Number three is said to be the largest, 112 feet in length, and took two of the company's most powerful tugs eight hours to tow the crib to Carleton and usually takes about eight days to construct each crib. It is quite right to state that no other dock in the province presents such a beautiful appearance when lighted at night as does Carleton Point.

**GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF**

**SAVE YOUR HAIR! DOUBLE ITS BEAUTY IN FEW MOMENTS—TRY THIS!**

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Dandarine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy, or too oily, get a 25-cent bottle of Knowlton's Dandarine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

Canadians Have Reason to be Very Proud of "CeeTee Underclothing"

**"CEE TEE" UNDERCLOTHING**  
 ALL PURE WOOL - GUARANTEED UNSHRINKABLE  
 MEANS ECONOMY PLUS COMFORT

NOT only is it manufactured by a firm who established themselves in Canada over 56 years ago—but a firm who have succeeded in producing woolen underclothing (CEE TEE) that is not surpassed anywhere in the world—not even in the Old Country—so famous for the high quality of its woolen goods.

When the British Government came to Canada looking for army underwear, ours was the only firm in Canada that had the necessary machines to produce the garments according to the samples which they brought with them. Therefore, they were compelled to change their specifications so that other knitting companies could be given some work immediately.

"CEE TEE" Underclothing is all made on these special machines, from only the finest Australian merino wool obtainable. This wool is combed and combed until every possible particle of foreign matter is taken out, and it is washed until it is as clean as human ingenuity can make it. The yarn is then knitted to fit the human form. This is why it sets so neatly over the body, making the outer clothing fit as perfectly as possible.
