REHEARSAL TONIGHT K. C. rooms cast "The House Next Door" and "The Follies of 1920." Full attendance.

WHIST AND ENTERTAINMENT.—A very enjoyable time was spent by those who attended the whist party and entertainment last night in the Knights of Columbus Hall, Lower Queen Street. There was quite a large attendance. The proceeds were in aid of the Charlottetown Hospital.

CANADIAN FUR AUCTION SALES.—Stock in the Canadian Fur Auction Sales, Ltd., is reported to be selling at a very encouraging rate. The subscription time limit is up tomorrow, Saturday, 60 cents was being offered on common yesterday in Montreal.

THE CIVIC ACCOUNTS.—Owing to some lines being displaced in yesterday's issue the civic accounts did not read accurately. The items in correct form show a surplus of $149.48, which added to the credit of $6,866.44, in the bank December 31, 1918 makes a total credit in the bank December 31, 1919 of $7,015.92.

CURLING.—A series of curling matches for oyster supplies is being inaugurated at the Curling Rink. The first took place last everyone enjoyed to the utmost teams representing East and West. The East proved victorious. The team was composed of J. D. Stewart, R. Beer, R. E. Spillett, F. T. Watkis, (skip) 11. The other team was as follows:—J. Pierce, A. Stewart, Rev. Dr. Fullerton, D. A. McKinnon (skip) 10.

SOLDIER'S FUNERAL.—The funeral of the late Gunner George Carver yesterday afternoon was very largely attended. His comrades of the Great War Veterans Association turned out in large numbers to pay their last tribute to the young soldiers memory. Rev. Wm. V. McDonald officiated at the service at St. Dunstan's Cathedral and at the grave. The floral attributes were numerous and very beautiful. The pall bearers were Messrs J. P. Hooper, Wm. Hughes, Wm. Harris, Samuel Murphy, A. McAskill, B. Cantwell. The funeral director was Mr. Andrew Hennessey.

PERSONALS

Mr. J. W. Webster, the representative of the Port Elgin Dry Cleaning Co., is confined to his room at the Victoria Hotel with a severe cold.

Minard's Liniment cures diphtheria

IN MEMORIAM

ANDREW McKENNA

The many friends of Pte. Andrew McKenna, son of Mr. and Mrs. Edward McKenna, Iona, were deeply grieved when they heard the sad and unexpected news of his death in the Military Hospital, Halifax on Wednesday, Jan. 26th. Only six weeks previously, Pte. McKenna went to Halifax for garrison duty. There he contracted a severe cold, which was followed by pneumonia, and despite medical skill and careful nursing, he wa summoned to Eternity after a brief illness,—fortified by the last rites of the Catholic church administered by Rev. P. McQuillan formerly of Charlottetown. His father, who had received the news of his illness only on Tuesday night drove to Charlottetown to catch the morning express, but, reached Halifax five hours too late to see his son alive.

The late Andrew McKenna was in his twenty second year, just in the prime of manhood. He was a young man of excellent character, upright, trustworthy, industrious; of an amiable, kindly, warm-hearted disposition, that won for him lasting friendships wherever he made acquaintances. These indeed were numerous—enemies he had none. As his Parish priest said at mass on Sunday last, his short life was an example for the young people of the parish—he avoided evil habits and associations, he was possessed of a simple, practical faith, was deeply religious, and a frequent Communicant. His brief life was thus a fitting preparation for eternity. His funeral, which took place on Sunday afternoon, was probably the largest ever seen in Iona. In the funeral cortege were one hundred and twenty teams, representing sympathizers from every section of Iona and Vernon River Parish, as well as from Grand View, Eldon and Surrey. The pall bearers were Wendellyn Morrisey, Venantius Curley, Thomas McKenna, of Vernon River Parish, and Michael Morrissey, Daniel Mooney, and Pte. Stephen McCabe of Iona Parish.

The funeral services in the church and at the grave were conducted by Rev. P. D. McGuigan, Vernon River and Rev. M. J. Smith, Parish Priest, after which the mortal remains of Andrew McKenna were committed to earth in St. Michael's Cemetery, amid the silent sympathy of his numerous relatives and friends.—May his soul rest in peace.

PILES Do not suffer another day with Itching, Bleeding or Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 60c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c stamp to pay postage.

SHIPPING NEWS

LOST ONE OF THE CREW IN GALE

Driven 1,500 miles off her course by a blizzard which raged for four days while on a trip from New York to St. John's, Nfld., the Norwegian steamer Puna arrived in New York yesterday on her return trip minus one member of the crew, who was washed overboard, and lacking lifeboats, doors and fittings which were either torn away by the storm or burned for fuel.

The steamer left the port of New York December 7 for St. John's, and four days later encountered a terrific wind storm and blizzard. The small craft caught in the centre of the storm, was blown into the mid-Atlantic and forced to head for the Azores because of lack of fuel. The coal became exhausted before land was reached and all available woodwork was burned. Water poured in the crew's quarters and they were forced to seek refuge in the saloon and to huddle around the funnel in order to keep warm.

It was impossible to cook warm food and for three or four days the crew subsisted on dry bread and water. Waves swept over the decks, tearing away lifeboats, smashing doors and flooding the staterooms. Ludwig Larsen, a coal trimmer, was washed overboard in the midst of the storm. The battered craft finally made the Island of Fayal in the Azores and there obtained enough coal to carry her back to Newfoundland.

BUFFALO BRIDGE TOWED INTO HALIFAX HARBOR

The United States Shipping Board steamer Buffalo Bridge was towed into Halifax Tuesday afternoon. The Buffalo Bridge, a vessel of 5075 tons, bound from Lisbon for New York, lost her propeller and was picked up at sea by another Shipping Board vessel the Clairton, which towed her to Sambro where she was taken in tow by two tugs from Halifax, the Kingfisher and Togo. The Clairton, last reported at Hamburg, continued on her way to St. John, N. B. A new propeller will be placed on the Buffalo Bridge at Halifax.

The Buffalo Bridge dropped three blades of her propeller while four days out from New York.

FUNNEL OF BRITISH STEAMER CARRIED AWAY DURING HURRICANE

The British steamer Hortensus, arrived in New York yesterday from Fowry, England, with an improvised funnel, made of wooden planks to replace the 30 ton steel one carried away in a hurricane January 14.

The vessel's rails and life rafts also were carried away by the storm.

NEW STEAMER FOR WHITE STAR-CANADIAN LINE

The international mercantile marine company announced yesterday that a new triple screw 15,500 ton steamer for its White Star Dominion Line service between Montreal, Quebec and Liverpool has just been laid down at the yards of Harland and Wolff, Limited, Belfast, Ireland. The new vessel will bear the name Calgary, and will carry 650 cabin passengers in one class only and 2,000 in third class. The Carigary, which is expected to enter the service in 1921 will be 600 feet long and 67½ feet broad, with a moulded depth of 45½ feet. The triple screws will be operated by a combination of turbine and reciprocating engines, and the specification speed will be 15 knots per hour. She will be a sister ship of the White Star-Dominion liner Regina.

LADY LAURIER AGAIN IN HALIFAX

After seven days and nights of desperate struggle with the wind and sea, the steamer Lady Laurier brought her dog-tired but undaunted crew into Halifax Wednesday evening. One week ago Captain Travis was sent to the rescue of the Powhattan, and since that time he and his crew have been in touch with her using every endeavor to help her in any possible way, and they have hardly slept. They left her safe at the mouth of the harbor, because their assistance was no longer needed.

Captain Travis' terse, seamanlike notes tell the story of what was actually done by the Lady Laurier for the benefit of the Powhattan, but one must read between his modest lines to comprehend the dogged heroism with which he and his crew stuck to their difficult and dangerous task. One thing does stick out of his narrative—the Lady Laurier had a hawser to the Powhattan from Thursday morning until Saturday morning, and during a good part of that time was towing through heavy seas against unfavorable winds at a speed which averaged better than five knots an hour. It was the Lady Laurier's misfortune that her hawser should part and that she had not the honor of towing the ship, for which she had done so much to her dock.

Captain Travis interviewed by The Morning Chronicle said that what he particularly wished mentioned was the work of his wireless operator, Mr. Dooley. He said that Mr. Dooley had not been out of his clothes since the Lady Laurier left the harbor and had been of incalculable value. Constantly in touch with the convoying vessels and the shore, he had enabled the Lady Laurier to be of greater service than she would otherwise have been.

Asked as to whether he had been "out of his clothes," Captain Travis confessed that he had not. He had changed his clothes for the first time to come home, he said, and what he wanted more than anything else was a bath.

When baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became Miss, she clung to Castoria.

When she had Children she gave them Castoria.

NEGLECTED COLDS

lay the foundation of chronic chest troubles. Many cases of consumption can be traced to neglected colds in childhood.

A cold should receive prompt treatment with Peps. Peps is the direct treatment. It is breatheable and therefore quickest and most effective.

Peps are so pleasant to take that children never refuse them and their absolute freedom from harmful drugs makes them especially suitable for children's coughs, colds sore throat, bronchitis, etc. Every mother should keep Peps handy All dealers 50c. box.

Minard's Liniment Cures Dandruff

Sale of German Liners In U. S. Postponed

Washington, Jan. 28—Action on bids for thirty of the former German liners seized in the United States was deferred today by the shipping board as a result of a protest from Secretary Baker against the sale of such of these vessels as have been included by the War Department in the Army Transport Reserve. In his letter to Chairman Payne the War Secretary disclosed that the shipping board, the Navy Department, and the War Department and the Department of Commerce had agreed, with the approval of President Wilson, upon a policy to be followed in connection with the former German ships which contemplated the building up of an Army Transport Reserve. He said vessels released to the Shipping Board for the service indicated in the aggrement were released "with the understanding that they are subject to immediate withdrawal in case of an emergency for use as transports."

Twelve ships were named in the agreement, six being allocated for the South American service, and six for the Trans-Pacific Service.

Bids on the liners, which include the Leviathan were received up to and including January 20, and were considered today by the Shipping Board Directors. In all twelve tenders were received. One of these was for the entire group of ships and another for a large proportion of the vessels.

Just a Tilt of the Pail

Women don't mind filling the knee-high supply can of the new Suction-feed. Only a few inches to lift. No straining of back or arms.

THE NEW SHARPLES SUCTION-FEED

Separator *gets all the cream all the time.* Any other separator will lose cream when the speed slackens. You can't always turn at exactly the right speed. No one can. It's impossible. Suction-feed skims clean, fast or slow, and delivers even cream. Capacity increases with the speed. Come in and let us show you how it works.

PROPERTY

Antimony Deposits at Lake George, N. B., with Mining Rights over entire mineralized area, comprising 25 square miles with Mining, Smelting and Concentrating Plant and machinery thereon.

Extracts From Official Reports.

"These are the only Antimony deposits in Canada or the United States or Magnitude or extension enough to maintain a smelting plant, and the ore is pronounced by experts to be of the finest antimony ore known."

Extracts From Canadian Government Report on Property Canada

DEPARTMENT OF MINES—MINES BRANCH REPORT ON THE

Mining and Metallurgical Industries of Canada

"The circumstances attending these deposits of Antimony are singularly favorable—first, the geological position of the deposits; second, their occurence in segregated masses along lines of fracture, proving the veins to be true veins of great depth and horizontal extension; third, the purity of the grey Antimony ore and its gradual passage into native Antimony as the veins deepen; fourth, the abundance of ore and the ease with which it may be reached, either for mining operations or subsequent shipment."

PROVINCE OF NEW BRUNSWICK,
DEPARTMENT OF LANDS AND MINES,
FREDERICTON.
January 28th, 1919."

"A. F. Saurel, Esq.,
Treasurer N. A. A. S. Co., Ltd.,
83 Wall Street,
New York City, U. S. A.

"Dear Sir:—

"Referring to the Lake George Antimony property at Prince William in this Country, the Department understands that developments are going to be made on a large scale on the antimony deposits being developed at the above place by your Company.

"'Numerous reports have been made by Mining Engineers from time to time on property and all of which indicated that large quantities of Antimony exist on this property.

"You can rest assured anything the Department can do to advance the interest of your Company will be cheerfully complied with.

"Wishing you every success in the enterprise, believe me,

Yours obediently,
signed T. S. LOGGIE,
Deputy Minister."

W. F. Almy, Mining Engineer, in his report says:—

"I have examined the property of the North American Antimony Smelting Company, Limited, which is situated at Lake George, N. B., and I estimate there is sufficient ore opened up on three sides to keep a smelter running for twenty or thirty years with a daily capacity of one hundred tons or ore mined. And in addition thereto, there is, in my opinion practically an inexhaustible supply of ore on the property."

"The market will absorb all that would be produced from the high grade ore that would be obtained in mining 100 tons daily."

Estimated Annual Production and Income Compiled By Ricketts & Co.

	Natural Sulfide	White Oxide	Regulus	Crimson Sulfide	Golden Sulfide
Estimated ouput (lbs.)	1,800,000	5,400,000	3,000,000	912,500	2,190,000
Total cost in New York	$ 72,000	270,00	150,000	237,250	328,500
Selling price per lb.	$ 12½	.10	.08	.47	.28
Total selling price per lb.	$ 243,000	540,000	240,000	428,875	613,200
Gross profits	$ 171,000	270,000	90,000	191,625	284,700
Total gross profits					$1,007,325
Gross tonnage output					6,801 tons

"The above estimate was compiled by us after exhaustive investigation and we do not hesitate to say that the market will readily absorb this production and the plant may be duplicated to manufacture twice the tonnage out of the surplus earnings of the Company which would then show an annual gross profit of 100 per cent. on the Capital stock.

(Signed) RICKETTS & CO.,
C. E. W. BATESON, Vice Pres."

Sine the above estimate was compiled the prices of these products have more than

New Installation

It is the purpose of the Company to increase the capacity of this plant four-fold and also to erect in the vicinity of Boston a Sulphide Plant with an initial daily capacity of tens tons of Crimson and Golden Sulphides.

The necessary amount of the Treasury Stock will be sold to meet the following estimated expenses:

New installation at mine	$225,000
Sulphide plant	75,000
Working capital	200,000
Total	$500,000

It is the intention of the management to pay a substantial dividend out of the profits of the company and with surplus earnings to establish paint and enamel works at St. John, N. B., for which undertakings bonus stock will be issued to shareholders.

This stock offers an unusually attractive investment opportunity as the abundance of raw material, that ever increasing demand for Antimony products and the recognized ability of the management insures the success of the Company. It is conservatively estimated that a substantial dividend should be paid within the next twelve months.

KIEL SHOWS COMPLETE DEFEAT OF GERMAN NAVY

LONDON, Jan. 28.—The Reuter correspondent with the International Naval Commission at Kiel, says the Commission inspected the dock yards there on Saturday and left Monday for Berlin. There was virtually no activity around the harbor during the stay of the commissioners. All types of German warships were moored in the harbor. Only two cruisers and four destroyers were in commission. A 32,000 ton battleship, half completed and untouched during the last fourteen months, and other giant vessels, their armor plates rivited and engine funnels rust-eaten, were also to be seen.

The whole scene in the dock yards and harbor, says the writer, gave a most vivid idea of the complete defeat of the German navy. The spirit of the German seaman, however, were not in the slightest broken. They sang patriotic songs on the arrival and departure of the commission.

STATUTE PROVIDING SALARIES FOR MINISTERS RECEIVING CLOSE STUDY.

OTTAWA, Jan. 28.—A statute passed in 1918 is now receiving some close study. It became law in the first session of the Union Parliament and provided salaries for Ministers of new departments, for Senator Robertson, as Chairman of the sub committee on labor; for Hon. A. K. McLean as vice-chairman of the reconstruction and developing committee. It is on its reference to Mr. MacLean, that this Act is receiving attention. Under its provisions, the Ministers voted a salary were under no necessity of being re-elected, and it was to remain in force during the war and for twelve months afterwards. The question being considered is whether in the event of Mr. MacLean being appointed head of a Government Department it would be necessary to have a by-election.

NEW ETHER OF A TORONTO DOCTOR

TORONTO, Jan 28.—Dr. J. H. Cotton of this city has originated and perfected a new ether, which he claims will eliminate pain without loss of consciousness. It is known as "cotton process ether" and has been used in the past week in some Toronto hospitals with good effect, it is stated.
