PROVINCIAL TUXIS BOYS' TRAINING CAMP

The Provincial Tuxis Boys' Training Camp was held at Victoria, July 8th to 18th. There were over forty boys and leaders present. Seventeen churches were represented from thirteen different centres. There was also a special week-end Conference for men, which was well attended. The Camp was under the direction of R. C. Sidenius.

Following is a list of the boys present:

Robt. Weeks, Charlottetown; Warren Duchemin, Charlottetown; Ed. Chandler, Charlottetown; Earl McInnis, Charlottetown; Fred Godkin, Charlottetown; A. Vatcher, Charlottetown; Roy Carter, Charlottetown; A. K. Lord, Cape Traverse; Lorne Lea, Victoria; Ray Tanton, Charlottetown; Arthur Boswall, Charlottetown; Wilfred Large, Charlottetown; Chas. McInnis, Charlottetown; D. S. McLeod, Charlottetown; Fred Hine, Charlottetown; Chas. H. Palmer, Charlottetown; Willard Proctor, Charlottetown; Roland C. Buntain, S. Rustico; Frank Larkin, Alberton; Upton Seaman, Alberton; Fred J. Larkin, Summerside; J. C. Mountain, Summerside; Fred Ramsay, Montrose; Alfred Gordon, Alberton; C. Russel Woodside, Darnley; Kenneth Montgomery, Port Hill; C. McNutt, Kensington; Robert Humphreys, Kensington; D. B. McKenzie, Hartsville; Eric McDonald, Charlottetown; Stanley McLeod, Kinross.

The Leaders were:—Dr. Percy A. Hayward, Toronto; Rev. Geo. Patterson, Missionary Japan; Rev. O. H. Peters, Charlottetown, Representative Charlottetown Methodist District; Rev. P. A. Fitzpatrick, Tryon, Representative Summerside Methodist District; Rev. R. H. Stavers, Hunter River, Presbyterian Young Peoples' Representative for P. E. Island; R. C. Sidenius, Charlottetown, District Secretary Y. M. C. A., Secretary Provincial Advisory Committee.

Special guests and speakers: D. S. Baker, New Zealand; Lou A. Buckley, Halifax Maritime Boys' Secretary; E. J. Arnett, Halifax, Town and Country Secretary; Dr. Kent, Halifax, Presbyterian Theological College.

THE TUBE TO FRANCE

Plans for a tunnel under the English Channel, discussed so frequently during the last sixtyodd years, are now, says Popular Mechanics, on the verge of materialization. It is announced that England and France are in perfect accord on the subject, and that war experiences have robbed its opponents of most of their contentions. From an engineering standpoint no serious difficulty is anticipated; through the impervious gray chalk underlying the channel bottom electric drills will doubtless find easy and rapid progress.

The plan calls for two 20-foot tubes, side by side, connected at short intervals by cross openings. A drainage tunnel underneath disposes of seepage water. At the centre of its length the tunnel dips to its lowest grade for one mile, constituting a water lock which could be flooded from the shore in case of military necessity. The total length from near Dover to a point between Calais and Boulogne will be 30 miles, of which 22 will be 95 feet to 175 feet below sea bottom. The channel's greatest depth is 130 feet. Estimates allow five years for completion, at a cost of \$100,000,000. Electric trains will make the passage in 40 to 45 minutes, giving England direct access by rail to all parts of Europe.

WOMAN'S WORK IN THE WAR

It forms a glorious chapter in the history of Canadian womanhood. She has nursed the sick and wounded—she has cared for the widows and orphans. While working for the Nation her work for the Home can be lightened by serving **Shredded Wheat Biscuit**, a ready-cooked whole wheat food that combines deliciously and wholesomely with berries or other fruits. A Summer life-saver.

MADE IN CANADA

PURCHASE OF CANADIAN CHEESE BY BRITISH BUTTER AND CHEESE IMPORT COMMITTEE

Following the recent collapse of the cheese market a representative of the British Ministry of Food (Mr. P. Warren) and the Chairman of the Butter and Cheese Import Committee (Sir Thomas Clement) associated with the Ministry of Food, England, were in Canada last week for the purpose of arranging for the purchase of 20,000 tons of Canadian cheese. They met the producers at Brockville on Thursday and offered 25 cents per pound delivered at Montreal. Sir Thomas Clement announced that a local committee to represent the British Butter and Cheese Import Committee would be formed in Montreal to arrange for the export of the cheese. The Canadian merchants who handle the cheese are to be paid a commission of 1 1/2 per cent plus 1/4 cent per pound to cover handling charges.

Taking advantage of his presence in Ottawa today Mr. Warren was asked for a statement as to the reasons for the purchase and why they are unable to pay more than 25 cents per pound. "The maximum retail of cheese in Great Britain, including the home production, has been fixed by the Ministry of Food at 16 (36c.) per pound and there are sufficient reasons why the maximum cannot be raised. "The cost of handling the cheese from time to time is delivered by the Canadian producer at Montreal until it reaches the consumer in Great Britain at the present time amounts to 10.95 cents per pound made up of the following items:

British retailers' profit (which includes loss in weight in cutting up) 5 cents per pound.
Commission paid to British Wholesalers and British Importers (average) 1.5 cents per pound.
Inland transport in Great Britain .5 cents per pound.
Storage and handling in Great Britain .5 cents per pound.
Interest in carrying stock .5 cents per pound.
Loss in weight 33 cents per pound.
Ocean freight and landing charges \$1.75 per pound.
Discount 25 cents per pound.
Commission paid Montreal Exporters .7 cents per pound.
Montreal handling charges 25 cents per pound.
Total \$10.95.

In addition to these charges the British Committee will have to bear the loss on account of the low rate of exchange, which at the present time is equivalent to about 2 cents per pound. The British Committee will lose on the Canadian cheese purchased at 25 cents and this loss will have to be met from the profits on purchases in other countries, or become a charge on the British Treasury.

The foregoing figures are confirmed by Dr. Jas. W. Robertson who has just returned from England. There is no "fixing" of prices and the Dairy Produce Commission will not be revived. Producers are free to dispose of their cheese through any other channels and at a higher price if that should be possible.
