

HEARTBURN at Night ...

TWO RENNIES come to the rescue

SLIM CHANCE of getting to sleep if an attack of heartburn comes on. But you can get instant, soothing aid if you have RENNIES handy at your bedside. You can take RENNIES without getting out of bed (no water needed).

Digestif RENNIES are pleasant-tasting tablets. You dissolve them in your mouth like candies and their soothing antacid ingredients mingle with the saliva in your mouth and drip gently into your stomach, starting at once to help neutralize excess acidity and quickly help to relieve miserable gnawing sensations and distress of heartburn, "risings in the throat", acid indigestion, upset stomach.

Each Rennie's tablet is individually wrapped in hygienic waxed paper, so you can always carry a few Rennie's in your pocket. Easy to take—anytime, anywhere. At all Druggists—25c. and 70c.

W. H. BEATON, Auctioneer.

Report Of High School Committee

The following report of the High School committee was submitted by the chairman, Mrs. Gordon MacDonald at the annual meeting last week of the School Improvement League:

"Your High School Committee has had a short but eventful career since its appointment in January.

"The work has been so extensive that it has carried over into the hands of the executive and in fact to most of the club membership. Without your help this committee could not have carried out the many necessary details of our Composite High School project.

"This report would not be complete without some mention of our previous High School activities. The Composite High School has been a main League project for the past four years.

"In our first year, we undertook an earnest study of the local and provincial educational situation. We carried out numerous interviews, re the High School question. In answer to our queries, educators and leading citizens alike pronounced the deep need for more adequate high school opportunities, particularly for the more technically minded pupils.

"Moreover, our League sought the advice of leading Canadian educators, so as to gain some insight into the educational systems of our sister Provinces.

C. N. E. A. Report

"At that time, the 1943 survey report of the C.N.E.A. (Canada and Newfoundland Education Association) was recommended to us as the most authoritative analysis of Canada's educational needs.

"This report suggested the Composite High School plan to us as the most practical solution to our serious school problems.

"It will be recalled that the fruit of our study was reviewed in the form of fourteen letters, which appeared in our two daily newspapers, wherein our Provincial educational needs were discussed and a Charlottetown Composite High School was recommended to meet our City School needs.

"All through these years, we have tried to bring home the need of a high school, to the public in various ways. Two years ago, we presented a brief to the Provincial Reconstruction Committee, recommending a Charlottetown High School.

"A year ago the Charlottetown Junior Chamber of Commerce poll showed an 89 per cent favorable vote for a Charlottetown Composite High School.

"Furthermore, the League requested the Charlottetown School Board to seek ways and means to institute a Charlottetown Composite High School. In 1945, we were encouraged when this Board set up the following High School Committee: The Hon. Dr. W. J. P. MacMillan, Mr. J. W. Boulter, Mr. H. P. McPhee, Mr. J. P. Lantz and Mrs. J. Gordon MacDonald.

"Along the way, however, our League was advised to postpone further definite action, re high school, because of the Province's proposed regional composite high school programme. This year when this plan became a more definite likelihood, the League's High School Committee was set up.

"Shortly after this, the Charlottetown Legion endorsed the Charlottetown Composite High School as a most fitting War Memorial.

Meeting With W. I.

"In view of the Regional Composite High School plan, the Executive, aided by the H. S. Committee, planned a meeting with the women's Institute representatives from the twenty-four surrounding districts. Early in March, a most successful luncheon meeting was held at the Charlottetown Hotel, with excellent rural representation. Mr. L. W. Shaw, Director of Education, was our guest speaker and outlined the function of the Regional Composite High School.

"In the discussion which followed on the Charlottetown Regional Composite High School, our rural neighbors showed great interest in the proposed school, but expressed some concern, re transportation difficulties. However, the general feeling of the meeting seemed to be that in consideration of the great advantages to be had, transportation should not prove an insurmountable obstacle with ten as pupils. Mention too, was made of the fact that several districts on the Island were already transporting their pupils successfully with above average rate of attendance.

"At this meeting it was decided that we should plan to have a Regional delegation wait upon the Provincial Government with the proposal that one of the first Regional Composite High Schools should be located in this region, at Charlottetown.

"The provision was made that first of all, we must inquire of the Central Committee of the Women's Institute, if the proposed action was in line with their general policy. This approval was gained.

"Plans were then formulated for our Regional Delegation, which we hoped to have as strong and representative as possible. Some effort and an excellent response realized this ambition.

Regional Delegation

"The Regional Delegation of some hundred persons was headed by Hon. Dr. W. J. P. MacMillan and included His Worship Mayor MacDonald and representatives from the Charlottetown School Board, the Rural School Boards, the Charlottetown School teachers, the rural school trustees, the Women's Institute, the School Improvement League, the Catholic Women's League, the Imperial Order of the Empire, the Charlottetown Legion, the Home Economists, agriculture industry, the Board of Trade, the Y. M. C. A., the Knights of Columbus, the Kinsmen Club, the Rotarians and the Gyro Club.

"A strongly worded brief was presented by Mr. J. W. Boulter, who spoke on the subject and was followed by His Worship Mayor MacDonald and the different representative speakers.

"It was pointed out that the Charlottetown region included one sixth of the pupil enrollment of the Island; that there is a pressing need to provide adequate education for these regional pupils; that there is an immediate need for expansion of city and rural schools in this region; that the Regional Composite High School is the most logical answer to our educational problems, and that the time never more opportune; that the peoples of this region had shown themselves educationally minded and so undoubtedly would make excellent use of Composite High School facilities. It was suggested that the vocational wing, soon to be vacated by the veterans, might form part of the proposed high school. The Provincial Government did not give our delegation a very definite or encouraging reply.

"However, our League, after due consideration decided that we must continue to press forward for an early settlement of our great and urgent needs.

How to give TIRED EYES a quick rest

MAKE THIS SIMPLE TEST TODAY

MURINE FOR YOUR EYES

EYES TIRED? Soothe and refresh them in seconds with two drops of safe, gentle Murine in each eye. You get—
QUICK RELIEF. Instantly your eyes feel refreshed. Murine's mild blend of 7 ingredients cleanses and soothes eyes that get tired from overwork or exposure to sun, wind and dust.

Scantlebury and Mrs. Harry Cudmore.
"The citizen's committee met and decided to wait upon the Charlottetown School Board.

Board of Trade Committee
"At this time, we were informed that the Charlottetown Board of Trade had officially endorsed the Charlottetown Composite High School. A Board of Trade Committee was appointed; Mr. Frank Curtis, Mr. Frank Storey and Mr. Walter Pickard. This committee is to co-operate with the citizen's committee and School Improvement League in their High School endeavours.

"On Monday, June 2nd, a combined delegation (Citizen's Committee, Board of Trade and School Improvement League) waited upon the Charlottetown School Board. The view of the citizen's meeting was presented that a Charlottetown Composite High School be established at the earliest possible moment. A request was made that a definite answer be given to the Citizen's Committee, within a reasonable length of time.

"The Committee from the Board of Trade presented their organization's endorsement of the Charlottetown Composite High School and suggested that the financial aspect of the problem should be thoroughly investigated, along with a study of our city school needs.

"The School Improvement League representatives said that their organizations, after due investigation, were thoroughly convinced of the necessity for a Charlottetown Composite High School, and said that in a long term view, it would be good business for this community to have a Composite High School.

Potential Enrollment
"In the discussion which followed, it was suggested that the Department of Education might be consulted for the actual and potential high school enrollment, and in the matter of high school

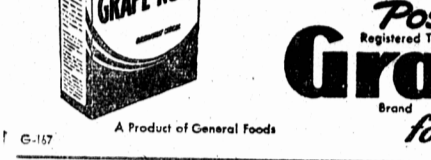

King and Bay Sts., Toronto, in 1897 — that's when Grape-Nuts was born!

A Sensation at the Turn of the Century

ALMOST from its very beginning in 1897, Grape-Nuts was a sensation. That malty, sweet-as-a-nut flavor made an instant hit. And the fine nourishment provided by Canadian wheat and malted barley has helped make better breakfasts for 50 years.

Enjoy "golden good" eating with Grape-Nuts. Buy the new red-white and blue package — really economical because only one tablespoon makes an average serving. Your grocer has Grape-Nuts.

Post's Grape-Nuts for "Golden-Good" eating

courses to be offered, so that an estimate of cost might be gained. The Hon. Dr. W. J. P. MacMillan, acting chairman of the Charlottetown School Board promised the Board's investigation of the High School matter.

"From time to time, CFCY has made generous offers of free time to us for educational broadcasts. We believe that an Educational Forum on the High School ques-

tion will be most timely. This series, we hope will begin on Monday, June 9th at 9:15. At these broadcasts we invite all citizen's opinions on the Charlottetown Composite High School and hope to have many different points of view expressed.

"Thus you will have noticed that the high school movement is not confined to School Improvement League ranks, but has become a popular cause enlisting the sympathy and support of numerous progressively minded citizens and organizations of Charlottetown and surrounding area.

"We may well be proud of the major part which our League has played.

"In conclusion, I should like to thank my fellow committee members, Mrs. W. E. Scantlebury, Mrs.
