In Memoriam

THERESA CATHERINE CAMPBELL

A wide circle of friends heard with grief of the death on May 18th of Theresa Catherine Campbell, second daughter of Mr. and Mrs. John W. Campbell of Poplar Point. Her death at the early age of twenty-two years came after an illness of six weeks, during which time she was tenderly cared for by her mother and her devoted sisters, and consoled by visits from her pastor, Rev. J. C. MacDonald. She was a most patient sufferer and her resignation to the will of God was truly edifying. Before her illness she had been the capable teacher of Riverview School and during the previous two years of Cumberland High School. Her funeral was held at St. George's Church on the afternoon of Sunday May 20th, and was in itself, a striking token of the affection in which Theresa was held by all her acquaintances. She leaves to mourn besides her sorrowing father and mother, two brothers, Joseph and her twin brother Wilfred at home, also three sisters, Helen of Boston, Mass., Elizabeth and Bernice at home.

3,000 FAMILY SCHEME British families have been brought on to Canada at a special settlement rate and they are located by the Canadian Government on vacant soldier settlement lands. The British Government supplies to each family a maximum of \$1,500 cash for stock and equipment. All repayments are made by the settler for the price of the farm, and for the stock and equipment loan, in equal yearly instalments, during a period of twenty-five years at the low rate of five percent. RE AGRICULTURE AND COLONIZATION

SUMMARY REPORT, etc. (Historicus)

This subject of discussion is becoming one of the most vital in the Dominion Parliament that can occupy the Government of Canada, and the attention of the country at large. It has been assigned to a Select Standing Committee of the Dominion House of Commons and is composed of men who have a wide knowledge of the question, and its deliberations will have an important bearing on the welfare of the country in the future.

Those who read the reports of its proceedings will see at a glance that this is no exaggeration. It bears on the quality of the immigrants who are to be admitted to Canada and become citizens men, women and children will to a great extent shape the destiny of the country.

An adjourned meeting of this committee met on June 6, inst, and took into consideration the Immigration Act and Regulations thereunder, and the general subject of immigration including the works of the Department of Immigration and Colonization. In addition to this they took into consideration resolutions and petitions submitted by various organizations throughout the country.

The Regulations referred to above are in part, as follows:—

CONDITIONS OF ADMITTANCE

BRITISH

1. All British subjects from the United Kingdom or from any of the British Dominions are eligible to enter Canada, provided they are sound mentally and physically, and in a position to maintain themselves until employment can be secured. No passport is required.

2. The British agricultural workers are specially encouraged by the establishment of a low rate of \$9.73 at the instance of the Canadian Government.

3. British domestic workers are also provided for at the same rate of \$9.73 for adults and free passage to all children under seventeen. In this case, also loans are made in special cases, even this small amount is advanced as a loan.

4. Families of British agricultural workers who have already emigrated to Canada are given the benefit of the special rate of \$9.75 for adult and free passage to all children under seventeen. In this case also, loans are made in special cases to provide for the transportation of such families.

5. British children over fourteen who are brought into Canada under the auspices of certain juvenile societies have their passage paid; and an additional amount is paid to such societies to cover the railroad fares and incidental expenses of such children.

6. British boys over fourteen and under seventeen years of age emigrating to Canada to approved farm homes, receive free passage to their destination.

SOUTHERN EUROPEANS

1. Only agricultural workers, domestic servants and those within a prescribed degree of relationship to residents already legally admitted to Canada are permitted to come in from these countries. Special exceptions may be made in cases in which the Minister of Immigration is satisfied that their labor and service is required in Canada.

NORTHERN EUROPEANS

Any subjects or citizens of these countries are eligible for entry to Canada provided they are sound mentally and physically and are in a position to maintain themselves until employment can be secured. These people are required to have passports. The average minimum ocean rate is approximately \$120. No special rate or assistance of any kind is given by the Canadian Government to subjects or citizens of these countries.

These people are required to have passports. The average minimum ocean rate is approximately \$135. No special rate or assistance of any kind is given by the Canadian Government to subjects or citizens of these countries.

UNITED STATES

All citizens of the United States are eligible to emigrate to Canada provided they are sound mentally and physically and in a position to maintain themselves until employment can be secured. No passport is required. From all the above it will be seen that immigrants from the United Kingdom stand in a specially favorable position as compared with the emigrants from Continental countries, not only with regard to general passage rates, but particularly with respect to the very greatly reduced rates given to agricultural and domestic workers from the United Kingdom.

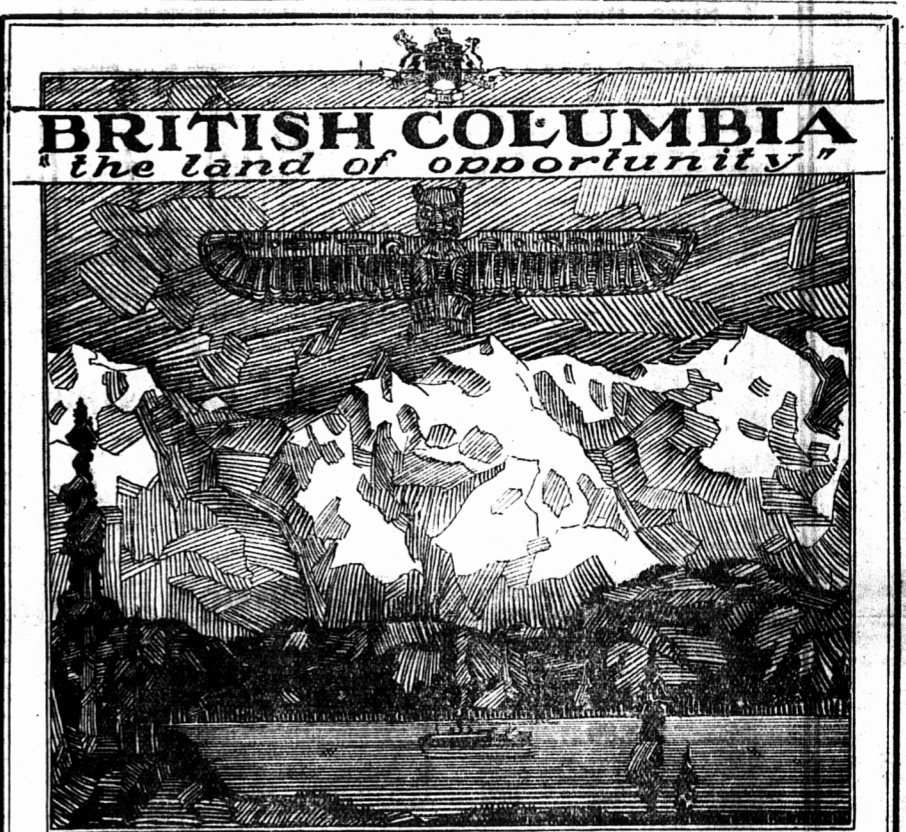

For further encouragement of British emigration the following schemes for land settlement should be noted:—

Hot Weather Treat Christie's WATER ICE WAFERS with a cool drink—a cup of tea, or just by themselves—delicious. In the Store or on the 'phone, always ask for Christie's Biscuits The Standard of Quality Since 1853

LINK UP HOTELS OF CANADA FOR SUPPLIES by the hotels is \$35,000-000 annually. One of the primary benefits of the association will be the immediate intercourse between hotels with a view to "checking out" for good the bad cheque artist. Parliament is to be asked to authorize the hotels to sell, after a certain period, all property left by guests, the same as railways and express companies may.

LAND SETTLEMENT SCHEME In addition to the above we shall give particulars in next article on a British Dominion Provincial Land Settlement Scheme in this connection. It is too lengthy for insertion in this issue.

CREAMED ASPARAGUS. Instead of using milk to make creamed sauce for asparagus, cook in as little water as possible and use this. Add thickening, butter, and seasoning.

More Beautiful than the Fjords of Norway

NOWHERE else a boat trip like British Columbia's famous "Inside Passage" far north to the Portland Canal and Alaskan territory! As the steamer glides through those island-sheltered waters, a thrilling panorama unfolds. Majestic mountains seem to rise straight out of the sea like stepping stones to higher ranges frosted with eternal snow. Here glows a crescent silver beach... there a valley, flower-starred and green. Now one hears the tinkling of a waterfall... then thundering torrents... and icy waters rippling where some great glacier slips its frozen feet into the sea. Indian villages, busy mining camps, canneries and mills, dot the inlets here and there, reminders that this beautiful wilderness is inhabited by man.

THE TRIANGLE TRIP If you're coming to British Columbia this year, you can make this Pacific boat trip part of a wonderful "triangle tour." Plan to come by the inspiring Canadian Pacific route with its majestic climb to the Great Divide, its sudden sweeping plunge through Kicking Horse Canyon, then rising through the spiral tunnels high above the glittering Yoho Valley. You can see the jagged peaks of snow-capped Cathedral, Chancellor, Stephen and President... surmounted by the triple spires of Mt. Goodsir, nearly 12,000 feet high... breaking into the sky line. And so through a diversity of scenery that has attracted tourists from all parts of the world, the traveller reaches the famous Pacific Coast... first seen by that intrepid explorer, Mackenzie.

From Vancouver and Victoria you have the glorious coast steamship trip; then, from Prince Rupert, take the Canadian National route eastward once more, through the beautiful Skeena, Bulkley and Nechako Valley country, to Jasper Park, where lordly Mt. Robson soars over 13,000 feet into the clouds. This interesting northerly part of the province, with its rich agricultural areas and active mining towns interspersing wonderful wilderness parks, is comparatively new territory.

MANY AMUSEMENTS A lifetime could not exhaust the alluring vacation trips in British Columbia! Besides the wonderful tours by rail and sail, thousands of miles of motorways are beckoning you. You can hunt and fish in a "Sportsman's Paradise" of vast virgin territories. You can swim at silvery sea beaches, or plunge in crystal mountain lakes, or bathe away your ills in the health-giving waters of famous Harrison and other hot springs. You can golf on evergreen fairways beside the sea, or on mountain rimmed plateaus. CANADA'S EVERGREEN PLAYGROUND
