Its reserved undivided profits at the last annual statement were \$28,228,587. The stock, however, jumped six points yesterday and five today to 172.

Expect Shifts In Ottawa Cabinet

(Special to Guardian) OTTAWA, Oct. 29.—Sir Henry Thornton's opinion that there should be a minister of immigration continuously on the job is not very far from the accepted view in government circles here. Within six months probably a reconstruction of the cabinet is to take place and when this occurs it is certain that Hon. J. A. Robb will be confirmed in the position of Minister of Finance and leave the Immigration Department which he is carrying on necessarily as somewhat of a side line. His successor very probably may come from the West, and Premier Dunning would be the choice if he could be induced to come.

One bandit fired three times at McPherson but missed him. McPherson is 45 years of age, and as a reward will probably be given the vacant postmastership at Brandon, Manitoba.

Of Father Who Died Recently of Heart Failure

(Special to Guardian) CHICAGO, Oct. 29.—Richard "Dickie" Loeb, who with Nathan Leopold, junior, murdered fourteen-year-old Bobby Franks, may be released from the Illinois State penitentiary at Joliet long enough to attend the funeral of his multi-millionaire father, Albert H. Loeb, who died at his farm in this state shortly before midnight Monday night.

Warden Willing

John L. Whitman, Warden of the penitentiary, is known to favor the granting of pardons to prisoners and if application is made it is considered almost certain that Dickie will leave the prison, for a few hours at least. Richard's father, senior vice-president of Sears Roebuck and Company, expired of heart failure after a prolonged illness. Members of the Loeb family were emphatic in denying that Dickie was brought about or even hastened by the confession, court hearing and sentencing of his third eldest son to the penitentiary for life.

How a British Paper Views The Ontario Plebiscite

(Special To The Guardian) LONDON, Oct. 29.—The Morning Advertiser, the official daily organ of the licensed trade in Great Britain, in discussing the Ontario plebiscite of Thursday last on the liquor question, cynically intars at the vote, which showed a majority in favor of the Ontario Temperance Act, did not disclose a high test of intelligence. "The dry vote was in fact a pure vote," it states, "and since, in a country like Canada, the cities are likely to be in advance of the rural districts in education, intelligence and knowledge of the world, the probability is that prohibition has been fixed upon the people of Ontario for another spell by the less intellectual classes of the population."

BENGAL PAPERS EXCITED OVER ARRESTS

CALCUTTA, Oct. 29.—A meeting of protest was organized in Mirzapore Park, Calcutta recently against the arrests of various shades of Indian opinion. The Bengalee press is bitterly hostile, and even the Bengalee moderate journals consider the authorities have made a grave mistake. There does not seem to be the slightest likelihood of the Bengal Legislative Council passing a bill embodying the temporary provisions of the viceregal ordinance, in which case, presumably, the ordinance will become law under section 72 of the Government of India Act. It is stated that C. R. Das is canceling all his visits and is returning immediately to Bengal from Simla, owing to the new political situation. It has been said on high authority his arrest is not likely, as so far, Das' direct connection with the Terrorists has not been traced. Das has been discreet and any communication with the revolutionaries has always been through third parties. The same authority says that it is a gross error to assume that the Government is anxious to strike the Swarajists. The Government is only determining the terrorists, and if in following clues it finds some of the terrorists are also leading members of the Swaraj Party, the Government is not to blame.
