BOOSTING THE TOURIST TRADE

Mr. Charles R. Rogers, Summerside, chairman of Prince County Committee offers the following suggestions to improve Tourist Trade: When buyers come here for horses or cattle, or foxes or potatoes, or butter or poultry, or any other commodity, they take away with them all they have paid for, and to that extent our stock of these products is reduced. When Tourists come here they buy and pay for our scenery, our bathing, our boating, our fishing, and our unrivalled health-giving climate. BUT THEY DON'T TAKE THEM AWAY WITH THEM WHEN THEY GO. On the contrary, they leave them behind for the pleasure and enjoyment of other fortunate wanderers, who, by the stories they hear of the beauties and hospitality of Prince Edward Island, are induced to spend their next holiday with us. No advertising has such cumulative effect as properly conducted Tourist Propaganda. Every satisfied visitor becomes at once a booster. The small amount of money contributed by a handful of enthusiastic citizens last year for advertising purposes, brought wonderful results. We are now no longer novices in the Tourist advertising business, and this year's expenditure should be much more effective. No money which comes to this Province is more widely distributed than that spent by the Tourists. May we not therefore hope that the Tourist Association's appeal for funds will be responded to this season by a very largely increased number of our people, so that the beauties and attractions of the Garden of the Gulf may be broadcasted to regions not heretofore reached.
