YEARLY MEETING

Of The Y. M. C. A. Held Last Night

REPORTS SUBMITTED

Show That The Association is in A Flourishing State.

The annual meeting of the Y. M. C. A. was held last night. After devotional exercises and reading of minutes the reports were received. The President J. D. Seaman, referred to the condition of the Association a year ago and spoke of the improved condition now. The engagement of a General Secretary had been justified. The Ladies' Aid has proved a very valuable auxiliary to the work. The work should be enlarged along all lines.

Mr. G. F. Hutcheson presented the report of Finance Committee as follows:
Receipts..... \$2076.96
Expenditure..... 2031.37

Cash on hand \$45.59
There are outstanding accounts amounting to \$949.10. Since Oct 31st \$335.00 has been received and pledges for \$300.00 leaving a deficit for the year of \$324.93. Other amounts are expected which will diminish this deficit considerably.

The good work being done along spiritual lines which had resulted in several young men joining city churches, and the entrance of one young man into Christian work was stated in the report of the Devotional Committee presented by J. T. McKenzie.

H. J. Candall presented statement of Library Fund showing \$425.43 on hand.
C. J. MacMillan reported for Physical Committee, Geo. Brenner for Library Committee, and Dr. J. H. Ayers for Foreign Work Committee.

General Secretary Robb's report was as follows:

SECRETARY'S REPORT.
GENTLEMEN:—This Association has completed another year of its history, and as we tonight look back over what has been accomplished our hearts are filled with gratitude to God who has led in the work, and guided by His Holy Spirit, and to the friends of the work who have so generously given of their time and means for its support.

It is just one year since it was the privilege of your present Secretary to come among you. The work, promising from the first, has been blessed beyond all expectation and the members and officers have cause to rejoice in the work they have accomplished.

After years of discouraging work with but little result the seed sown is beginning to bring forth fruit, and gives promise of an abundant harvest.

A very considerable change has taken place in the appearance of the building both internally and externally, and it is now an inviting place for young men to spend their leisure hours.

The parts of the building that were out of repair from lack of use and attention have been repaired, the heating and lighting have been improved, and everything possible done with the small amount of money at the disposal of the management to make the building comfortable and attractive.

One year ago the only department of the Association work in active operation was the reading room. This was well patronized but was not well looked after. Today other phases of the work are being developed and are apparently appreciated by the young men.

The membership of the Association to October 31st is as follows:—
Full members 69
Limited 42
Student 21
Boys 36
Ladies (Special) 25

Tota 193

Of these members 71 are active and 61 associate members. There is room for improvement in every class of membership.

The report of the Finance Committee presented tonight must be gratifying to the members. The year has been a heavy one. The deficit of last year and the heavy expenditure this year for repairs to the building has made the work of the Finance Committee far from easy but they have done their work nobly and the Association is in a better position financially now than it was a year ago. The thanks of the membership are due to the contributors and to the Finance Committee for this satisfactory condition.

During the year the Reading Room has been improved and made as bright and comfortable as possible and is largely used. The opening of the Library, now nearing completion will be an additional inducement to the public to avail themselves of the membership privileges.

In the Social Department not very much has been done. The parlor however has been kept comfortable and supplied with

THE PRESIDENT'S ANNUAL MESSAGE

He Would Make Anarchy a Crime Under the Law of Nations.

GOVERNMENT OUGHT TO INSPECT THE TRUSTS.

Would Create a Secretary of Commerce, Have Educational Tests for Immigrants, Upholds the Monroe Doctrine and Deals with Affairs of Cuba, the Philippines and China —No Army Increase but Navy Must be Increased.

THE PRESIDENT'S MESSAGE.
WASHINGTON, Dec. 3.—(Special.)—The President's message opened with an allusion to President McKinley's death and urged Congress to enact legislation to prevent Anarchists entering the country or carrying on intrigues.

He suggests that the law of nations should make anarchy an offense.

After a reference to the abounding prosperity the President dealt with the feeling that trusts are hurtful to the general welfare and advocated the Government right to inspect and examine the working of all great corporations which engage in interstate business, and thus learn what other remedies are necessary.

PROTECTION AND RECIPROCIITY.
He also urges the creation of a member of Cabinet to be known as Secretary of Commerce and Industry and the enactment of a Chinese expulsion act and urges the use of careful educational and economic tests to be applied to all Anarchists.

Regarding the tariff and reciprocity the President said there is a general acquiescence in the present system as a national policy, but it is desirable to combine the supplementary system of reciprocity

with other nations. Reciprocity must be treated as a hand-maiden of protection and the protection of the tariff must in all needed cases be maintained so as not to injure home industries.

SHIPPING AND EXPANSION.
Legislation is urged for the restoration of the ocean of the American merchant marine.

Attention is called to the work of the Department of Agriculture and the good results to be secured from agriculture, also the benefits from preservation of forests.

Affairs in Cuba and Porto Rico and the Philippines are considered and the necessity pointed out of introducing industrial enterprises in the Philippines. The need of a cable to Hawaii and the Philippines is urged and isthmian canal construction adverted to. The President urges the country to uphold the Monroe Doctrine and urges that the work of upbuilding the navy be continued, but no increase of the army is considered necessary.

The message closed with a reference to affairs in China and to the expressions of good will received from all nations at the death of McKinley.

a few games and has been used by the young men in their odd moments.

The work in the Physical Department has been very encouraging and good work has been done. The classes have grown in interest and attendance and give promise of further growth in future. This part of the work is important and is deserving of even greater attention than it has received during the year.

The Spiritual work, which after all, is the real work of the Association, has been kept well to the front. The meetings have been largely attended and full of interest. Several young men have professed conversion and have united with city churches. This makes all the labor and all the thought put into the work worth while. Bible classes have been started and are proving helpful.

A new department of the work is that being done by the Foreign Work Committee. They have presented to the members the claims of the Young Men's Christian Association work in foreign lands and have been met with a gratifying response by all who have been visited. Our Association will have a part in the \$100,000 being raised by the Associations in our Maritime Provinces.

The Women's Auxiliary have been most loyal in their efforts to help along this movement and much credit is due them for the self-sacrificing manner in which they have worked. The hearty thanks of the Association are due them for all they have been able to accomplish.

Your Secretary would gratefully acknowledge the kindness and courtesy shown him during the past year by officers and members alike, and desires to thank them for their helpful sympathy which has made the work easier for him.

If I might make a suggestion or two in closing I would suggest that during the

year upon which we have entered each member do his best to increase the membership of the Association to 300, that Educational work be undertaken, and greater prominence given to the work for boys. Every effort should be made to increase the social atmosphere of the building that it may become in every deed a home for the young men. Being as it is the only institution under Christian auspices that is open every day during the year this is important as a counter attraction to the saloons and clubs to be found in this City.

Praying that God may abundantly bless the efforts of the coming year in raising the standard of young manhood in Charlottetown,

Respectfully submitted,
ANDREW W. ROBB,
General Secretary.

After some other business the meeting adjourned to meet at the call of the Chairman.

CROKER SPEAKS

Of Retiring from the Leadership

THE BUILDING TRADES

Murderer About to be Hanged Assaults Minister And Escapes.

RICHARD CROKER TALKS.
NEW YORK, Dec. 3.—(Special.)—Richard Croker told the Evening Post that he would not do much more leading as he is getting old and worn out and the leader of Tammany should stay in New York all the year while that is impossible for him.

BUILDING TRADES MEETING.
The first meeting of the United Central Council of the building trades of New York and vicinity was held today.

The object is to put an end to strikes by arranging yearly agreements with contractors.

A SENSATIONAL EXECUTION.
MOUNT HOLLY, N. J. Dec. 3.—(Special.)—Charles Brown was hanged today for murder. Brown made a sensational effort to escape by making a murderous assault on Rev. Wm. De Iseger his spiritual adviser, whom he knocked senseless while the minister was reading the scriptures.

PRISONER GOT OUT OF HIS CELL.
Brown then got out of his cell and attempted to scale the wall, but was seen and surrendered when the officers threatened to shoot.

THE AGONY OF SLEEPLESSNESS.

Did you ever pass a single night in wakeful misery, tossing and rolling in bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night worse and worse? This is the most dreadful symptom of Nervous Exhaustion and Debility. You can be gradually and thoroughly cured of sleeplessness by the upbuilding influence of Dr. Chase's Nervous Food. It cures in nature's way, by creating new nerve cells and restoring lost vitality.

Today's Probabilities.
TORONTO, Dec. 3.—(Special.)—North and north westerly gales and change to decidedly colder weather.

PRESIDENT ROOSEVELT.

CRAMPS ARE LIKE BURGLARS,
they come unexpected, and when they are least welcome. Be armed with a one minute cure for cramps and keep Polson's Nervine handy; it acts instantaneously. Nervine's anodyne power is unique, for its composition expresses the highest medical progress of the age. Polson's Nervine is a true comfort in the family for in all derangements of the stomach and bowels it is an absolute specific. Nervine has five times greater medicinal value than any other remedy, and is sold in large 25 cent bottles. Try it.
