FOR SERVICES RENDERED

THE remuneration received by the executor of an estate is set by law, and is the same whether the executor is an individual or a Trust Company. Thus the administration of your estate will cost no more in the hands of specialists than in those of individuals who may be entirely ignorant of estate management.

In addition, your estate under expert administration stands to benefit in a material way. It is the Trust Company's business to find the best markets for assets of any kind, and to manage estates so that the interests of the beneficiaries will be served to the best advantage.

Would it not be wise for you to appoint as your executor a staff of experts skilled in estate management, particularly since it costs no more? We invite consultation.

THE EASTERN TRUST COMPANY
HEAD OFFICE HALIFAX, N.S.

STOCK QUOTATIONS

MORNING STOCK LETTER

(Received over Pitfield and Co's Private Wire)

NEW YORK, March 5—France intends to restore free gold movement on Monday. Premier Blum al'o states that France does not intend to devalue currency or control exchange. Domestically, the most important overnight news was the President's speech at the Democratic Victory Dinner in which he criticized rather severely the decisions of the lower courts and the Supreme Court but whether this will have ony effect on the market it is difficult to say, but the probability is that it will not at this time. As pointed out in yesterday's letter, U. S. Steel had advanced steel prices on an average of from $3 to $8 a ton. International Harvester for last year reported $5.6 against $3.77 previous year. We would expect an irregular firm opening today and believe that prices will improve during the day.

TORONTO, March 5—Waite Amulet—Official announcement of reopening the mine for production as negotiations for financing contract for refining zinc concentrates and a new copper smelting contract have been completed. First production is to come from the Amulet Mine with development work proceeding on the Waite property and with preparations made for production also on the latter property.

MacLeod Cockshutt—Diamond drilling has penetrated from 12 to 14 feet of well mineralized material on the 500 foot level, according to an official statement.

Aldermac Copper—Increased capacity of 750 tons daily expected to be in use by May. Some diamond drilling has been done on the 925 foot level where a horizontal hole has encountered 205 feet of ore of about the same grade of the number 4 ore body. This disclosure adds heavily to the indicated tonnage.

MONTREAL, March 5—Brazilian Traction—The Financial statement for 1936, which will not be available for some time yet, is expected to show earnings equal to about $1 a share against 74 cents per share for 1935. During this year net earnings show $3 an increase of about 1 per cent over the net for the same month last year. Equally important if the hopefulness that the Brazilian milreis will be able to achieve in the not distant future a basis which will allow the government of the Republic to leave the foreign exchange market entirely free.

MARKET BULLETIN

(Received over Woods- Reade and Company Special Wire)

BARING MORNING LETTER

I said last night that there should be a technical setback this afternoon of a few points and this setback came promptly today. The Industrials averages, which were near 194, reacted 2½ to 3 points.

As I stated yesterday, I am uncertain whether they will react six full points, since they already had a six point setback from the last top that was made February 11th, but I do look for a considerable setback after they get up to 197 ro 198.

However, at this level one must be careful not to get loaded up, for a 10 or 12 point setback won't hurt those that have stocks 50 or 80 points lower down, but it would make it very uncomfortable for those that buy at the top.

U. S. Rubber gave you a chance to sell your remaining half around 60, as advised a week or two ago, after having sold the other half around 61, and I would stay out of it, as well as of the preferred on which you should also have taken a very large profit on that big bulge a couple of weeks ago. Don't buy it back.

U. S. Steel reacted 4 points and if you did not sell out your remaining quarter do so on the next bulge.

Union Bag and Paper, of which you should be long below 40, got up to 75 and profits on half should be taken there. Atlantic Coast Line of which you should be long still below 40 and below 30, made a new high and would still hold it. Southern Pacific, of which I said yesterday to sell half on further bulge, made a new high 60 3-8. Hold the rest for 65.

Anaconda reacted 2 points, so did Kennecott, but I expect still higher prices in them and would keep long.

United Aircraft which you should have bought around 22 and 29 made a new high 34 1-2. Stay long of it for the present.

United Airlines got up to 22 3-4 and can still be bought near 21

Eric 1st pfd. and Wabash A made new highs, hold them.

Industrial Rayon finally got below 38 again and should be bought.

As it is our policy to recommend purchases only after sharp setback and not after big bulges, we advise you to make no promiscuous purchases at this time but to hold such stocks on which no selling advices have yet been given, such as the steel stocks, the rails, the utilities, etc.

Baring.

NOON COMMENT

Although the market is dominated by strength in the Steel and Rails, the whole list acts relatively well. Volume shrinks on reaction and expands on the upside. The motor group is still lagging despite indications that production this week will total around 127,000 cars the highest since 1929.

We think that greater interest will swing to this group and the oil stocks after some of the current enthusiasm for the steels and rails is spent.

While the motor industry still is plagued with strike problems and the oil industry is threatened, these two industries are approaching their best selling seasons and in each case the outlook for volume of sales is better than for many years.

Laidlaw and Company.

MORNING MARKET LETTER

Prices were mixed on a large volume opening yesterday but a generally buoyant condition continued throughout the morning and in the rail division until mid afternoon.

The Utilities, recently unresponsive, managed to make some headway in the first hour. During the afternoon the supply exceeded demand sufficiently to force a moderate reaction in most issues but the decline was orderly and in proportion that indicated little more than such profit taking as might naturally be induced by the substantial upturn of the three preceding days.

In the major steels particularly, the gains during recent weeks have been extensive, for example U. S. Steel which reached a top of $124 3-4 on Wednesday was selling around 80 in the middle of January. The Corp. will announce price increases today which may promote further strength in the stock and its influence as a market leader now is important.

However, the advance which occurred already cannot be disregarded as having discounted a large measure of the prospective earnings gained. It would be natural to expect a continued and perhaps increased interest in the lesser steels, the heavy industry rails and such other stocks as might derive assistance from active operations in the steel industry over coming months.

Laidlaw and Company.

NEW YORK SUMMARY

Mead Johnston and Company declares extra of 75 cents and regular quarterly dividend of 75 cents.

Newport Industries declares dividend of 50 cents. Weekly car loadings report due around 11.15 a. m. Cities Service Company properties will spend $42,000,000 for construction and improvement during the current year.

R. F. C. Chairman Jones intimates that Commodity Credit Corpn is contemplating change in release terms of its loan cotton after April first.

French Premier Blum announces restoration of freedom of gold movement effective Monday. Denies government plans to devalue currency or control exchange.

U. S. Steel Corporation announces general advance in steel prices ranging from $3 to $8 a ton and Carnegie Illinois, its largest subsidiary follows announcement of parent company by posting new price scale effective at once.

Intern. Harvester Company fiscal year ended October 31st net profit $29,760,372 after $2,000,000 provision for surtax on undisturbed profits equal to $5.66 on common against $19,618,238 or $3.27 on common for year ended Dec. 31, 1935.

Monsanto Chemical Co. contemplates offering new pfd to finance new construction and replace working capital used for plant expansion over past year or so. Total offerings likely to be about $10,000,000.

Grain Prices

WINNIPEG, March 5—(CP)—Bullish enthusiasm entered the pit of the Winnipeg grain exchange today on reports of overseas market strength and renewed European demand to send prices up more than a cent at the close.

Prices closed 1 3-4 to 1 3-8 cents higher with May at $1.28 3-4, July $1.24 1-4 to 3-8 and October at $1.12 3-4.

High points were touched in late trading when the May future climbed within 1 3-4 cents of the seasonal high, but at the high points liberal profit-taking was encountered.

Operations were generally active and volume appeared appreciable.

Argentine wheat shipments for the week totalled 9,090,000 bushels compared with 1,655,000 the same week last year. Australian shipments for the week were 3,739,000.

Cash wheat trading was featureless with spreads unchanged. The coarse grain market was active.

CHICAGO, March 5—(AP)—A rapidly advancing trend that developed most strongly during late dealings hoisted wheat here 2 5-8 cents a bushel maximum today.

Unusual strength shown in foreign markets, with a decidedly better commercial demand for wheat, did much to spur price upturns in Chicago. Houses with eastern connections were conspicuous as buyers.

Wheat closed 1 7-8 to 2 1-2 higher, May 135 1-4 to 1-2, July 117 to 117 1-8, corn 7-8 to 1 3-8 up, May 107 7-8 to 108, July 102 7-8 to 103, oats 1-2 to 3-4 advanced, and provisions showing 2 to 20 cents gain

MINING

TORONTO, March 5—(CP)—Mines were again heavy today on the Toronto market and the close was lower in all groups with no selling pressure of consequence. Volume dropped below the million share mark for the first time in a full session since Oct. 31 last.

Although the metal markets were strong, base metal shares showed no inclination to keep in step and narrow losses were showing at the close for Hudson Bay, Falconbridge, Chromium, Noranda, Waite-Amulet, Pend Oreille and Mandy.

MacLeod-Cockshutt was sold in considerable volume and the price dipped to 2.60 and recovered to 2.95 before the close. Pickle Crow was again moderately heavy, losing 20 cents and final prices were 10 to 15 cents lower for Wright Hargreaves, Read-Authier, Pamour and O'Brien.

Trading in the oils was active only in spots and prices closed lower. Foothills declined 30 cents, Calgary-Edmonton 25 and Home, Dalhousie and Okalta lost 15 cents each.

Currencies

NEW YORK, March 5—(AP)—The franc broke sharply in the foreign exchange market today on news of new French financial measures.

At one time the franc, which finished in New York yesterday at 4.646 cents, was quoted at low of 4.520 cents, but it rallied at the end to 4.65, a net loss of .08 5-8 of a cent.

The pound, at 4.87 13-16 was 9-16 of a cent lower. The Canadian dollar was unchanged at par.

Other currencies, with the exception of the Belgian belga, were inclined to sag in sympathy.

MONTREAL, March 5—(CP)—Pound sterling declined 11-16 cent on Montreal foreign exchanges today to 4.87 11-16. The French franc dropped 1-16 cent to 4.57 cents while the United States dollar remained unchanged at par.

UNDATED MONEY BOX

(By The Canadian Press)

Closing exchange rates:

At Montreal—Pound 4.87 11-16; franc 4.57; U.S. dollar 1.00.

At New York—Pound 4.87 13-16; franc 4.56; Canadian dollar 1.00.

At Paris—Pound 105.14 fr.; U.S. dollar 21.54 fr.; Canadian dollar 21.54 fr.

In Gold—Pound 11s. 10d; U. S. dollar 59.39 cts.; Canadian dollar 59.43 cts.

SOME HINTS FOR POULTRY KEEPING

So many enquires come to hand from those anxious to take up poultry raising and who have had little or no previous experience that it has been considered advisable to give a few general hints along these lines.

There is an inclination on the part of some who have been able to accumulate some capital to forsake their present occupation and launch out into poultry keeping on a large scale despite the handicap of little or no experience. To these we would say, by all means start in a small way and gradually grow into bigger business as you gain in practical experience. You will be involved in less risk, and if an unexpected, unavoidable setback should be experienced, you will be in a position to start again.

By starting in a small way you will ensure gaining experience at less cost than if you cast your all into the venture. The majority of our most successful poultrymen and women started in a small way and grew into bigger business. Few would consider it wise to invest most of their capital in any other business. Exc.

Finance

NEW YORK, March 5—(AP)—Raw sugar was firm today and although the spot price remained unchanged at 3.53 in absencce of business, later shipments sugars advanced 5 points to the basis of 3.55. At that level 63,000 bags of Philippines were sold for March to June shipment.

Futures No. 3 contract closed 16 points higher on the spot month and 1 to 4 higher on other positions. Sales 10,800 tons. No. 4 contract advanced from 3 to 4 1-2 points on sales of 29,300 tons.

No. 3 close: March 2.73b; May 2.63b; July 2.61b; Sep. 2.61b. Nov. 2.58b; Jan. 2.52b.

The refined market was unchanged at 4.80 for fine granulated.

NEW YORK, March 5—(AP)—Foreign exchange easy. Great Britain demand high 4.87 3-8; low 4.87 5-8; close 4.87 13-16; 60-day bills 4.86 13-16; France 4.56; Italy 5.26 1-2; Belgium 16.88; Germany 40.22; Canada 1.00

The Difficulty Of Knowing

It is, we suppose, natural for parents to believe their children have no eye defects. Most defects are noticeable, but not many of the eyes, directly. They exist in a great many cases, and are discernable only with a thorough and scientific examination.
