Head Offices in New Prowse Block—Charlottetown.

WILLIAM SELLARS, formerly of this City, but who had recently been engaged in real estate business near Saskatoon, Sask., arrived yesterday with his family to spend a few months visiting friends. He crossed over to Georgetown yesterday by the Stanley, and it took him a week to make his journey. He is stopping at the Eldon House.

The basketball games at the Y.M.C.A. last night resulted in a victory of the Vics over the Abbies by a score of 24-17, and in the game between the West Kent Street School and the Prince of Wales College second team the score was a tie when time was up and was then played off and won by the P. W. C. team. The game between the Abbies and Vics was a little strenuous at times, but good-natured throughout. Crosby played a nice game for the Abbies, and James McMillan also played strongly. For the Vics Jack McDonald, who substituted in H. S. McLeod's place, played a clever game, securing four field goals. Lafferty also scored four goals from field. The West Kent vs. P. W. C. really created the most interest and was a closely contested game, the teams being evenly matched. A number of supporters of both teams were present.

each polling division, to send in their names to the president of the Association as soon as possible, when steps will be taken to set a branch in each polling division. The clergymen in the different districts will, no doubt, use their influence in getting names sent in. All the newspapers in the island have requested kindly to publish this notice.—J. T. Jenkins, President.

The Christmas closing exercises of the Charlottetown Business College last evening were witnessed by an audience that completely filled the Philharmonic Hall. The programme was one of the best ever presented by the students of this popular institution, and every part was well carried out. Principal Miller presided, and seated on his right were Mr. Trainor, Principal of the Shorthand and Typewriting department, Misses Sobey and Trainor, assistants, while seated on the platform were His Worship, Mayor Paton, Revs. Woodroffe and White, Mr. Nash of the Patriot and Mr. McCready of the Guardian. After the presentation of diplomas, the staff was presented with an address, which was splendidly read by Miss Fitzgerald, and with very handsome and suitable Xmas souvenirs. As a detailed report of the closing will appear in another issue, Principals Miller and Trainor's reply, together with excellent addresses by the Mayor and other speakers will be held for the present. The speakers were very happy in their remarks, and most eulogistic of the splendid work done in the C. B. C.

A Royal Xmas Box for Your Lady

Not tin skirts
for silk.

Many a woman in Charlottetown is wearing a skirt that is nearly all tin under the impression that it is silk.

Every silk under-skirt that splits does so because it is woven from strands of silk soaked in tin (made liquid by hydrochloric acid) to make the silk heavier.

The chemicals cut up the silk, it splits the first time worn, results in a tin skirt.

Our silk Skirts are not Tin Ores.

We have the Best Silk Skirts made for \$5.00 and it will make a royal Gift for your lady.

Why Take Business Home?

Are Your Nerves Constantly Strained With Groundless Worries?

The cause of this tense condition is in your stomach. Your food does not digest properly. Nine-tenths of all dyspepsia and indigestion is of the nervous type and the only certain cure is to right the cause. Tonics, brain foods, biters, etc., are mere temporary stimulants. Your stomach and small intestines have become deranged by improper selection of foods; imperfect mastication and irregularity both as to time and amount of eating.

CAN'T THROW OFF HIS CARES.

The mucous coating of the stomach and intestines has lost its power of secreting the gastric juice (an important factor in digestion) the muscles of the middle coil are correspondingly useless in grinding up the food, and as a result, the food lies in your stomach fermenting, poisoning the blood, irritating the nerves and breaking down the system.

Something must be done to arouse the digestive organs to action. Stuart's Dyspepsia Tablets alone have been found capable of digesting the food for the unhealthy stomach. They contain diastase, pepsin, and other digestive agents which the stomach itself possesses when in health. These agents digest the food for the stomach and give the stomach a chance to rest and regain its normal powers.

Stuart's Dyspepsia Tablets are not a patent medicine, the formula for their preparation having been made public and known to 40,000 physicians in the United States and Great Britain. By government tests, Stuart's Dyspepsia Tablets have been shown not only to contain no harmful ingredients, but to possess digestives of higher purity than found in any other preparation.

Stuart's Dyspepsia Tablets are recommended by physicians everywhere and can be bought of any druggist or direct from the manufacturers at 50 cents per box.

If preferred, a free trial package will be sent you immediately upon receipt of name and address. F. A. Stuart Co., 73 Court Bldg., Marshall, Mich.

The annual closing of the Union Commercial College of this city took place last evening in the College rooms. By eight o'clock the attending visitors had taxed the accommodation of the rooms to their utmost capacity and long before the hour to begin many had been forced to retire. An excellent program was rendered consisting of vocal and instrumental duets, readings and speeches. An interesting number on the program was the presentation of Prizes and diplomas, which was done by His Worship Mayor Paton. Mr. Ryan, Manager of the Union Bank gave an address in which he set forth the advantage of rapid calculations and business penmanship, especially the latter, of which he said that a young man who had not that accomplishment in at least five years behind the one that has. Rev. Dr. Morrison and J. T. McKenzie also spoke and gave their ideas of commercial work. During the evening an address was tendered by the students to Principal Moran and to Vice-Prin. Prater, who very fittingly replied, commending the students for their good work. A notable exhibition of work was given when two lady students, blindfolded successfully demonstrated what could be done by touch type-writing. The evening came to a close with the singing of the National Anthem.

Those who are acquainted with the particulars of the deplorable loss of life by the recent wreck of the "Sovinto," will feel an added pang of regret when it is learned that the mate of the ill-fated vessel, after a long struggle against the pneumonia resulting from his exposure during the wreck, died yesterday at Priest Pond. It will be remembered that the poor fellow suffered cruel exposure, and was sorely hurt when he was dashed ashore with the capsized lifeboat which left the ship the day after the wreck. A serious case of pneumonia developed which he combated for many days, and it was thought he would eventually recover. But notwithstanding the care bestowed upon him, his mortal frame was unequal to the sufferings he had been called upon to undergo and latterly he had been steadily sinking. On Wednesday the sad fact had to be faced that very few hours of life remained to him and he made use of his time to write to his wife and family far away in distant Raumo, a town in Finland. It is a matter of satisfaction to know that during the period of his long illness, among strangers in an alien land he was well looked after. The kindness of Matthew & McLean of Souris, who concerned themselves in the sick man's welfare, and the care of Messrs. Rose and Manning who nursed him, as also the ministrations of the Rev. A. D. McLeod, the Presbyterian pastor of Souris, are gratifying and commendable evidence of kindness to a fellow being in distress. There is a feeling of universal regret for the sailor who perished in such sad circumstances. The dead man was 43 years of age, his name was Waurilau and native of Finland. The body will be taken from Priest Pond and interred in the cemetery at Souris West.
