Table comparing bond issues across provinces, with columns for Month, Amount, Security, Coupon Rate, Net Price, and Approximate Net Yield.

A Few Words to You About the C. N. R.

During 1934 the average number of persons employed by Canadian National Railways was 74,774, and the wages paid them came to almost one hundred million dollars. This represented, both as to number employed and amount of payroll, an advance over 1933, and practically the whole increase in personnel was due to re-employment of those whose services had previously been dispensed with owing to lack of business.
