CROP REPORT
Pound Sterling
Reaches Highest
Level Since 1914

(Canadian Press)
MONTREAL, July 10—With a spectacular overnight rise the pound sterling advanced today to the highest level since Aug. 4, 1914, 19 years ago when war was declared.
The pound soared to \$5.02 1/2 in Canadian funds as compared with the \$5.20 all time high set up in 1914. It opened at \$5.01 and shortly moved up to its high rate but a slight setback in outside markets forced the rate downward and it closed at \$5.03 1/2, a gain of 5/16 cents over Saturday's closing level of \$4.98 1/2.
The American dollar after an initial loss fluctuated narrowly. The opening quotation was 4 1/2 per cent premium but later dropped to four per cent, off 1/2 of one per cent. Higher currencies were generally higher with the French franc advancing 1/2 of a cent at 5.91 cents.

Wheat Values
Go Higher

(Canadian Press)
WINNIPEG, July 10—Speculation on the rise in the price of wheat and the generous export business in Canadian wheat reported in the session for the day, wheat values steadily higher today and values closed 1 1/2 to 1 3/4 cents higher.
July 2 5/8; Dec. at 85 1/2; and May at 92 1/2.
Despite intermittent profit-taking rallies at the high points, wheat values maintained a steady tone for most of the session, chalking up new highs all across the board. There was no pressure to sell wheat and all offerings were easily absorbed by speculators who continued their operations of the past week.
