GET A GOOD GRIP ON HEALTH

Look out for the unnatural weakness that indicates thinning of the blood and lack of power. It means that your bodily organs are starving for want of good nourishment; that the red corpuscles are fewer, unequal to demands of health. Hood's Sarsaparilla increases strength of the delicate and nervous, restores red corpuscles, makes the blood carry health to every part, creates an appetite.

If you need a good cathartic medicine, Hood's Pills will satisfy.

POINTED PARAGRAPHS

Some men do well by doing their best friends.

It often happens that a good talker is a poor thinker.

Most men who pay as they go are slow travellers.

A spendthrift gets tight occasionally, but a miser is always tight.

It's better to smile and be a villian than never to have smiled at all.

Sometimes the race is to the swift, but more often it is to the bookmaker.

Summer girls are again vowing eternal fidelity—until the end of the season.

No wonder air castles are popular. They are not taxable.

To many people the most popular hot weather drink is the one some other fellow pays for.

SINCE SHE WENT HOME

(Robert J. Burdette.)

(This beautiful poem was written by Mr. Burdette, in memory of his dead wife, who had been an invalid for years and to whom the poet humorist was most devoted.)

Since she went home—
The evening shadows linger longer here,
The winter days fill so much of the year,
And summer winds are chill and drear,
Since she went home.

Since she went home—
The robin's note has touch of minor strain,
The glad old songs breathe but a sad refrain,
And laughter sobs with hidden, bitter pain,
Since she went home.

Since she went home—
How still the empty rooms her presence blessed;
Untouched the pillow that her dear hand pressed;
My lonely heart hath nowhere for its rest,
Since she went home.

Since she went home—
The long, long days have crept away like years;
The sunlight has been dimmed with doubts and fears,
And the dark nights have rained in lonely tears,
Since she went home.

FASHIONS FOR CANADIANS

There is no reason whatever why the small boy's clothes should not be made at home and economy served as in the case of the girl child's outfitting. It is just as easy to find attractive remnants and short ends of materials suitable for clothes for the boys as it is for the girl.

For the very small boy, nothing is smarter than the little loose artist's smock of heavy linen or cotton, worn over bloomers of matching or contrasting material. Sailor and middy suits are good looking and serviceable also, and this year there are over-all styles galore for the very young man of the family. One novelty recently brought out in a miniature replica of a man's over-all suit, made of very dark blue denim and trimmed down each leg with a band of vivid red.

Wool jersey cloth, the heavy weave used for women's sport suits and coats, is a material very much in favor for suits for the small boy for the coming fall and for present cool day wear.

Of the many suit styles now shown, that is decidedly worth while, features a little plain blouse or shirt, with straight knee length trousers equipped with a stitched self fabric belt run through straps attached to the torusers. The model shown in the sketch is charming. This suit has the knee length straight trousers that are beginning to take precedence over knickers fo rvery little boys. The blouse is a sort of middy, made to slip over the head. It is finished at the waist with a wide band, laced with silk braid on either side. The yoke appears both in the back and front. In a heather mixture wool jersey such a suit will be found both smart and practical. Collar and sleeves are braid trimmed.
