THE LATE CHARLES COLES.

He That Handieth a Matter Wisely Shall Find Good.

It was with deep sorrow the community learned of the death of Mr. Charles Coles at his home in Milton on the 22nd instant, at the age of seventy-five years, after some months illness. Mr. Coles' esteemed partner predeceased him some two years and was a great factor in his life. She was one "that looked well to the ways of her household and did not eat the bread of idleness."

The subject of this sketch deserves more than a passing notice for in him were many virtues although through his modesty and unassuming disposition he did not exercise them for show, and eternity alone will have record of the many praiseworthy traits of character which made him a favourite. Mr. Coles, when quite young, assumed control of the old home-stead, and with his perseverance and determination directed matters in such a way that great prosperity followed him all his days, and he has been called away not before enjoying great happiness in seeing his labours crowned with success.

The marriage of Miss Margaret Westaway, daughter of Mr. and Mrs. Roger Westaway at Lower Montserrat to Mr. Arthur Watson Whidden of Boston, will be solemnized in the Church of England, Georgetown, Wednesday, August 31st, at 10:30. The reception will be held after the ceremony at the home of the bride.

MEMORIAL UNVEILED

In the Presbyterian Church at Highfield yesterday afternoon the unveiling of the memorial to the late Rev. D. MacLean took place in the presence of a large congregation. Impressive addresses were delivered by several speakers, eulogistic of the life and work of the late pastor. At the afternoon service solos were sung by Mrs. D. McAlpine, of London, Ont., and Mr. Charles Earle of Charlottetown, while at the evening service Mr. Arthur Bruce and Miss Dorothy Sutherland of this city, sang solos.

IN ZION CHURCH

Rev. George E. Robertson, who has occupied the pulpit of Zion Church during the past month in the absence of the pastor, Rev. G. C. Taylor, leaves this morning on a return to Montreal. Rev. Mr. Ross, who was a former pastor of Zion church, is an impressively eloquent preacher and his short stay among his former parishioners was mutually most pleasant. His concluding sermon last evening was a splendid effort. A pleasing feature of the service was a solo by Mrs. Lord, of Fitchburg, Mass., formerly Miss Maud Bremner of this city who is spending a holiday with her parents Mr. and Mrs. Benjamin Bremner.

IN MEMORIAM

LATE ALEXANDER MACLEAN.

Alexander Maclean, a highly esteemed resident of Red Point, P. E. I., departed this life on Saturday morning at the age of ninety two years. Mr. Maclean was a prosperous farmer; an honest and intelligent, God fearing man; and a good type of the old fashioned, gentlemanly, genial, kind, thoughtful and benevolent. His wife, who was a Miss Bruce of Kingsboro, predeceased him. His home was one of unbounded hospitality and in every way exemplary of Christian living. The funeral service was conducted at his home by Rev. W. R. MacWalker, minister of the Baptist church, of which the deceased was a member.

MRS. THERESA MACLAUGHLAN

At Kingsboro, P. E. I., on Wednesday evening, Mrs. Theresa MacLaughlan passed away at the age of ninety two years. The deceased was a Miss Macphee, a member of a family well known and respected on the Island. A long life was hers—a life of faith and of good works. Her gracious, winsome personality, her sympathy with all in suffering or in sorrow, her free hearted hospitality, her ever ready helping hand made her a true blessing. During her last illness she was tenderly cared for by Mrs. Fed Stillman at her home she passed away. She was a member of the Baptist church; a regular worshipper at the public services until age prevented and a loyal supporter of every good object. One daughter and one son are left to mourn the departure of a good mother. The funeral service was conducted by Rev. W. R. MacWalker.

ENJOYABLE DINNER

About 80 guests, including His Honor Lieut. Governor and Mrs. MacKinnon attended the dinner at the Victoria Hotel yesterday and enjoyed a very delicious dinner. The famous Cyclone Novelty Orchestra furnished a delightful program of choice music and won the compliments of all present. Mr. Goodier gave a wonderful piano solo, while Mr. MacDonald excelled himself in rendering several violin solos. This Orchestra has an addition to its company in the persons of Miss Anderson, pianist, and Mr. Anderson, Banjo player which makes remarkable change. The management staff to be highly complimented for the splendid service given yesterday.

REMARKABLE WORK DONE BY SURGEON

EXTREMELY DELICATE OPERATIONS RESTORED TO HEALTH MAN GIVEN UP FOR DEAD.

NEW YORK, August 27.—By a seeming miracle of surgery John H. Reid who was virtually given up for dead after he had been riddled with bullets fired by Don Collins wire tapper last May, has been restored to health. This it was learned today has been accomplished through a series of extremely delicate operations performed by Dr. Alexander Nicoll chief of the surgical staff of Fordham Hospital.

At his residence, 17 West 72nd street, Dr. Nicoll told a reporter that it had been necessary in treating a wound in Reid's neck to take out the jugular vein, tie the ends and drain the neck. This operation the said was resorted to because the vein had been grazed by the bullet.

Another part of his work he said consisted of resetting the fifth cervical vertebra, which was out of alignment, removal of treatments and wiring the vertebrae.

Dr. Nicoll and Dr. William R. Lanz, surgeon, dentist of Forest Hills, performed some very difficult work on Reid's fractured jaw which knit imperfectly and had to be refractured. Through it all, he said, Reid bore his pain remarkably well. His pluck was a contributing factor in his climb back to health.

Reid's injuries were received in the home of Mrs. Hazel Davis Warner at 1892 University avenue, Bronx on the morning of May 15th Collins who was accused of the crime, has been missing ever since.

GLAD TO HAVE IT SAYS MRS. MARY SMITH—SHE DOES NOT MIND APPENDICITIS AFTER HAVING A BROKEN NECK AND LIVED.

CHICAGO, Aug. 27.—Most persons would undoubtedly consider surgical operations "hard luck" but here is one woman who is glad to "have it." Mrs. Mary Smith, 4669 W. Northrop avenue, because Mrs. Smith is one of the few persons in the world who have had a broken neck and have lived to have appendicitis or anything else for that matter—afterward.

The young woman, her head and shoulders in a plaster cast, still convalescing from the broken neck says she is here—meaning alive—because of the skill of Dr. Lloyd A. Burrows 1105 Leland avenue, the physician who will take her to St. Anthony's Hospital Tuesday to remove the appendix.

"I went swimming on July 12," said Mrs. Smith. "I swam under water and struck with my head one of those iron posts on which a sharp pain in my neck." "I thought at first it was spinal meningitis," says Dr. Burrows. "During that first thirty six hours I thought several times that Mrs. Smith was dead. Once for an hour, there was no heart action and no respiration. Artificial respiration finally brought her back."

FAIRBANKS MAY GO ON STAGE FOR TIME.

NEW YORK, Aug. 27.—New York may see Douglas Fairbanks and Mary Pickford as co-stars on the stage this season.

They will arrive this week to see the opening of Mr. Fairbanks' new screen play, "The Three Musketeers" and theatrical managers have been sending telegrams asking appointments the minute they arrive, with a view of placing them in a play.

While neither has signified a desire recently to go on the stage, it was learned they had made it known in the West that if they were offered a suitable vehicle, they might consider appearing on it for a season in New York, later to return to Los Angeles and continue their work before the camera.

One New York producer of light comedies is said to have embodied in his telegram an offer, as salary, that far outdoes any sum before offered to two stars in America.

SEA NOTIONS.

The sea is gradually getting more and more salty.

Sea vapor is not salty, the salt being left behind in the process of evaporation.

The salt in the sea comes from the land, being brought down by the rivers which gather the salts from the earth.

If all the sea dried up it has been estimated that the salt deposited would form a covering one mile thick over a million square miles.

The sea has a great effect on temperature; in hot climates it reduces the heat, and in cold climates mitigates the cold.

An analysis of sea-water from the English Channel revealed that in 1,000 grains of water there were 27 grains of salt and eight of other saline matter.

The cause of waves is the wind, which presses unequally on the surface of the sea and depresses one part more than another. Each depression causes a corresponding elevation, and the undulations are the waves.

A tide is a wave of the whole ocean, which is elevated to a certain height by the attraction of the moon and then sinks.

There are two tides in a lunar day of 24 hours 49 minutes.

The only effective way of removing the effects of salt water from clothes is by washing the salt out with fresh water.

There is some truth in the statement that sea-water does not give people cold; the salt acts as a stimulant, keeps the blood circulating and retards evaporation.

Changed Opinion About Union Jack

LONDON, Aug. 27.—A Reuter cable from Melbourne says that in moving an adjournment of the Australian Senate to discuss the Irish question, Senator Lynch expressed the opinion that Ireland should accept Premier Smuts' recommendations of Dominion status for the South, with Ulster left out for the present.

Senator Lynch dwelt on the importance of the principle to Australia, which, he said, would not survive a minute if dissociated from a first-class navy.

He referred sympathetically to Irish National aspirations, and declared that he was brought up to hate the Union Jack as an emblem of tyranny, but experience had compelled him to recognize it as a guardian of liberty and justice.

Big Swindling Scheme Exposed

OTTAWA, Aug. 27.—Investigations by the Department of the Secretary of State fail to show that federal charters were granted companies alleged to have been organized by Charles W. French for the purpose of swindling the public.

A despatch from Chicago gives the names of three companies with headquarters in Ottawa, which were started and organized by French. They are the Atlantic Bank, Atlantic Steel Company and Atlantic Coal Company.

The book shows that branches of the company were to have been located at Ottawa and Victoria. It also discloses extensive operations in Regina, already under way. The parent company was to be located in London with branches in Victoria, B.C., and Ottawa. The steel companies' banks and steamship companies' railways were to be included in the gigantic scheme.

The brown book revealed plans to obtain money from investors in every part of the country.

CHICAGO, Aug. 27.—A small brown book of twenty closely typed written pages came to light today disclosing the newest plan of Charles W. French and John W. Washington alleged swindlers to form a \$500,000,000 corporation, whose tentacles were to reach into every corner of the United States, Canada, and England.

While the spread of disease from Russia may be arrested by German sanitary measures, France's great danger is to be found in the constant arrival in this country of persons from Senegal, Madagascar and Poland.

Official reports received here this week from Senegal and Madagascar state that the Asiatic plague has appeared there, in Senegal one town reporting 200 deaths in a single week. Despite her rigid preventive measure, Warsaw also is reported to have several cases of plague, brought in by refugees from the Volga region of Russia, where the disease is one of the direct results of the famine.

France In Danger From Asia's Pest

Has No Sanitary Inspection to Keep Out Plague From East

PARIS, Aug. 27.—With 2,000 miles of frontier and the pest of Europe, alarmed over the spread of cholera and typhus, France's health experts are beginning to worry over the fact that this country has not yet established a system of sanitary inspection of immigrants, which would prevent the spreading westward into French territory of the plague which is sweeping Russia.

At French frontier stations inspectors are being examined, but the gendarmes never think of observing whether a traveler shows external signs of contagious or infectious disease.

The Ministry of Hygiene insists that the Government is not able to appropriate a fund necessary to carry on more than the most meagre health propaganda, and France for the last 150 years has been able to steer clear of dangerous epidemics with the sole aid of Providence. Therefore, the proposal that she follow the lead of the United States, England and Germany and institute a rigid system of sanitary inspection along her borders has fallen on deaf ears.

Germany Desires Revenge

BERLIN, Aug. 27.—Great crowds looked sadly on while thousands of soldiers, who fought during the great war, marched before General Ludendorff, Prince Eitel Friedrich, Count Von Waldersee and General Von Der Goltz, at the old Berlin stadium yesterday.

The lack of enthusiasm among the spectators was notable, only a few persons uncovering when "Die Wacht am Rhein" was played by a veteran band.

A message from former Emperor William, couched in the bombastic language he at one time indulged in, was read. "With proud and warm gratitude, I think today of my brave comrades, never vanquished in the field," it said; "with true German loyalty, they achieved against a world of enemies deeds such as history never has known before. The heroism of the dead will live on unforgotten to the honorable memory of the dead, and for the imitation of the living and future generations. May be halo of the great days of the past be the beacon for the victorious illumination still in the dark future. God protect the fatherland and its people."

Count Von Waldsee was the principal speaker at the demonstration, which was characterized by radicals as a "monarchist attempt to revive the dying war spirit" for the enactment of legislation that would abolish the private mine guard system in the state.

His address was fiery in character, the old military chieftain declaring: "There will come again a day when we will stand together for the Kaiser and the Fatherland. Hatred will stand guard in Germany. We must train our children to see the rifle and sword. So long as Germany suffers under a foreign yoke, and the French stand on the Rhine, we must prepare for revenge."

Spracklin Boarded Ship Salvation Army Gets \$500

WINDSOR, Ont., Aug. 27.—The building fund of Grace Salvation Army hospital has been increased to the extent of \$500 because the Rev. J. O. L. Spracklin, while a provincial license inspector, boarded the cruiser of O. E. Fleming, K. C., in search of liquor. It was announced by Adjutant Fred W. Martin, this morning, that Mr. Fleming had donated the damages recovered from the pastor inspector to local hospital. The action which was instituted by the Windsor barrister against Mr. Spracklin before the supreme court of the province, drew wide attention at the time. Damages were awarded to the plaintiff, Rev. J. O. L. Spracklin was held by the judges to have exceeded his authority when he searched Mr. Fleming's private cruiser for liquor.

Killed Her Baby Facing Poverty

CLEVELAND, Aug. 27.—Alleged to have preferred to see her baby dead than have it face a life of poverty Mrs. Mary Soltis, 26, was under arrest at Police Headquarters today on a charge of murder. Police Sergeant McCarthy declares the young mother admitted she smothered her week-old child rather than see it live in want.

Yesterday afternoon Sergeant McCarthy received a report that a woman in the West Sixth Street district was trying to dispose of the body of a baby. Search revealed the body of a baby boy in a pail in the basement of Mrs. Soltis's home.

At the county morgue it was declared the infant had been smothered to death, and McCarthy returned to Mrs. Soltis's home to question her. He found two other children, John 7 and Mary 4, clinging to their mother's skirts, crying with hunger.

"I smothered the baby with the bed clothes," Mrs. Soltis is said to have declared. "I did not want to see him grow up with nothing ahead. There is no money—nothing. What could I do? He would be better dead."

She said her husband, John, to whom she has been married seven years, went away some time ago in search of work.

German Minister Shot To Death

BERLIN, Aug. 27.—Mathias Erzberger, former vice-premier and minister of finance, was murdered today, Herr Erzberger was assassinated near Offenburg, Baden, where he was sojourning with his family. The body contained twelve bullet wounds.

Premier's Answer A Disappointment

LONDON, Aug. 27.—The letter from Premier Lloyd George to De Valera was received in Dublin late last night, and its contents came as a surprise to the Sinn Fein. They had expected further arguments on the claims of Ireland and they had raised instead a repetition of the essential conditions of the British government made known to De Valera at a conference in Downing Street a month ago. The meeting of the Dail Eireann was hurriedly summoned for this morning at 11 o'clock to consider the situation.

Big Haul Made By Bank Bandits

LOS ANGELES, Cal., Aug. 27.—Between \$40,000 and \$45,000 was obtained by bandits who robbed the Huntington Park branch of the Los Angeles Trust Savings Bank today, it was announced by the bank officials.

40 Per Cent. Lived On Food Substitutes

LONDON, Aug. 27.—Approximately forty per cent. of the people residing in the department of Kazan, Russia, have subsided on "food substitutes" since May, says the Moscow correspondent of Daily Herald, who quoted from a report of a special delegation which conducted the inquiry there. The delegation was unable to find anybody who actually died from starvation, but reports many deaths are caused by eating "unnatural foods."

Should Keep Live Stock

BRANTFORD, Ont., Aug. 27.—Addressing a gathering of 3,000 picnickers today, under Brant County T. F. O. auspices, Hon. Manning Doherty urged the farmers to keep their livestock off the market rather than sacrifice them at present low prices because of the feed shortage. He declared that the most distressing period of its history and to overcome the situation, industry, thrift, and a spirit of brotherhood on the part of everyone were necessary.
