## CANNOT SLASH NAVY, EARL BEATTY WARNS

### "Must Stand Where It Is Or Fall Below Point Of Safety."

(Special to the Guardian)  
NEW YORK, N. Y., Oct. 11.—The British navy has reached an irreducible minimum, according to Admiral Earl Beatty, visiting New York with his two sons, Viscount Borodale and Hon. Peter Randolph Louis Beatty.

The Herald-Tribune quotes the hero of Jutland and the Dogger Bank as saying:

"Diplomats at Geneva can argue until the air is blue, but they'll never get anywhere! The British navy has reached an irreducible minimum, and even if other countries take the lead in further reductions the British fleet must stand where it is or fall below the point of safety. No nation has reduced either its personnel or fighting ships as far as the British."

Danger to peace arising from Japanese or Soviet aggression Earl Beatty thought negligible, "a myth, a Frankenstein, wrought forth by super-imaginings."

## CITY COUNCIL MONTHLY MEETING

### Routine Matters Discussed At Lengthy Meeting Last Evening.

The City Council convened in its regular monthly meeting last evening with His Worship Mayor Stewart in the chair. Though only routine business was discussed there was considerable cross fire discussion between members of the board, which degenerated at times into what one councillor termed "burlesque."

Following the reading of the minutes, bills came up for confirmation and discussion.

In connection with a bill of \$25 for lawyers fees, regarding a case in the Supreme Court of Canada having to do with non-resident labour, it was stated that no non-resident tax could be collected.

Councillor Hennessey said he had been opposed to sending the case to the Supreme Court of Canada in the first place, and he had foretold that the case would cost \$1,500, and that his guess was very near correct.

There was considerable discussion as to whether or not the former Council was responsible for the sending of the case to Ottawa. His Worship stated that Mr. Tilley, Toronto, lawyer, had said

## Woodsworth Scores King's Inconsistency

(Canadian Press)  
OTTAWA, Oct. 11.—J. S. Woodsworth, (Lab. Winnipeg North Centre), restating the debate on the Address in Reply to the Speech from the Throne, approved of the amendment moved by the leader of the opposition yesterday, but objected that it did not go far enough. Mr. Woodsworth referred particularly to Mr. King's reference yesterday to proportional representation and the necessity for a central bank of rediscout.

"I would ask," the Labor member said, "where the opposition leader stood when we in this corner were urging those reforms in 1925, 1926 and 1928? However, we feel that we will now have more support on these matters than we have had hitherto."

## Britain Plans More Debt Conversions

(Special to the Guardian)  
BLACKPOOL, England, Oct. 11.—Rt. Hon. Neville Chamberlain, chancellor of the exchequer, is planning more debt conversions. Mr. Chamberlain informed the annual conference of the Conservative party here today the recent conversion loan amounted to a saving annually of about \$120,000,000, and declared he intended to convert more loans as soon as possible.

"Notice is already given to repay \$150,000,000 due Dec. 1 which now bears 4 1-2 per cent interest," he said. "Further saving will be effected on treasury bills and new saving certificates. This reduction of the interest rate makes it possible for industry to obtain new capital cheaper."

## STOCK SHOW AND SALE VERY SUCCESSFUL

### Large Number Of Swine And Rams Exhibited And Sold At Agricultural Hall Yesterday.

What was undoubtedly the most successful swine sale ever held under the auspices of the Prince Edward Island Swine Growers Association took place yesterday in the Agricultural Hall, Charlottetown.

A large number of exhibitors attended, and practically every animal entered found a ready bidder. In all more than 40 boars and more than 30 sows competed, and Mr. A. A. MacMillan, Chief of the Swine Division, Ottawa, who placed the ribbons had the most difficult task for many years in judging the fine exhibits entered in both classes. Premier honours in the boar class went to Mr. Percy Dickson of New Glasgow, with D. N. MacKay, Springfield, taking second and third places. In sows Frank MacAulay won first with Ernest Houston, New Glasgow, second.

At 1 o'clock sharp the sale commenced and continued until 6 o'clock. It is a compliment to Island swine growers that the majority of these offerings were purchased for use in this Province. It

## Find Abandoned Rum Craft, Cargo

ROCKLAND, Me., Oct. 11.—The United States customs patrol boat No. 4277 towed the cabin cruiser Cassassa of Weymouth, N. S., into port today after finding the Canadian craft with a cargo of more than 1,000 cases of liquor drifting crewless in the fog in Stockton Harbor.

Captain Philip Bickford of the customs boat said he believed the crew of the Cassassa abandoned the craft and fled to shore, after they sighted the early morning fog.

He estimated the value of the Cassassa and its cargo at not less than \$75,000. The boat was 55 feet long and had two gasoline engines and one Diesel.

Built in Meteghan

HALIFAX, Oct. 11.—The cabin cruiser Cassassa, found abandoned by the United States customs patrol men of Stockton, was built in 1931 at Meteghan, N. S., and is registered at Weymouth.

The Meteghan Shipbuilding Co. are listed as managing owners. The Cassassa is not known in Halifax and waterfront men were unable to say who her captain was.

## Duff Report On Transportation Tabled In House

### Report Deplores "Unwise And Unnecessary Capital Expenditures" In The Past And Proposes Detailed Economies.

OTTAWA, Ont., Oct. 11.—(By The Canadian Press)—The capital of the Canadian National Railways, amounting to \$2,669,926,371, should be very heavily written down, but now is not an opportune time to do it.

This is one of the outstanding declarations in the report of the Royal Commission which investigated Canada's transportation problems. The report was tabled in the House of Commons today. Recently a partial summary of the report was given out. It recommended among other things appointment of a commission of three to supervise the Canadian National system instead of the present board of directors.

"There must be a cessation of aggressive and uncontrolled competition between the Canadian National and the Canadian Pacific, the report states.

Duplication of steamship services on the Pacific coast is condemned.

Money has been wasted by the railways in the construction and operation of hotels.

The cost of the Canadian National branch line construction is compared with the C. P. R. has been excessive.

Based on the Canadian Pacific Railway costs as a yardstick, operating costs of the Canadian National, are in certain particulars, much higher than they should be.

"Unwise Expenditures" While finding no direct political and public pressure in respect to the Canadian National, the commission states that in the sphere of policy "political considerations led to unnecessary and unwise capital expenditures." The board of directors and management of the Canadian National were "amenable to political influence and pressure which it would have been in the public interest to have withstood," says the commission.

## N. Z. Railways Increase Profits

(Special to the Guardian)  
WELLINGTON, New Zealand, Oct. 11.—The New Zealand publicly-owned railways returned greater earnings for the year ending March 31 last than for the corresponding previous year, it was revealed today in a financial report. The figures showed that, despite the depression, the earnings had been \$38,000,000, as compared with \$36,000,000 in the previous year. The total revenue for the year just concluded was \$5,009,000, against total expenditure of \$5,671,000 pounds.

## Far More Lumber Sold In Britain

(Special to the Guardian)  
VANCOUVER, Oct. 11.—Lumber shipments to Great Britain for the first eight months of this year, which total 69,000,000 feet, constitute an all-time record, according to figures recently compiled.

On this basis, shipments from British Columbia will exceed 100,000,000 feet this year, eclipsing the 1930 record of 98,057,621.

These gains are being made at the expense of Oregon and Washington exporters, it is revealed, for British Columbia is this year supplying 60 per cent of the lumber shipped from the Pacific Northwest, representing an advance of about 36 per cent over 1931, when it supplied only one quarter.

Decision of British Columbia Lumber Manufacturers' Association to send four of its members to survey conditions in Great Britain will undoubtedly do much to improve

## Plan To Put 300,000 Men On Can. Farms

(Canadian Press)  
OTTAWA, Oct. 11.—A plan to put 300,000 men on Canadian farms as laborers was explained to the House of Commons today by E. J. Young, Liberal, Weyburn. The Government would pay each man \$5 a month for necessary expenses and a like sum to the farmer to cover part of the man's board. The scheme, he admitted would not cure unemployment, but it would create opportunities for useful work at low public cost.
