

Canada's Pulp and Paper Industry

The great development of Canada's pulp and paper industry, which contributes materially to the favourable balance of the foreign trade of the Dominion, has been largely made possible through constructive financing.

Royal Securities has been prominently associated with the financing of Canadian pulp and paper companies since 1910, when this Corporation purchased and distributed the first major public issue of Canadian newsprint securities. During the intervening 17 years we have been identified with issues of securities which provided many millions of dollars for the establishment or expansion of the following well known companies:—

- Abitibi Fibre Company
- Abitibi Power & Paper Company
- Bathurst Company
- British Columbia Pulp & Paper Company
- Continental Paper Products
- Donnacona Paper Company
- Fraser Companies
- International Paper Company
- Manitoba Paper Company
- Price Brothers & Company
- Spanish River Pulp & Paper Mills

Our long and active connection with the development of the Canadian pulp and paper industry has enabled us to accumulate very comprehensive information regarding the industry and securities of individual companies.

To present and prospective investors, we offer exceptional facilities for supplying market quotations, information and advice.

Sound Investments in a City's Prosperity

Montreal's growth has established confidence in the stability of real estate values in important districts. On Drummond Street, in the heart of the hotel, shopping and theatre district, is the new apartment-hotel, the La Salle, meeting needs of city residents and of a constantly-increasing number of tourists. In the growing section of St. Catherine Street West is the Automobile Sales Building, rented largely to motor interests. It is estimated that revenue from both buildings will be sufficient to pay bond interest requirements more than twice over, which would provide a satisfactory return on the common stocks. The bonds of both companies carry a bonus of common stock.

We Offer:

- DRUMMOND STREET REALTY CORP. (The La Salle) Refunding S.F. Mortgage 5 1/2 % Gold Bonds
- ST. CATHERINE IMPROVEMENT CO. (Automobile Sales Bldg.) First Mortgage Leasehold 6 1/4 % S.F. Gold Bonds

PRICE: 100 and Interest

Further particulars on request.

Tuberculosis Is Preventable

The second of a series of articles on Tuberculosis and its prevention, issued by the Maritime Tuberculosis Educational Committee, directing the field work of the Canadian Tuberculosis Association:

Tuberculosis is Preventable

How? By eliminating the germs that cause the disease. Every individual who coughs without protecting others is a criminal. Why? Because he spreads millions of germs everywhere in the air.

Someone else breathes them and gets some infectious disease—Tuberculosis, Diphtheria, Scarlet Fever and a host of others.

Every person with Tuberculosis germs in his sputum who is careless with cough and sputum will be the cause of many deaths. Do you want to be in this class?

We might say that outside of the cases caused by milk from diseased cattle, if there were no sputum there would be no tuberculosis. Watch for Articles No. 3 on Tuberculosis.
