Matinee 3.15 16c, 26c. Evening 7 & 8.45 26c, 42c.

UP POPS THE DEVIL

With CAROLE LOMBARDO STUART ERWIN NOMAN FOSTER

BEDEQUE

The Young Peoples Society of the United Church at Centreville entertained the Young Peoples' Society of the Tryon United Church...

testify the popularity of the bride and groom in the community. The bride and groom will reside in their new home in Wilmot Valley...

Mrs. Edward England of Bideford, is spending a very enjoyable holiday in Central Bedeque...

The following is the standing of Honor Roll for the Emerald School for the month of September and October:

- Grade X-1. Margaret Ford; 2. Helen Smith; 3. Genevieve Kelly. Grade IX-1. Mary Croken; 2. Eileen Allen; 3. Florence Mayne.

SPRINGFIELD

Friends here will hear with regret of the death in the Orange General Hospital, Orlando, of the infant child of Mr. and Mrs. James Bowness...

On Saturday evening, October 31st, a number of the neighbors from Pleasant Valley and Springfield gathered at the home of Mr. James Hill...

The many friends of Mrs. Henry Mallett, are pleased to see her home again after undergoing a minor operation in the Prince County Hospital...

The honored gentleman thanked the people in his usual versatile manner and assured them that he highly appreciated their thoughtfulness. All joined in singing "For He's a Jolly Good Fellow..."

Miss Ina B. Phillips of Arlington Lot 14, spent a few days visiting friends in Springfield and Summerside.

Mr. Sinus C. MacDonald of Springfield, was a visitor to Summerside Tuesday.

Mr. D'Arcy Fleming of Stanley

Bridge was a recent visitor to Graham's Road.

Mr. Edmund Smith and Mr. Leo Grunau, Newton were recent visitors to Hope River.

Miss Vivian Woodside, Lot 16, and Miss Carrie Woodside of Stanley spent last week-end very pleasantly in Springfield, the guest of Mr. and Mrs. Hyatt Haslam.

The annual meeting of Springfield Women's Institute was held at the home of the President, Mrs. Muriel Haslam with fourteen members and two visitors present.

The chicken supper in Hamilton Hall on Tuesday evening was well patronized not only by the Hamilton folk but also by many friends from the surrounding districts...

Messrs Thomas MacNutt and Harold Stewart were motorists to different districts in the Western part of the Province on Friday.

The following conveners were then appointed: Agriculture—Mrs. John Sinclair; Home Economics—Mrs. George Haslam; National Events—Mrs. Helen Buntain; Better Schools—Mrs. Ernest Haslam; Immigration—Mrs. Anna Lambe; Legislation—Mrs. Laura Haslam; Canadian Industries—Miss Muriel Haslam; The Sick Committee for the coming year are: Mrs. J. Ernest Haslam, Mrs. J. B. MacKay and Mrs. J. Norris Sinclair.

Correspondence was read by the Secretary and also letters of thanks from Miss Muriel Haslam and Miss Ruth MacLeod, thanking the members for fruit received.

The next meeting is to be held at the home of Mrs. H. B. Haslam and Mrs. Ernest Haslam and Mrs. John E. Sinclair will provide refreshments. Program Committee for next meeting: Miss Muriel Haslam, Mrs. Norris Sinclair and Miss Margaret Lambe. The Christmas Tree Committee: Mrs. Hyatt Haslam, Mrs. Anna Lambe, Miss Helen Buntain and Miss Lillian Matheson. Lunch was served by Mrs. George Haslam assisted by Mrs. Norris Sinclair and Mrs. Hyatt Haslam, and a pleasant social time was spent. The National Anthem brought the meeting to a close.

The regular meeting of the "Loyal Canadian" Junior Red Cross Branch was held in Springfield School on November 20th, with seven members present. This minutes of the previous meeting were read, adopted and signed. Evelyn Matheson, Bobbie Howard and Ardyce Haslam were appointed on the program committee. Raymond Haslam and Marguerite Sinclair were appointed on the clean-up committee. Marguerite Sinclair read the story book entitled "Trav-

els of a Rolled Out." Ruth C. Lambe was appointed to read the book at the next meeting. Roll call for next meeting to be answered with a riddle. There being no further business, the meeting then adjourned.—E.

MALPEQUE

Much uncertainty centres around the disappearance of Mr. Edward Manderson, Darnley who left his home on Tuesday morning to go cod fishing and who so far has not returned. Every effort has been made to ascertain his whereabouts; cutter was brought from Charlottetown to see if any trace of his boat could be found but, so far the search has been in vain. "Neddy" as he was familiarly called was a warm hearted generous man. The manner of his disappearance was a shock to citizens in general and is a source of great sorrow to the members of his home.

The chicken supper in Hamilton Hall on Tuesday evening was well patronized not only by the Hamilton folk but also by many friends from the surrounding districts...

Messrs Thomas MacNutt and Harold Stewart were motorists to different districts in the Western part of the Province on Friday.

Mrs. Thomas MacNutt, left on Friday morning for Kensington where she will spend several days the guest of Mrs. Malcolm MacGougau, enroute to Campbellton, N. B. where she will spend two months. Later she will go to Montreal to visit her brother Mr. J. B. Carr of that city.

Mr. and Mrs. Charles Ramsay of Summerside were recent motorists here. On their return they were accompanied by Mrs. Wm. G. Ramsay who will spend a week as their guest.

Miss Irene MacDonald who has been spending some time in Boston returned to her home in Baltic on Tuesday.

A very interesting and instructive illustrated lecture was given by the Rev. H. N. Konkle in the Keir Memorial Church on Tuesday evening. The lecture was given in the interest of the Leper Mission in India, Asia and Africa. The pictures added very materially in impressing upon the minds of those present the great importance of the work being done in homes, schools and churches in these different mission fields—a work which calls for the sympathy and hearty cooperation of all peoples.—M.

ROLLO BAY AND VICINITY

Miss Lauretta MacRae, teacher at Fortune Head spent the week-end at her home in Rollo Bay West, she had as her guest Miss Helen Lewis St. Peter's.

Mr. Gerard MacCloskey, Bear River, spent Sunday in York the guest of Mr. and Mrs. Wallace MacVarish.

IMPERIAL FOX BISCUITS and Imperial Kibbled Food contain only the choicest Government-tested ingredients, are highest in vitamin content and have the greatest food value to the pound. 10176-11-18-61.

CHICKEN SUPPER.—The Women's Association of the United Church, Hunter River, held a Chicken Supper and Bazaar at their hall on Tuesday evening, Nov. 17, and was a decided success. The tables were loaded with all sorts of good "eats" while generous helpings of chicken were passed. A beautiful collection of fancy work was on sale which is so appropriate for the coming season. The ladies of the association are to be congratulated on the work which they have accomplished and much credit and thanks are due everyone who made this interesting affair such a success, the large sum of eighty dollars was realized which is good encouragement for to start another year work.

PERSONALS

The many friends of Eddie R. Townshend will be sorry to know that he is a patient in the Prince Edward Island Hospital.

Mrs. Roy Crockett, Master Billy and Hazel and Mr. Leith Townshend spent the week end in Charlottetown with their parents Mr. and Mrs. Townshend.

Mr. Louis Gallant, teacher at Rollo Bay West School paid a visit to Charlottetown recently.

Less Failures

(Canadian Press) OTTAWA, Ont. Nov. 20.—Commercial failures in Canada under the Bankruptcy and Winding Up Act, showed a decrease in September last, totalling 165 as compared with 192 in the same month in 1930. Liabilities of the assignors totalled \$5,166,575 as compared with \$2,061,447 in September 1930.

There were 9 failures in the Maritime Provinces, 67 in Quebec, 58 in Ontario, 24 in the three Prairie Provinces and 7 in British

Y. W. C. A. SECRETARY IS IMPRESSED BY CITY

SAINT JOHN, N. B. Nov. 23.—Returning to St. John after a year spent in Y. M. C. A. and Y. W. C. A. work in St. John's, Newfoundland, Mrs. Percival Foster, National Field Secretary of the Y. W. C. A. was warmly welcomed back by fellow workers and many old friends recently. Mrs. Foster for more than a year was general secretary of the St. John Y. W. C. A. has been in St. John's in an endeavor to get in closer touch with the "Y" work there, and since her return has visited Sydney, Halifax, and Yarmouth.

Mrs. Foster commented on Saint John's "spruced up" appearance and the fine new buildings. She was also greatly pleased with the new Y. W. C. A. building which will be opened shortly in Halifax.

Which is the most impudent thing in the kitchen? The sauce-pan.

Why are milestones like orange pips? Because they are never found in pairs (pears).

The Misses Kathryn MacRae and Betty MacCormac, Rollo Bay West were on a motor trip recently.—R.

PRINCE BANNED FROM COURT FUNCTIONS

VIENNA, Nov. 23.—(AP)—King Carol of Rumania had been persuaded to let his brother, Prince Nicholas, keep his plebeian wife and would merely forbid their attending any state function together, said dispatches from Bucharest by Way of Prague.

The King stormed and fumed, the dispatches said, when two of his ministers took sides against him, but he ultimately accepted their counsel.

He had intended forcing one of three equally unacceptable measures upon the Prince, who married Mme. Jana Lucia Delet against the royal wishes. Those measures were that Nicholas would have to renounce the marriage; be stripped of his royal privileges, or live abroad in exile.

NEW DOCK UNION FORMED

BOSTON MASS., Nov. 23.—Organization of a new dock workers' union was announced yesterday by a sub-committee of the committee of steamship operators whose lines have been affected for nearly two months by a strike of Boston locals of the International Longshoremen's association.

At the same time, Thomas H. Mahoney, counsel for the striking Longshoremen, revealed that action by the state board of conciliation and arbitration to settle the strike was expected this week as a consequence of a conference between himself and officials of the board.

The new union was announced by the steamship operators sub-committee as the Boston Dock workers' federation and its membership is to include longshoremen, clerks, dock freight handlers and other divisions of water front workers, the bylaws set forth.

AGED LADY IS DROWNED

(Canadian Press) WOLFVILLE, N. S., Nov. 22.—Half-obliterated footprints in wet sandled searchers yesterday to the body of Mrs. George Loomer, seventy-four year old woman of North Grand Pre, which was found washed ashore on the Beach below Red Head. Searching parties, sent out the previous night when the aged woman failed to return to the home of Frank Davidson, her nephew, grew to include two hundred people. Finally the body was found by Clarence Brown, Thomas Darkin and Aleck Stevens of Wolfville, after the footprints had offered evidence that Mrs. Loomer had strayed out over the marsh bordering the waters of Minas Basin. A shoe had been found more than a mile from the place where the body was discovered.

Mrs. Loomer had left the Davidson home early in the evening. She is believed to have become exhausted and fallen to drown with the incoming tide.

METHODS OF OPERATION

"At Chesterfield Inlet" he said, "we will have the most modern instruments available for magnetic studies in the Arctic regions. This point will be the nearest of the stations to the magnetic pole, and it thus will be one of the most strategic to be occupied during the second polar year. Here will be measured and studied the magnetic elements of horizontal and vertical force, and the deviation from the true north of the magnetic needle, all with self-recording instruments which will provide a continuous record of the elements involved.

The strictly meteorological programme to be followed at Chesterfield will include regular observations of pressure, temperature, humidity, clouds, rain and wind direction and velocity, the last by sending up pilot balloons for observation through specially constructed telescopes. In addition this station will make simple observations of the Aurora Borealis, and the frequency of currents will also be studied.

"The outpost at Coppermine will have a staff of four men, as at Chesterfield, but will specialize in the study of meteorology and the manifestations of the Aurora. Especially interesting work will be carried on at Coppermine in an effort to determine the actual height of the Aurora above the earth, an item of information which will be of tremendous value in working out the causes of the Aurora, its nature, effect and extent. Its propagation and relation to the sun will be given particular attention, as well as its effect upon magnetic elements.

"The height of the Aurora will be measured by stationing cameras at points 15 or 20 miles apart. With the aid of radio or telephone communication, the cameras will be exposed simultaneously. By noting the position of stars shown in the

Canada To Play Important Part In Arctic Year

Dominion Will Send Three Expeditions In Connection With "Second International Polar Year".

(Canadian Press) TORONTO, Ont., Nov. 23.—Canada next summer will send three of 11 expeditions into the north country which will carry on meteorological, magnetic and other observations in connection with the "Second International Polar Year" for the recording and co-ordinating of Arctic and Antarctic data which scientists believe will be useful in forecasting natural conditions all of which arise in more temperate zones of the earth's surface.

In the northern half of the enterprise five of the special observations will be established on Canadian territory within or bordering on the Arctic circle.

Countries besides Canada which have signified their intentions of participating in the various expeditions are Great Britain, France, the United States, Holland, Sweden, Norway, Denmark, Germany, Italy and the Union of Socialist Soviet Republics.

The "First Polar Year" was launched in 1882 and expeditions remained in the field until 1883, securing much of the information on which modern navigation and meteorology is based. Next year, just 50 years after the start of the first venture, stations occupied by parties 50 years ago will be re-occupied as far as possible and a number of new stations will be established to make the work as comprehensive as possible.

John Patterson, director of the Dominion Meteorological Service at Toronto, who has been occupied for some time assisting in drawing up the preliminary details of the scheme, will organize the three Canadian expeditions which the Dominion Department of Marine will send to Chesterfield Inlet, on the west shore of Hudson Bay; to Coppermine, on Coronation Gulf and to Meacock, 75 miles north of Edmonton, Alta. The total cost of equipping and maintaining these expeditions in the field for the 14 months they will be away will be between \$40,000 and \$50,000. The personnel of the Canadian expeditions will number about ten men.

Great Britain will maintain a station at Fort Rae, on Great Slave Lake, a privately financed expedition from the United States will be established at Fort Conger, on Lady Franklin Bay, only 600 miles from the pole.

Mr. Patterson recently outlined the work of the Canadian expedition participating, to a local newspaper.

Large Export Of Canadian Newsprint

OTTAWA, Ont., Nov. 22. (By the Canadian Press)—Total exports of Canadian Pulp and Paper Manufacturers for the month of October last were valued at \$9,022,907 as compared with \$8,754,089 the previous month and \$11,879,477 in October 1930. Figures issued yesterday by the Dominion Bureau of Statistics show that these shipments in October were divided as follows: To United Kingdom \$722,126; United States \$7,538,248, and other countries \$761,698. Newsprint made up the bulk of the exports, the United States getting \$7,479,556 worth and the United Kingdom, second best customer, \$602,085. Australia took newsprint to the value of \$287,191.

Our Christmas Number

Drawing and Story Competitions To give you a people a chance of entering, we are making an early announcement of the Guardian Christmas Number—competitions Prizes will be given in two sections as follows: (1) BOYS AND GIRLS BETWEEN 13 and 20 YEARS:—For best stories—1st prize, \$3.00; 2nd prize, \$2.00; 3rd prize, \$1.00. For best drawings—1st prize, \$3.00; 2nd prize, \$2.00; 3rd prize, \$1.00. (2) BOYS AND GIRLS LESS THAN 13 YEARS:—For best stories—1st prize, \$2.00; 2nd prize, \$1.25; 3rd prize, 75c. For best drawings—1st prize, \$2.00; 2nd prize, \$1.25; 3rd prize, 75c. Stories should not exceed 1000 words. The subjects should be of a Christmas nature. The drawings should be in firm outline in Indian ink without shading lines, and sheet of note-paper. They must, of course, be original work, not mere copies.

Entries, addressed to: Christmas Number care Charlottetown Guardian and marked "Christmas Story" All entries must reach the Guardian Office not later than December 1st.

photograph and with the help of previous scientific knowledge, it will be possible to work out from these photos the actual extent of the Aurora.

"Meteorological work at Coppermine will consist of full sunrise observations and daily releases of pilot balloons for wind recordings. During the winter special ascents will be directed of balloons carrying a meteorograph. This device, designed in our Toronto office and workshop, is a simple signalling device by which every variation of temperature of three degrees up or down, is automatically signalled to watchers on the ground by flashing lights on the device. In this way it is possible to take periodic readings of temperature variations in the upper strata of the atmosphere with exceptional accuracy, furnishing information regarded as of the utmost importance in meteorological study.

It is also hoped to measure at Coppermine at regular intervals through the year of observation the amount of ozone in the atmosphere and how far the ozone belt extends from the earth, clearing up considerable of the uncertainty now prevailing as to the variation of ozone over the surface of the globe.
