She was attended by Miss Belle Effe of Stanley, cousin of the groom. The groom was supported by Murdoch McKenzie. In the exhibition prize list published last week the name Carver was misprinted for Carew in the following awards: first prize for bushel field peas which was won by Alfred Carew; second for half bushel flax seed, won by E. J. Carew; fourth prize for buckwheat won by E. Carew. The prize in the poultry class for silver-laced Wyandottes was given to Thorne & Beer, and not to Miss Lodge as published.

JAMES GRADY, an old and respected resident of Summerside died at his home Thursday night. Mr. Grady was for many years engaged in the coasting trade, having had charge of a number of vessels. Latterly he was for a number of years harbor master and pilot for the port of Summerside. He was an honest citizen and his death makes a considerable gap in the rank of Summerside's early settlers. He was 84 years of age and is survived by a widow and three sons.

In the subscription list of the Summerside Fire Relief Fund printed yesterday the name J. S. Hullon was inadvertently printed for J. S. Hulton, and J. W. Boulter for J. W. Boulter. Also in the list of passengers to Summerside Thursday morning the name of Miss Ewen Welsh should have appeared Miss Gwen Welsh.

Another paragraph said that Mrs. J. R. Davison had left on a visit to her daughter whereas she has gone to visit her mother in Bay City, Mich. In the death notice of the late Mrs. James Moore, Westmoreland, the name of Fritz is printed in error for her son Crisp.

COULD SCARCELY WALK

A Rheumatic Sufferer Cured by Dr. Williams' Pink Pills.

Rheumatism is rooted in the blood—that is a medical fact. Every poor rheumatic sufferer should know that internal and outward applications cannot possibly cure rheumatism. There is a waste of money and while the sufferer is using them the disease is steadily growing worse—slowly but surely taking a firmer grasp upon the entire system.

Rheumatism must be treated through the blood. That is the only way in which the poisonous acid can be driven out. Dr. Williams' Pink Pills actually make new blood and thus always cure rheumatism. Every dose of these pills helps to make new rich red blood while sweeps the poisonous acid from the system, loosens the aching joints and muscles and gives the rheumatic sufferer health free from pain. Among those who can bear witness to the truth of these statements is Miss Dorena Langille, of St. Jerome, Que., for weary months she suffered from rheumatism and had begun to think she was incurable. "I could not 'lighten up' says Miss Langille, "My limbs were almost useless, no self were they. For many months I endured such pain as only rheumatic sufferers can understand. Although only thirty years of age the suffering I endured actually made me look like an old woman. I used liniments and several medicines but got not the slightest help until almost by chance my attention was directed to Dr. Williams' Pink Pills. I began taking them and in the course of a few weeks I could see they were helping me. Little by little the pain began to go, and the stiffness to leave my joints. continued taking the pills for several months when every symptom of the trouble had disappeared. I have not felt a twinge of rheumatism since, and I bless the day Dr. Williams' Pink Pills came to my notice."

Dr. Williams' Pink Pills never fail to cure rheumatism because they go right to the blood. That is why these pills cure all the common ailments due to poor and watery blood, such as anaemia, headaches and backaches, indigestion, neuralgia, St. Vitus dance, general weakness, and the distressing irregularities that afflict women and growing girls. If you need a medicine you will save money by taking Dr. Williams' Pink Pills at once. See that the full name Dr. Williams' Pink Pills for Pale People is printed on the wrapper around every box. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of this announcement, the better the advertising. No occupation space that directs attention along given and desired lines can be reasonably regarded as wasted, nor can any firm be expected to this end be adjudged a raving maniac.—American Medical Journal
