

After Measles Whooping Cough or Scarlet Fever

is a critical period—weakened throats, delicate bronchial tubes and unsound lungs often follow; sometimes impaired sight or hearing.

But if **SCOTT'S EMULSION** is taken promptly and regularly after the fever subsides it quickly and effectually restores appetite, strength and flesh.

Scott's Emulsion contains the elements nature requires to restore sound health.

TENDERS

Sealed Tenders, addressed to the undersigned and marked "Tender" for taking down Cathedral Walls and removing Debris" will be received at the Bishop's Palace Charlottetown, until noon, on Monday 7th April, 1913, for taking down the Walls and Towers of the late Cathedral, and removing the debris out of basement, according to Specification to be seen at the office of Richard Grant.

Work to be completed on or before the 1st of July, 1913.

Each tender must be accompanied by an accepted cheque on a Chartered Bank, payable to the order of the Treasurer of New Cathedral Building Committee, for five per cent (5 p. c.), of the amount of tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so. If the tender be not accepted the cheque will be returned.

The lowest or any tender not necessarily accepted.

By order,
JAMES EDEN,
Chairman of Tender Committee
Charlottetown, P. E. I.
March 21, 1913.
3-25Mts61.

Sealed Tenders, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 9th May 1913 for the conveyance of His Majesty's Mails, on a proposed contract for four years, six times per week over Rural Mail Route No. 1 from Elmisdale Prince Edward Island, at the pleasure of the Postmaster General.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Elmisdale and route offices and at the office of the Post Office Inspector.

PINK CREPE LINGERIE.

Crepe de chine underwear is practical as well as pretty, for a good quality of crepe de chine washes as well as muslin. There is a growing use of this sort of underwear. It is sold now in pink, blue and white. It is all trimmed with lace, some of it elaborately.

Crepe de chine petticoats are ideal because of their light weight and clinging softness. They are generally finished at the bottom with a pleated flounce of wide lace. Some of them show an insertion of lace five or six inches wide and a hem of the crepe below the insertion. The more elaborate petticoats are trimmed with ribbon and chiffon rosettes and tiny artificial flowers.

Some of the combinations and chemises of crepe de chine are simply made, and these are especially serviceable. For the woman who is traveling they are a boon, indeed; for they can be worn without ironing. Hung up damp, their own weight smooths them from wrinkles.

WORLD'S BIGGEST DIAMOND MINE.

Twenty five miles east of Pretoria is what is known as the Premier Diamond Mine the biggest in the world, where 15,000 Kafirs are busy every day digging drilling and loading trucks of "blue earth" from which are extracted diamonds to the value of something like \$2,000,000 per annum.

The total value of diamonds exported from South Africa in a year is about £8,500,000 sterling and of this quantity about a quarter are discovered in the Premier Mine, the other two chief mines being the DeBeers and Jagersfontein.

The Premier Mine was really discovered by Sir Thomas Cullinan, the present chairman, after whom the great Cullinan diamond of 3,025 carats, discovered in the Premier Mine, was named. It may be remembered that this diamond was presented to King George by the Transvaal government, and was cut into eleven flawless stones, the largest of which is the Imperial Crown.

The Premier Mine possesses an area of 3,500 claims, equal to eight acres, and at the present time 12,000,000 loads of treatable "blue" is the diamond-yielding earth is known, are dealt with every year. And such are the resources of the mine that it is calculated that during the next forty years the present annual output will be easily maintained.

At present the mine is about 350ft. deep, and it is considered practical, according to the 'African World Annual', to work to a depth of 1,500 ft. The quality of the stones discovered is increasing in value with the depth, and in order to encourage honesty among the Kafirs, a payment of 3s a carat on all stones found and delivered to the compound manager is paid.

In addition to the 15,000 Kafirs, there are 1,000 whites working in the mine in various capacities. It is wonderfully equipped with electric plant and machinery, and is a fascinating sight after sunset, with "a thousand electric lights twinkling, eight great searchlights concentrating on the crater, piercing the huge cloud of blue smoke rising from the mine at intervals, and many thousands of natives rushing down the side of the mine, shouting and singing merrily, to resume work for the night shift."

IN MEMORIAM.

In loving memory of my dear husband Mr. Thomas McQuarrie, Rice Point, who passed away March 24th, 1912.

One year has passed since that sad day when he I loved was called away, God loved him too and thought it best to take him to his Heavenly rest.

His wife, Mary Jane McQuarrie and his brothers and sisters.

CONTROLLING OUT THOUGHTS.

How much cleansing of the life we can do if we set about it! We can shut our lips that they speak no lie. We can imprison our tongue behind clenched teeth that it speak no guile or deceit. Our ears we can cover that they hear and harbor no evil report of our brother.

Where is it then that we fail? In our thoughts? But we can govern our thoughts. What, you cannot? How is it, then, that you can work on arithmetic for an hour, then turn to grammar, then geography, then command your thoughts to a game of tennis or cricket? Or how is it you can plan crop rotation, then turn to the matter of the bankbook, then hurry to town for a political meeting, meet an old friend, tear yourself away from him to attend to a disagreeable matter of business you feel a responsibility about?

Not command out thoughts? Most certainly we can. But what of the passing thoughts that come and go with every impress of the sense? Can we control them? Yes. Just keep them "passing," keep them moving, if they are unworthy. They are not really thoughts till they find harbor in the active consciousness. They are like the flitting images on the retina of the eye as one idly gazes from the window of a speeding train. If an evil thought is passing, keep it moving. If it find lodgment and set in motion evil actions, it is by your acquiescence will. But if it is worthy impress, seize it, nourish it, make it part of your equipment of mind and heart, to beautify and expand your life.

I. T. McBride.

FRANK ABOUT IT.

He was an ardent lover, an Irish lover and a practically penniless lover. It was St. Patrick's eve, and in his hand he bore a pot of real Irish shamrock.

"They were raised on the old sod," he said as he presented the pot to Biddy, "raised on the old sod of Ireland."

"Sure, now, Murphy, cried his lady in delight, "how really sweet of ye. How perfect they are and how fresh. Sure, I do believe that there's a little dew on 'em yet."

Murphy flushed slightly. "Begorra, I know there is," he reluctantly confessed Murphy, "but raise heaven it'll be paid tomorrow."—The Shamrock.

Catarrh or Colds Never Quickly Cured By Swallowing Drugs

Cough Syrup, Tablets, etc., go to the Stomach, Perhaps Sickening It, But Don't Kill the Germs of Catarrh.

The Direct Breathing Cure is Best.

To cure an ailment in the throat or chest, to rout out Catarrh or Asthma, it is essential that the medicine be conveyed direct to the affected parts. This is why no other remedy has achieved such world-wide success as Catarrhoxone, which alone can be breathed in, one second to every air cell in the breathing organs. The healing vapors of Catarrhoxone mix with the breath and descend through the throat, down the bronchial tubes, to the deepest air cells in the lungs—all parts are saturated with the rich piney essences that ease, heal and cure.

"No one ever contracted a more obstinate attack of nasal catarrh than I suffered a month ago," writes Mr. G. E. Root, a well-known resident of Bridgetown, W. I. "My head ached terribly, I sneezed about every three minutes, but still my nostrils were entirely closed and I couldn't breathe through them. Ten minutes inhaling Catarrhoxone gave me a little relief, so I continued to use Catarrhoxone every hour, and before the day was out I had improved. Catarrhoxone quickly cured me. I am well ever since."

There is no remedy so certain and safe as Catarrhoxone, but being a good remedy it is imitated. Beware of the substitutor. Large Catarrhoxone lasts two months, price \$1.00; smaller sizes 25c. and 50c. At all storekeepers and druggists, or The Catarrhoxone Co., Buffalo, N. Y., and Kingston, Canada.

Public Auction
