Undaunted and still going strong, said coupe ricocheted off the house to bump a telephone pole for a direction and breaking it off close to the curb. The car must be made of good stuff as it continued on its merry way little the worse for the experience.

CHAUTAQUA

(Continued from page 1)

is it Canadians never seem to do it quite right? Perhaps they don't like to "let themselves go." In the course of this, Miss Clemens advised herself to be just as good a dancer as she is a pianist-and remember, she is just.

Mr. Clemens next gave two humorous character readings, the musical background being furnished by Miss Clemens at the piano, for the first number and for the second which was in Mock-recitative to the balance of the orchestra. The effect was most amusing. This was followed by a laughing song "Some-things" always sure to tickle me." A violin solo "The Swallows," played by Mr. Tupper followed.

Miss Clemens then played very beautifully Chopin's waltz in D flat Major usually called the "Minute Waltz" followed by another of her own compositions entitled "Nocturne." This, like the one played previously by the orchestra, showed much thematic originality. The orchestra then played Liszt's "Liebestraume," arranged in Fox Trot rhythm. "Japanese Sunset," composed by Miss Clemens, tickled the audience by a very dear friend of hers, Miss Jessie L. Deppen, who also composed "Skylarks," another very popular piece of music, formed an appropriate closing number. It is a very lovely piece, and was probably familiar to many members of the audience as, from its descriptive nature, it is often played as incidental music in the movies. The orchestra played it beautifully.

The orchestra, it should be noted is composed as follows: Miss Clemens, piano; Mr. Tupper, violin; Mr. Jack Clemens, Banjo and Mr. Arthur Lyall, Saxophone and Traps. At the close of the concert, the representative of the "Guardian" had the pleasure of a very delightful talk with Miss Clemens. In the course of the conversation she expressed her views on jazz. This she considers, has a perfectly legitimate place in modern music and in forms, such as "A Sologno" by Ben Burney, and the older "A Rhapsodie in Blue" by Gershwin. She stated that for herself she preferred the music of Sebastian Bach above that of all other composers.

Miss Clemens is a musician of great exceptional talent, both as a pianist and composer, and as she is quite young one may predict a very brilliant future for her. She began her musical career at the age of four, and composed some quite worthwhile music at the age of six-just as did Mozart.

Those of her compositions with which she favoured Charlottetown audiences, were very lovely, and had that "Pianistic" quality which one associates, especially with Chopin.

Miss Clemens, it should be added desired to express her appreciation to the Committee for the excellent piano which was furnished. This is a Heintzman, very kindly loaned by Miller Bros.

THE MARKETS

MONTREAL, Que., Sept. 26.-There was no improvement in the demand from United Kingdom and continental buyers for grain here today and the trade was quiet. A feature of the domestic grain trade was the stronger feeling that developed for Canadian western oats and prices were advanced two cents per bushel. This was attributed to the very light stocks available at Port William and the fact that considerable quantities have been sold for later shipment which buyers are finding difficult to secure. Manitoba feed barley was

CAMP AT CANOE COVE

One of the most successful summer conferences of the season was held on the Y. M. C. A. camping grounds from Aug. 13-20 at Canoe Cove under the auspices of the Churches of Christ of this province. Church Kia Ara was a success in every respect. The attendance including those who did not stay all the time was about thirty-five. The weather was delightful and the site inspiring. From 6.45-10 p.m. there was not an idly spent moment after breakfast and the usual devotional exercises each day was divided into periods which were mostly devoted to talks and lectures on the different aspect of the Churches work and the important problems confronting the church and young peoples work of today. Not every summer camp is honored with two missionaries Dr. Mac-Dougall, now President of the Churches of Christ College at Toronto, having spent a number of years in India and Miss Ennis who on furlough from India was able to remain but a short time with us were two who deeply impressed all. Miss Ennis dealing with the work told many interesting and amazing incidents of her Mission Group, situated in the heart of that foreign land. She is an excellent type of the splendid women of the churches of our continent are sending to do the highest work in which any woman can be engaged.

Dr. MacDougall devoted the greater part of his time and dealt in a masterful fashion on the underlying Principles of the Churches of Christ Movement and the World into which Jesus Came. Christ came into a world which differed radically, religiously and nationally; one-ninth of them being Jews scattered over the whole of the earth. He revealed in clear picture the Mediterranean World and Historical events leading up to the coming of Christ.

Miss Marion Royce, young People's Worker of the Churches across Canada, was present to direct the Group in the devotional exercises. The Miss Royce spent time in heart to heart talks on the problems concerning Young Peoples Work. Too much credit cannot be given Miss MacArthur for her splendid camp-fire talks, dealing with the radical problems of today, and the real Service and Friendship, a ground real serving Christ. Miss MacArthur also directed the dramatic part also of the camp. Many interesting humorous, though short comedy's being presented by the camp talent.

The success of the school owes much to Mr. Hayden Stewart, student of song and an other student catechists, who through their untiring efforts made it the success it proved to be.
