**BATHURST WINS ROUND**

(Canadian Press)  
BATHURST, Feb. 26.—Bathurst 2; Campbellton 2. Game is second of a two game series. Bathurst taking round by five goals to three. Game tonight was played at Bathurst.

N. H. L.  
Canadiens 5; Detroit 0; Ottawa 4; Americans 2; Rangers 4; Toronto 1.

**THE MARKETS**

(Canadian Press)  
MONTREAL, Que., Feb. 26.—Prices were unchanged on the produce and dairy market here today. Carlot prices of fresh British Columbia eggs were quoted at 32 cents for extras, 28 to 28 1-2 cents for firsts and 27 to 28 cents for pullets, extras, western prairie and Ontario extras were quoted at 31 cents, firsts at 28 cents, pullets at 26 cents a dozen. Storage firsts in carlots were 18 to 19 cents and seconds 16 to 17 cents a dozen. Prices to retailers were unchanged. Receipts were 1,738 cases. Regraded eastern townships and fresh western number one pasteurized butter were quoted at 32 cents a pound. To retailers solids were 34 cents and prints 35 cents a pound. Receipts were ninety boxes. On the cheese market white was twelve cents, colored, 14 3-4 to 15 cents and summer cheese 15 1-2 to 16 cents a pound. There were no receipts. New Brunswick green mountain potatoes in carlots were 75 cents per ninety pounds bulk and to retailers 85 cents per 80 pound bag. OTTAWA, Ont., Feb. 26.—Egg markets are commencing to react very quickly to changing weather conditions. At Toronto and Montreal the markets are easier today following the milder weather being experienced in Ontario and Quebec. In the Maritimes, on the other hand, there have been some advances in price as a result of recent snow storms which have tied up egg receipts. Toronto—There is a slightly easier undertone on this egg market. Brokers are making sales of graded shipments of fresh eggs from Ontario points at extras 29 1-2 to 30; firsts 27 to 28; pullet extras 25 to 26; seconds 22, delivered, in free cases. Wholesale prices and paying prices to country shippers are unchanged. Montreal—Egg receipts were 1,178 cases as compared to 576 cases on the corresponding day last year. The market is quiet with offerings of western carlots fractionally lower. There are now being offered on a basis equivalent to extra 29 1-2, firsts 27, seconds 21, delivered, Montreal. Halifax—There have been heavy snowstorms throughout the province this week and these are having a serious effect on receipts of local eggs. Dealers in fact, are having difficulty in supplying the retail trade and all local stocks are being cleaned up closely. In addition, some supplies are being brought in from Ontario. There has been a temporary advance in jobbing prices, but no change in dealers' quotations to producers and country shippers. Chicago—Spot 17 1-2; April packed futures 21, November refrigerated future 24 1-2.

**THE FARMER BOY'S LOVE LETTERS**

"Do you carrot all for me? My heart beats for you and my love is as strong as a squash. But I'm strong as an onion, for you're a peach. With your turnip nose and your radish hair you are the apple of my eye. If you cantaloupe with me, lettuce marry anyhow, for I know weed make a pear."

**Western Guardian**

—THE FUNERAL of Mrs. James A. Ready, Kensington, will be held over all Saturday, February 27th at 9 A. M.

## Looking 'Em Over

BY TEC

**Sussex Vs Abbies**

If sufficient snow is removed from the Borden to Charlottetown section of the Prince Edward Island Railway in time, the Sussex hockey team will play Abegweits tonight at the Forum. This game has been hanging fire so long, that local interest is now at fever heat and fans are consequently clamoring for the big fixture. Abegweits have been practising daily for the coming set-to and intend to make the Dairytown puck-chasers step in every period.

The Truro-Sheik—L. P. U. game has been postponed until next week.

Amherst Ramblers, tired of waiting, and anxious to get back to the mainland to conclude their play-offs, drove by team to Summerside yesterday after being held up three days at Borden and one on the mainland. They started out last Monday morning from Amherst for Charlottetown scheduled game with Crystals the same night, but "King Winter," ruled otherwise, and after many privations and no little fatigue, arrived at the scene of battle last night and lost out by a goal, but won the round 7 to 4.

Had a talk with Art Dalton last night. He and Cormier send their best regards to the Abegweits hockeyists and Forum management. Dalton expressed the wish on behalf of Cormier that they would like another try-out with the Abegweits next winter. This speaks mighty fine of both young hockeyists, who are much impressed with Charlottetown and its citizens. Dalton also hoped that the Abegweits could arrange a game with the Ramblers some time before the present season closes, as each and every one of the players are keen for a game here.

Later—Train Through

The Borden train got through at an early hour this morning. This will assure the scheduled arrival of Sussex sextet in Charlottetown tonight.

## ONLY FISH MUST EAT FROGS' LEGS

LINDSAY, Feb. 26.—Twenty-five pounds of frogs' legs were confiscated last year in the County of Victoria, according to the report issued by the Game and Fisheries Department. This is the only capture of its kind ever made in Ontario, says Game Warden Peter Stevenson of Orillia, and the reason for having a closed season on frogs is that during certain months they are the main food of the maskalonne.

## LUNATIC SETS FIRE TO HIS PADDED CELL

JACKSONVILLE, Fla., Feb. 26.—One negro woman was killed, another is believed dying and 21 other prisoners were overcome by smoke when Henry Haysen, president of the Universal Brotherhood and self-styled independent candidate for president of the United States, set fire to a padded cell in the county jail to-day.

Haysen was moved here yesterday to await hearing before a lunacy commission after he tore two wash-bowls from the wall of his city prison cell and set fire to his bunk mattress. Police said the independent candidate to succeed President Hoover, opened his testimony in hearing before Judge I. M. Anderson with the shout: "I hereby abolish this kangaroo court." He was arrested twice Friday for disorderly conduct charges.

Hysen won some national attention several months ago in announcing his independent candidacy for President. A unique platform included the running-of beer pipe lines to every important street corner in every city and town in the country, the beer lines to be operated by the government.

## BOY SMOTHERED TO DEATH UNDER LOAD OF FERTILIZER

ST. ANNE DES MONTS, Que., Feb. 26.—The ten-year-old son of George Fournier, a farmer, was smothered to death under a load of fertilizer here. The boy was playing behind the dumpcart when the cart upset and buried him alive. He was extricated quickly, but did not recover.

## FRENCH WOMAN NEVER TAKES HER GLOVES OFF WHEN OUT

The old saying about the Frenchwoman, the Englishwoman, the Irishwoman and the gloves, holds good. The Frenchwoman puts on her gloves in her bedroom, the Englishwoman in the street, and the Irishwoman does not put them on at all!

Yes, and the Frenchwoman not only puts them on her room, but she puts them on with the same care and precision as she gives to the putting on of her stockings. Every finger is inserted in turn, every seam is straightened and every button is fastened, and having put all that energy and care into the process, it means that they are on for good. Even when she takes her tea, it is only the right one that comes off, and that rather grudgingly!

We English, writes Phyllis Jenkins in an English paper, have been spoilt by the vogue for the sporting chamois glove that pulls off and on so readily. That's all right when you are in tweeds, but it usually means that when you are "dressed" you tend to pull on and off your sueded and kids in the same way because you have lost (or never found) the ability of using a gloved hand. And that looks all wrong.

The Frenchwoman trains herself to do everything with her gloves on, extract her money from her purse, use her handkerchief, stamp her letters, make notes in her notebook, and when I think of all the right-hand gloves I have lost in the course of my life, I begin to think that apart from any other considerations, there is something in it!

## NOVEL RELIEF MEASURE FOR UNEMPLOYED

WATERVILLE, Me., Feb. 26. (U. P.)—A novel unemployment relief measure has been inaugurated here by the Chamber of Commerce.

All persons in the city now on a steady income are being solicited to contribute \$1 a week to an "employment fund" for ten weeks.

Not a penny of the fund will be disbursed except to persons who work for it.

Numerous business firms have contributed 100 percent of their membership to the fund.

## PHILLIPS MAY STRENGTHEN CATCHING OF PIRATES

PITTSBURGH, Pa., Feb. 26. (U. P.)—The Pirates catching staff, held to be the weakest department in the 1931 squad was believed strengthened greatly with acquisition of Eddie Phillips, formerly of the Athletics.

Phillips also has been owned by the Detroit and New York American League clubs and the Boston Braves. Phillips, who played with Boston College, nine, is 28 years old, six feet tall and weighs 178. He bats right handed.

Rollie Hemley was the only experienced catcher on the Pirates and "sore" Phillips was secured.

## IMPORTANCE COUNTED

BOSTON, Feb. 26. (U. P.)—In the 1789 edition of the Boston street directory citizens' names apparently were listed in the order of their importance. Facsimiles of the first directory ever issued here, which appeared in that year, show that "Honorable Samuel Adams" led the A's whereas the last name listed under this letter was "Samuel Adams' truckman." This plan was faithfully followed throughout the book.

## BOROTRA HAS BIG INCOME

PARIS, Feb. 26. (U. P.)—Jean Borotra, one of the best known of the world's tennis players, became the world's best salaried tennis player when he was elected to the board of Lower Rheinisch Iron Foundries and Machinery Company of Dülken. An engineer, now 31, he is also sole owner of a firm manufacturing mechanical parts of gasoline pumps, and from his combined jobs he makes the annual income of \$100,000.

## PRISON SHIP TO HAUL RUM

PARIS, Feb. 26. (U. P.)—The French prison ship, Martiniere, dreaded convict ship will pay her way on her next crossing of the Atlantic within a few days with a load of 350 convicts bound for Devil's Island. The Martiniere will load her lower deck cages with rum on the return voyage and head for Havre.

## ALL LOOT FOR RIGHT FOOT

GOLDSBORO, N. C., Feb. 26. (U. P.)—A thief who stole 74 shoes from Clifton Daniels, traveling shoe salesman, was sadly disappointed when he found all the footwear was for the right foot. He dumped the shoes behind a tombstone in the cemetery.

## PINE NUT CHOKES CHILD

SONORA, Cal., Feb. 26. (U. P.)—Helen Hendricks, five, was eating pine nuts when one lodged in her throat. She died before her parents could get her to a physician.

## OLDEST STATE NOTARY CELEBRATES

NEW ORLEANS, Feb. 26. (U. P.)—Louisiana's oldest notary public, "Judge" Frederick Deibel, celebrated his 82nd birthday here recently. The "Judge" received his notarial commission in 1870 during the tumultuous carpet bag days, and still goes regularly to business.

## KILLS BLACK BEAR WITH CLUB

VAN BUREN, He., Feb. 26. (U. P.)—Armed with only a cedar club, Levitt Beaulieu, battled a black bear in the woods near here and lived to tell the story. The man came upon the bear while tracking it through the snow. Instead of trying to escape, Beaulieu attacked the animal and killed it with a single blow of his stick.

## KICKED ON "SHANTY IRISH"

ST. LOUIS, Mo., Feb. 26. (U. P.)—Mrs. Laura Muckermann obtained a divorce here because her husband called her "shanty Irish."

## 500,000 NEW PUPILS ENROLL

CHICAGO, Feb. 26.—More than 500,000 students enrolled in Chicago public schools with the start of the second semester in February.

## Train Service

(Continued from Page 1)

merical traveller, of Montreal.

Several passengers who left Charlottetown for Summerside on Monday are snow bound at Hunter River including L. B. McMillan, H. O. Ebers and Dr. Blanchard.

## MAIL DELIVERY

Local mail couriers made their regular trips from the Charlottetown Post Office yesterday. They report the roads very heavy, with a great many plitches which increase the difficulty of travel. Mails were sent by team to Kensington, Hunter River, Wiltshire, Milton and Winslow. Today it is intended to send mails by road to points along the Murray Harbour Branch. Mail for Souris, Georgetown and Montague were despatched on a train going east at 8:30 last evening.

The mail plane did not make its regular trip from Moncton yesterday as flying conditions were unfavourable. Citizens mistook a local plane flying over the City late yesterday afternoon to be the machine from Moncton.

Sidewalks in the City are covered with slush, and with water which seeped out of the thawing snow. The water formed in deep pools on the sidewalk as the snow piled high by the ploughs formed a very effective dam, and prevented the water running off. There was little motor traffic yesterday as the streets were covered with loose, shifting snow, making driving almost impossible.

## REFORESTATION PROGRESS

NEW HAVEN, Conn., Feb. 26.—Reforestation of Connecticut's once heavily wooded slopes is being accomplished gradually through the efforts of the Connecticut Agricultural Experiment Station, which for the 16th year has announced it will supply seedling trees at cost.

## Conference

(Continued from Page 1)

ment and accord, first in Paris and now in Rome, has aroused the keenest interest in Government quarters as well as among the public here. The British statesmen, Foreign Secy. Arthur Henderson and A. V. Alexander, First Lord of the Admiralty, conferred all day today with members of the Cabinet. As a result, optimism was felt this evening that rapid progress was being made in the British efforts to harmonize the Franco-Italian viewpoints on naval tonnage. The British diplomats are trying to obtain lower Italian figures in order that they may fall in line with the terms of the verbal accord reached with France. It was understood the discussions pivoted on the submarine demand by Italy, which, however, it was believed would be reduced in view of the French transfer of part of the tonnage originally destined for submarines to the cruiser category.

Officials at the navy office were silent, but the British United Press learned from a reliable authority that the following major points were stressed: 1—The willingness of France to construct fewer submarines; 2—The French are desirous of keeping in service several obsolete capital ships, while Italy will scrap her undersea boats, thus giving France a limited superiority of tonnage. Italy's position on this was that the battleships retained are to be used solely in the colonial service; 3—The accord on these conditions will be effective through 1935.

It was further understood that the discussions centred entirely on naval problems, to the definite exclusion of political considerations. Alexander and Henderson met with Dino Grandi, Foreign Minister, and Rear-Admiral M. Giuseppe Sirinni, Minister of Marine. The conversations were conducted at Chimi Palace. They examined technical problems. The British statesmen were expected to remain until late tomorrow, when they hoped to depart for Paris with Italy's approval of the accord which they wish to put in writing.
