A despicable petty theft took place at the Hillsboro rink last night when some party stole a pair of boots and rubbers belonging to a young lady who was on the ice. It is sometimes impossible to prevent would be thieves from practicing their nefarious conduct but it is regrettable if they are to be allowed to go unpunished. The value of the boots was surely hardly enough to repay the guilty party who sacrifices her character and self respect in taking for herself the property of others but this sentiment probably was too far buried in the brain of the culprit and the thought of pecuniary gain was too prominent for her to resist temptation. The young lady went home in borrowed rubbers leaving behind the ragged and worn pair discarded by the other party.

Resolved that the running of automobiles should be prohibited here, as at present, was the subject of a very interesting and instructive debate, which has been before the Prince of Wales College class on two occasions. It opened on Tuesday the 16th, and was continued Tuesday last. The speakers on the affirmative side on the first day were George Green, Percy Keating and Ulric Dawson. On the negative side they were Colin McNevin, Clarence Tidmarsh and Clyde Auld. It was contended by the supporters of the Resolution that under existing conditions it would be advisable to prohibit automobiles from running for the present. It was contended on the other hand that the present law and that its repeal would be best for everyone concerned. Tuesday's debate was resumed. Neil Rattee and M. C. McKinnon supported the resolution and Keith Rogers opposed it. It is to come up again at a later date.

GIRL DANGLES ON ROPE HIGH IN AIR

LAWRENCE, Jan. 23—Essay street was jammed with fire apparatus stalled electric and a crowd of several thousand people while Elizabeth Robie, a young English girl, dangled on a rope on which she tried to slide down from a room on the fourth story, to escape arrest.

The girl was in attendance on a heated session of striking textile operatives. As the arguments came to a close, she was hurled a pft. chair and it crashed through a window. The landlady appeared and informed those present that a collection for the window was expected. The only trouble with that was, nobody could contribute. The landlady telephoned the police. Elizabeth had no desire to be arrested. She snatched up the rope which was hitched to the wall, to be used in case of fire, and started to slide down it. She got half way down when she became caught. She couldn't free herself, nor could any one. As a result the firemen were called. And while a crowd of the usual strikers cheered, a fireman reached up from a second story window and rathered her in. Eventually she landed at the police headquarters, where she was charged with creating a disturbance.

ANADIAN HELD IN MEXICAN JAIL WITHOUT TRIAL

OTTAWA, January 22—After languishing in prison in Mexico City for over two years, without being able to force an issue in the Mexican courts as to his guilt or innocence, George I. Hamm, a Canadian citizen and president of the defunct Mexico City Banking Company, will now either have to be promptly released and given a fair trial in the civic courts, or else the Canadian and British state departments will know the reason why.

Correspondence in respect to the case has been under the consideration of the state department here and of the British Foreign Office for some time. Finally action has been taken to prevent any further subterfuges and delays on the part of the Mexican authorities, and if Mr. Hamm, a British subject, does not forthwith get justice in the Mexican courts, the Government of the Republic will be called upon to task by Great Britain in unmistakable manner. That is the ultimatum delivered through the British Ambassador at Washington.

The story of the case is an interesting one. Mr. Hamm, a native of Napanee, Ontario, went to Mexico some twenty-five years ago and by energy and ability built up a large banking and general financial business. He was reputed to be several times a millionaire. In 1909 the Mexico City Banking Company, of which he was president, failed, with liabilities of about three millions to the Bank of Montreal and other large sums involving several millions to New York banks. In the crash the Mexican National Packing Company, in which Hamm was heavily interested, also went under. He was arrested and placed in prison, where he has since remained, while the liquidation of his affairs went on. In this liquidation it is claimed that Hamm and his associates offered great unnecessary losses. Hamm, it is said, was made the scapegoat of others who had political pull with the Diaz Government, and with court officials. Others directors of the wrecked bank were allowed to go free.

STORM TOSSED WEST INDIA LINER

ST. JOHN, Jan. 22—"It was the worst weather I ever experienced, with the exception of a cyclone in the Bay of Bengal some years ago," said Captain Robinson of the West India liner Cromarty which arrived tonight from Barbadoes. Though the steamer came through it all without any damage she encountered furious weather, and for a time it was necessary to drive her before the seas running mountains high.

Bad weather was met with from the time that the steamer left Barbadoes, and the wind accompanied by a terrific sea increased in force till the 20th when the Cromarty had to lay to for ten hours, and oil bags had to be used to calm the water. When the steamer was finally brought up into it, she pounded in an alarming manner.

RESTORE GRAY HAIR TO NATURAL COLOR

By Common Garden Sage a Simple Remedy for Dandruff, Falling, Faded, Gray Hair.

The old idea of using Sage for darkening the hair is again coming in vogue. Our grandmothers had dark, glossy hair at seventy-five, while our mothers are gray before they are fifty. Our grandmothers kept their hair soft and glossy with a "Sage Tea," which also restored the natural color.

One objection to using such a preparation was the trouble of making it. This objection has been overcome by the Wyeth Chemical Company of New York, who has placed on the market a superior preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp, and thin, weak, falling hair.

The beauty of the hair depends more on its rich, even shading than anything else. Don't have dry, harsh faded hair, when a simple, harmless remedy will bring back the color in a few days; and don't be tormented with dandruff, itching scalp and loose, falling hairs. Wyeth's Sage and Sulphur Hair Remedy will quickly correct these troubles, and give color, strength and beauty to your hair.

Get a fifty cent bottle from your druggist today, and prove this to your own satisfaction. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Special Agent, E. A. Foster, Sunnyside.

SMART WOMAN GOT ALONG WELL

SPOKANE, Wash., Jan. 12—From comparatively nothing to the ownership of over 1,900 acres of excellent wheat land in Lincoln county in the short period of 10 years is the remarkable record made by Mrs. Josephine Ditmar the "wheat queen" of Reardan, Wash. The history of Mrs. Ditmar's business life for the 10 years reads like a romance. Everything that she acquired more than doubled in value. Thirty-two years ago the Ditmars left Oregon and settled near Davenport. At that time there were not many houses in Spokane. After a few years the family moved near Reardan, where Mrs. Ditmar has lived ever since. In 1902, without funds but believing in the future of the Big Bend country, Mrs. Ditmar purchased 720 acres of land under contract. She was not able to pay a cent down, but by hard work, good management and abundant crops she was able to pay for the land in three years. From 1905 to the present time she has gradually acquired land until today she owns more land than any other woman in the State. Her land at the present time is estimated at a value of \$150,000. Next year she expects to average at least 40 bushels per acre, which will give her a return of something over \$53,000.
