matron of the P. E. Island Hospital  
wishes to thank through the press,  
Mr. A. A. Pomeroy, city, for his  
kind donation of a basket of pears,  
which were very much appreciated  
by the patients.

SLIGHT BLAZE.—The firemen  
were called out at 9.30 last even-  
ing for a slight blaze at the head  
of Bruce Stewart & Co's. wharf. It  
was extinguished easily without  
damage.

Charlottetown at 7 p. m.

GOLD PRESENTATION.—At St.  
Paul's Church yesterday afternoon  
the Woman's Auxiliary held its  
first meeting for the season with  
a large attendance. A feature of  
the afternoon was the presenta-  
tion of an address and a purse of  
gold to Mrs. F. Nelson, who, be-  
cause of removal from the city, is  
retiring from the presidency.  
Interesting letters were  
read from Miss De Blois, repre-  
sented the Society in India, and  
Miss Robison in Japan.

NEW SECRETARY Y.W.C.A.—  
Miss Dorothy Hale will arrive in  
the city this evening to take up  
her duties as Secretary of the  
Y.W.C.A. Miss Hale is a native of  
Orillia, Ontario, and is a daughter  
of the late Mr. George Hale, found-  
er and editor of the Orillia Packet.  
She is a trained deaconess, having  
graduated from the Church of Eng-  
land Deaconess and Missionary  
Training Home and also from the  
School of Pedagogy in connection  
with Toronto University. She  
volunteered for foreign service but  
was prevented from going out by  
domestic circumstances. Recently  
she has been in the Registrar's  
office in Wycliffe College, Toronto.

Y. M. C. A. DIRECTORS MEET.—  
The Directors of the Young Men's  
Christian Association met last  
evening in their regular monthly  
meeting. President W. S. Louson  
was in the chair. The Committee  
reports given go to show that there  
will be a fall and winter of activi-  
ties covering more ground than  
for some time past. It is planned  
by the Membership Committee to  
start a Campaign for new members  
among the boys and young men  
of the city. This Campaign will  
take the form of a Competition  
with two teams working to see  
which can secure the most mem-  
bers. The Board decided to make  
a change in the conduct of the  
Physical Work this year and they  
have arranged to have Mr. Gorbell  
the General Secretary take charge  
of the classes. The classes for  
Boys and Intermediates will start  
on Thursday afternoon of this  
week. The first young men's class  
will be on Thursday night at 7.30.  
Considerable work has been done  
on the inside of the building dur-  
ing the last month and the direc-  
tors decided to continue this work  
by renovating the lobby of the  
building at once. The Bowling Al-  
leys have been put in first class  
shape and a big season in bowling  
is looked forward to. The Educa-  
tional Committee are planning to  
put on a course in Salesmanship  
for all young men of the city who  
would desire such a course. It is  
hoped to get this course started  
about the middle of October.

**She Had Suffered  
Ever Since a Child**

NEW BRUNSWICK WOMAN  
SAYS SHE'S LIKE A DIFFER-  
ENT PERSON SINCE TAK-  
ING TANLAC

"I began to have stomach trou-  
ble when was a child and never  
was able to get any real relief  
until I began taking Tanlac," said  
Mrs. Sandy F. Flewelling, Clifton,  
N. B.

"I had every symptom of indig-  
estion that anybody ever had, gas  
on the stomach, pains through my  
chest, choking and smothering  
spells and palpitation of the heart.  
At other times there was an awful  
burning through my chest and  
throat and a terrible gnawing sen-  
sation in the pit of my stomach.  
Awful headaches came on me regu-  
larly, I had nervous spells too, and  
often would lie awake nearly all  
night long.

"I'm absolutely a different woman  
since taking Tanlac and haven't a  
sign of any of my old troubles. I  
eat anything I want, my digestion  
is perfect, and I sleep as sound as  
a child all night long. I never have  
a headache now and have gained  
ten pounds in weight, too."

**No Scoring at Ball  
Game Yesterday**

The football game played yester-  
day afternoon between the Mt.  
Allison and the Abegweit teams  
resulted in no score for either  
side, though it was generally con-  
ceded that the Abbies had the  
better of the play for three quar-  
ters of the time. There was a good  
attendance, the main stand being  
well-filled.

The game was played in 25  
minute halves. The Mt. Allison boys  
showed their superiority to the  
local players in the extra kicking  
the ball out very formation.  
The first half was mainly scrim-  
work.

In the second half the play was  
more open. Some sensational runs  
were made by Lou Campbell of the  
Abbies and by S. Ferguson of the  
Mt. Allison team.

Referee Frank McDonald did his  
part fairly and to the satisfaction  
of all the players.

The line up was as follows:—

THE BOXING BOUT  
The following report of the Mc-  
Donald-McKinnon bout which took  
place on the night of the 28th inst.,  
is being sent to the Sporting Edi-  
tor of the Boston American by Mr.  
J. M. Ahearn who acted as referee  
as to the respective opinions of the  
judges and the referee. Those  
who witnessed the bout must judge  
for themselves.

The Sporting Editor Boston Am-  
erican:  
With regard to the Boxing Bout  
between Billie McKinnon, former-  
ly of P. E. I., but now of Boston  
and Robert McDonald of Glace Bay  
N. S.:

My decision of the bout by rounds  
as Referee, is as follows:

Round No 1—Slightly in favor of  
McKinnon.  
Round No 2—Even  
Round No 3—McKinnon's  
Round No 4—McKinnon's  
Round No 5—Even  
Round No 6—McKinnon's by a  
large margin.  
Round No 7—Even  
Round No 8—Slightly in favor of  
McKinnon.  
Round No 10—McKinnon's by 90  
per cent.

Of course, according to agree-  
ment of the Bout, there were two  
judges clear of the Referee. As Re-  
feree, I was powerless to give a de-  
cision without the judges' disagree-  
ing. I consider that the judges' de-  
cision was very unfair to Mr. Mc-  
Kinnon, who in all fairness should  
have had the decision.

Referee J. M. AHEARN  
Tignish, P. E. I.

**Wm. Kerr On  
The Co-Operative  
Creamery Question**

(By WILLIAM KERR.)  
(P. E. I. Agricultural.)

No Agricultural subject can be  
of more interest to  
Prince Edward Island, than Dairy-  
ing. The manufacture of Cheese  
brought ready cash and the dairy  
herd maintained the soil fertility.  
These two features are the super-  
structure upon which Island Agri-  
culture and Island business rests.  
The very great importance of soil  
fertility has been brought home to  
farmers during the season of 1921,  
when Prince Edward Island has  
met an adverse year. On farms  
where a dairy herd has been con-  
sistently maintained, a fair crop  
has been harvested. Most of the  
blue run talk of today is coming  
from the farms where dairying or  
stock-raising was "too much work"  
or "too slow." Good dairy sections  
are prosperous sections, because  
the rich soil with its abundant sup-  
ply of humus withstood the  
drought of the past summer. The  
contrast between such sections and  
sections where crops have been  
sold off for years, is very striking.

This object lesson is coming  
home to farmers with considerable  
force this year, when the Country  
has met a period of business de-  
pression and short crops. At this  
time the dairyman is meeting his  
bills, while others are asking for  
credit and mortgaging their fu-  
ture.

The Changing Times.  
From reports covering twenty  
years, the following information  
has been compiled:

Cheese Factories	But. Factories
1900 41	5
1910 45	17
1920 24	17

Total Cheese (lbs.)	Butter (lbs)
1900 4,431,739	572,726
1910 3,346,428	638,137
1920 2,081,276	1,157,527

Patrons (cheese)	Patrons (but.)
1910 3,498	939
1920 2,067	2,320

Total Butter and Cheese.
1900, 5,004,465 lbs.; 1910, 3,984,565 lbs.; 1920, 3,238,803 lbs.

It is shown that a very marked  
decrease has taken place in the  
total output of Factories. With ex-  
penses steadily increasing and out-  
put decreasing, a large number of  
factories once active are now clos-  
ed, leaving the districts without a  
means of manufacture. This has

greatly decreased the number of  
dairy cows kept and has retarded  
the general progress of dairying.

The Remedy  
To meet the new conditions  
that have arisen in the past twenty  
years, a new system of manu-  
facture must be devised to take  
have served their time so well.  
Many of these factories have gone  
and others are now making their  
last stand with a handful of loyal  
patrons, who are loath to see the  
old system passing.

The Central Creamery is the  
new method. It is coming here,  
as it has been coming in many  
other dairy districts. Its func-  
tion is to acquire a large plant,  
large plant, the cream that is pro-  
duced in districts without fac-  
tories, much of which is manufac-  
tured at home, and by the appli-  
cation of modern business meth-  
ods, so reduce the overhead and  
increase the volume, as to earn a  
profit for the producer.

The cream gathering Creamery  
leaves the skim milk on the farms  
and enables the farmer to feed  
more hogs, chickens and young  
stock. In addition, it relieves the  
household of home manufacture,  
which is always a heavy task for  
farm women.

POPE'S COUSIN DEAD.—The  
death at Genoa of the Marquis Pal-  
lavicini, a cousin of Pope Benedic-  
tine and head of one of the oldest fam-  
ilies of the ancient Genoese republic,  
is announced. He was also one of  
Genoa's prominent business men.  
He refrained rather than participat-  
ed in Italian political life. The Pal-  
lavicini participated in giving funds  
to the Duchess du Barry for her at-  
tempt to restore her younger son to  
the throne of France. The home of  
the family in Rome is the celebrated  
Pallavicini palace known to art  
lovers throughout the world, in con-  
nection with the famous fresco en-  
titled "Aurora" and its countless  
masterpieces and treasures.

NEW GRAIN RATES SCHE-  
DULE.—A new schedule of grain  
rates for the North Atlantic ser-  
vice, the outcome of a joint confer-  
ence of shipping companies in New  
York City recently, was announced  
Wednesday by the United States  
Shipping Board. Rates on wheat  
and corn, per hundred pounds, will  
be 17 cents to the United Kingdom  
16-1/2 cents to Antwerp and 18  
cents to Hamburg. Wheat flour will  
come under the same rates, with  
the usual differential if five cents.
