-Nash bumpers and bumperettes, chrome plating over nickel for all exterior metal ware, double-drop frame, one-piece Salon fenders and longer wheelbase lengths.

"This new-type engineering of the '400' motors makes them by far the best performing cars I have ever built.

"I don't think anyone will ever want to use all the speed and power they deliver.

"Equipment is absolutely complete at the factory list price and you need buy no extras except a spare tire.

"If my judgment is worth anything you will find it well worth while today to examine this new automobile development with the greatest care."

C. W. Nash
President, The Nash Motors Company
