

**PURE WOOL,  
UNADULTER-  
ATED,  
FINELY SPUN,**

Just as good as your old grandmother used to spin, woven into correct styles—that is REID'S That is easy, isn't it?

**REID'S TRYON TWEEDS.**

Well it seems easy, but how hard we had to work to attain perfection. We have been about thirty years plodding long on the same old road—the road that is placarded with "All-wool, best workmanship, best dyes, best finish," but we accomplished our aim. You see we proceeded upon the best principle; we threw to the winds the idea of expending skilled labor and efforts upon shoddy materials, for to do so would be to waste time. We found that out long ago and we have had proof that women, especially P. E. I. women, have even a keener appreciation of the lasting worth of REID'S ISLAND TWEEDS than merchants. That is another reason why we continue to enlighten hundreds of women by advertising. The more enlightenment, the greater demand. Last year we received more orders from Island merchants for special lines than we could possibly attend to. This year—what? Shouldn't you become acquainted with REID'S TRYON TWEED before it is time to answer that question?

**A PROTECTORATE  
OVER MOROCCO.**

Story That France Will Establish One Confirmed.

The Recent Visit of King Edward to Paris is Said to Have Brought About the Inception of the Scheme.

LONDON, Sept. 26.—The reported intention of France to establish a protectorate over Morocco has been much canvassed in the last few days. The story, which was first launched by M. Jaures, the well-known French Socialist leader, and has since been repeatedly denied, is reasserted today. The Paris correspondent of the Daily Mail claims that he is able to confirm the story on unimpeachable authority. He says an arrangement has been made by France and England with the acquiescence of Spain, and, it is believed, with the knowledge of Italy, for the establishment of a French protectorate. A strip of land along the coast will be declared neutral, thus avoiding the possibility of any international complications over fortified ports. The British government is in full possession of the facts, and is quite satisfied.

There is a good deal of reason to believe that the visit of King Edward to Paris brought about the inception of the scheme. Great Britain, in return, will receive a quid pro quo elsewhere, possibly in the direction of Egypt. Spain will also receive certain advantages. It is thought the remodeling of influence on the Mediterranean will chiefly affect Germany, who is believed to have had intentions regarding Morocco. The only point at issue is when the scheme will be put into effect. It may be carried out at any moment. The French, at any rate, are ready. It cannot be established whether the scheme meets the acquiescence, albeit unwillingly, of the Sultan of Morocco. He may make a virtue of necessity, in which case he would be supported on the throne, but under any circumstances the religious fanaticism of the Moors would not be wanting, and no European out of reach of the guns of warships would be left alive.

The Berlin correspondent of the Daily Mail says he learns that an agreement of the leading nations of Europe was reached weeks ago in regard to the policy to be pursued in the Mediterranean. France is to have a free hand in Morocco; Italy is to have Tripoli; the British protectorate over Egypt is to be recognized and strengthened; Spain will receive some concessions from France, while Germany will get commercial privileges and an open door.

**RAN A NAIL THROUGH HIS HAND.**

While opening a box, J. C. Mount, of Three Mile Bay, N. Y., ran a ten penny nail through the fleshy part of his hand. "I thought at once of all the pain and soreness this would cause me," he said, "and immediately applied Chamberlain's Pain Balm and occasionally afterwards. To my surprise it removed all pain and soreness and the injured parts were soon healed." For sale by all druggists.

**WELL-KNOWN WRITER.**

CHICAGO, Sept. 28.—Henry D. Lloyd, the well-known writer on economic subjects, died to-day at his home at Winnetka.

**HE LEARNED A GREAT TRUTH.**

It is said of John Wesley that he once said to Mistress Wesley. "Why do you tell that child the same thing over and over again?" "John Wesley, because once telling is not enough." It is for this same reason that you are told again and again that Chamberlain's Cough Remedy cures colds, and grip; that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant and safe to take. For sale by all druggists.

**Dry Goods Prices  
VS  
Furniture Prices**

Said the manager of one of Canada's largest Departmental stores, whose catalogue may be found all over our Province:—"I would say that during the last ten years we have sent to P. E. Island \$50.00 worth of General Dry Goods, CARPETS, clothing etc. to every \$1.00 worth of Furniture." If this Departmental store, sold \$1.00—Worth of Furniture per month in P. E. I. they would in the same period esll \$5,000.00 worth of Dry Goods & c.

Personally we believe that quality considered both Furniture and Dry Goods have been sold in the past at fair prices. Yet any dealer desiring to do so can easily get the names of dozens of families who for years have imported the bulk of their Dry Goods, Carpets, Clothing &c from Toronto.

We show the **LARGEST STOCK** of **FURNITURE** and **CARPETS** ever gathered together in this Province. And we can sell you goods at about the same price as some dealers (who are ignorant of Furniture values) have paid for their goods. This **LARGE STOCK** is open for inspection by the Public and we may add:—
