NON RUSTABLE D&A CORSETS

"D & A" or "La Diva" Corsets retailing at $2.50 are equal in style, material and workmanship to imported corsets costing $3.50 to $5.00; the duty and extra profit—for which *you* get nothing, explains the difference.

Quite aside from your natural wish to encourage Canadian workmen, it is worth your while, for the saving it involves—to buy a "D & A" or a "La Diva" Corset.

LECTURE WELL ATTENDED.— North Wiltshire and Cross Auxiliary Public Hall, Thursday evening, June 3rd. The patriotic lecture by Rev. G. C. Taylor, of Zion Church, Charlottetown, "Canada's Duty at the Present Crisis" was inspiring, informing and impressive and much delighted the respectable and representative audience which filled the hall. All present got a splendid vision of Canada's splendid heritage, boundless resources and the urgent duty and need of the hour. Men, the right kind of men are wanted for development at home and fighting abroad, that the priceless liberties won for us at such cost by our ancestors, might be preserved and handed down to posterity. Hon. George Orman, of Cornwall, presided, and on motion of Hon. L. L. Jenkins, Messrs. Murdock MacLean and John F. Godfrey, the eloquent lecturer was thanked and assured of an enthusiastic welcome at any future visit. Financial results encouragingly helped out by the sale of homemade candy from the hands of the fairer sex. It was through the following ladies: Mrs. D. W. Henderson, and Mrs. John Godfrey, on behalf of North Wiltshire, that the busy, energetic and esteemed pastor of Zion Church, was invited to aid in the good work.

MT CARMEL AND VICINITY. — Messrs Andrew J. Arsenault and Daniel S. Gallant are going into more or less extensive gardening this spring; the former in the sundries of garden plants and the latter specializing in Celery. The prospects of Lobster fishing seems to be brighter than through the foregoing season. —Miss Juliannie who has been spending over a year in a convent in Montreal returned to her home in Mont Carmel as a convalescant of typhoid fever. Her many friends and relations wish her speedy recovery.— —The Mont Carmel school district garden and house plots are well under way and it is hoped that the undertaking will be a success, in spite of the fact that any new introductions in a community is always partly disregarded and finds opponents as well as adherents. But people begin to understand that agriculture is the main support of the majority, especially so in this section. —R.

TEACHERS' ASSOCIATION. —The regular meeting of the Southern Teacher's Association was held in Prince of Wales College on Saturday last. There was a large attendance and the President, Mr. H. Christopher, occupied the chair. After the President's address the Superintendent of Education, Mr. R. H. Campbell spoke briefly, congratulating the teachers of this Inspectorate on the success of their Association and giving them much encouragement and good advice. The following resolutions were then passed: "Be it resolved that we, the members of the Southern Teachers' Association ask the Board of Education to increase the indemnity allowed teachers attending the Summer School, inasmuch as the cost of living has increased and the present allowance is inadequate to meet necessary expenditures. Be it further resolved that a copy of this resolution be handed to the Eastern Teacher's Association and Public School Teachers Association of Southern Kings." A resolution was also passed asking the Board of Education to define, for the information of the teachers, the stated holidays. The president requests all teachers to notify the Secretary, by June 22, whether they intend to remain in their respective schools or not. The next meeting of the Association will be called by the President during the session of the School.

LIVE STOCK SITUATION.—During the past winter the Departments of Agriculture, local and Federal, were conducting the patriotism and production campaign throughout the province. They were anticipating higher prices, not only for grain crops,, but also for all kinds of live stock, but these higher prices do not seem yet to have materialised. Quite a number of elements entered into the market and helped to keep down prices. One important consideration has been the difficulty of water transportation. Many of the Trans-Atlantic ships have been withdrawn from their regular trade routes by the Imperial Government, while the great liners of Germany have been either interned or destroyed. The regular freight or tramp steamers have been called on to supply the places of those requisitioned, and smaller steamers have had to take the place of the larger ones; so that not only have freight rates on the water advanced, but in many cases it is almost impossible to reach the markets. A local instance is the difficulty of securing a boat to make the regular trips to Newfoundland, the "Morwenna" having been taken off the route and afterwards sunk off the coast of Ireland. There has been, nevertheless, a great destruction of live stock, and there is an increasing scarcity. Prices of horses show every indication of advancing, and buyers are watching the young horses that are coming on, so that they will be ready to locate the best offerings when they are called for. The cattle situation is better. The fox industry has been the means of taking off quite a lot of calves during the past year, and to-day there is a good demand for young cattle; in fact, every calf from anything like a good cow is being kept this year and the demand is not being met. It is true the price of beef cattle has not been higher this year than it was last, and now and again there is a heavy run of stock brought to the big markets, which causes congestion. However, men best informed are buying stockers at big prices with the expectation that beef will advance as the season goes on. Everything points to increased prices for beef cattle. The same is true of milk cows. With cheese at 18 cents per pound and butter about 30, an advance in the price of milk cows is to be expected.
